Living in Nature

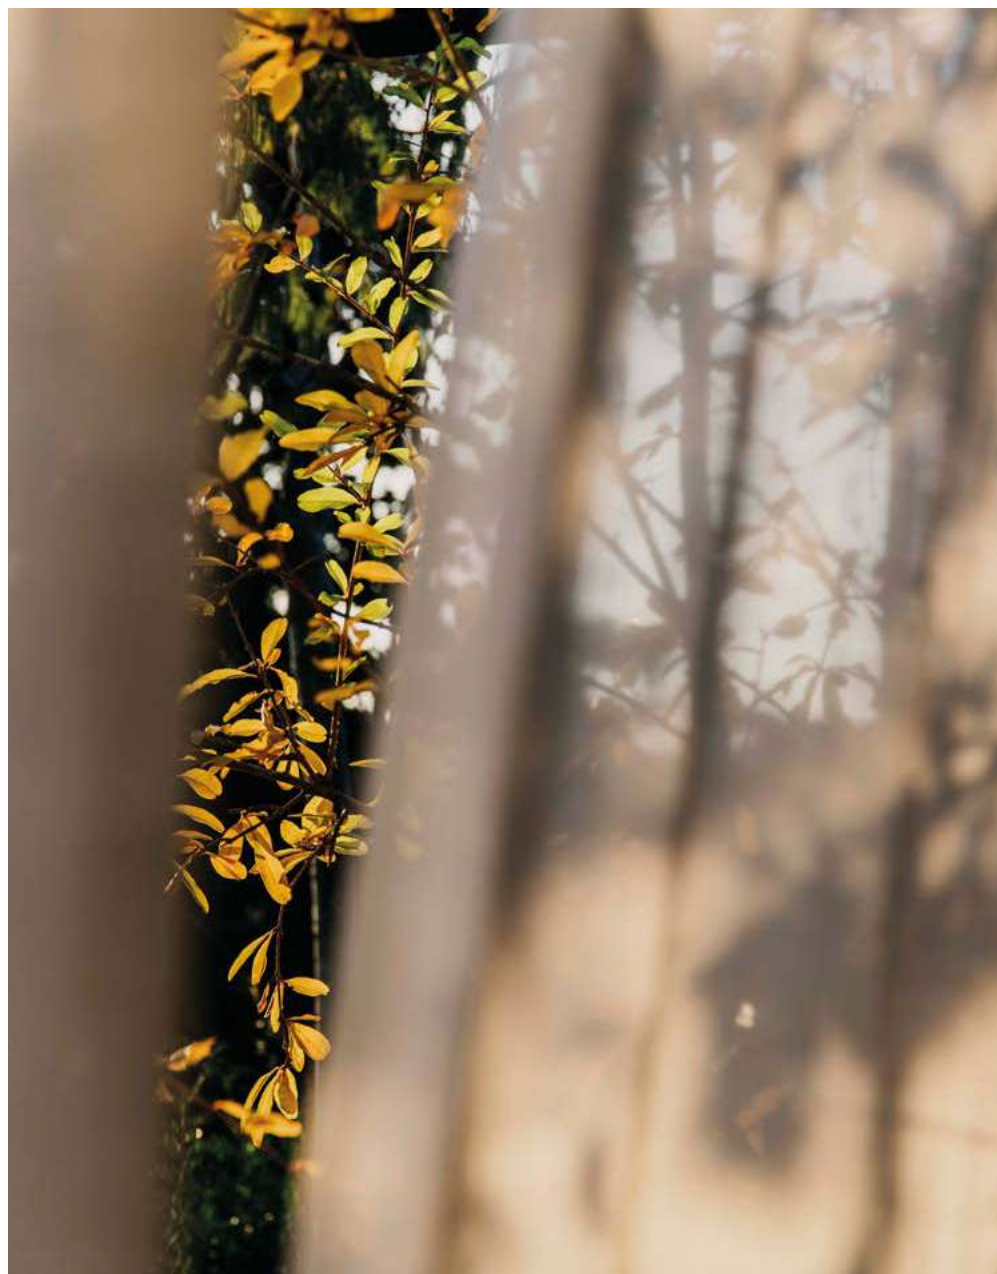

^{IT} Da sempre, il contatto con la natura ci appaga e ci fa sentire in armonia con noi stessi. Più le nostre giornate sono dominate dalla virtualità e costrette in spazi chiusi, più diventa forte il bisogno di trascorrere del tempo all'aria aperta. Giardini, boschi, prati, la riva del mare, i campi assolati o gli stretti sentieri di montagna... un mondo dove *i profumi, i colori e i suoni si rispondono*, come scriveva il poeta Baudelaire.

All'insegna di questo legame forte con l'ambiente, Fast presenta le sue nuove collezioni, qui proposte in una veste inedita e più ricca. L'ispirazione si lega agli elementi base – acqua, aria, terra, fuoco – in un linguaggio formale evocativo ma che punta all'essenza. Si tratta di arredi pensati per vivere gli spazi outdoor con la consapevolezza che si tratta di un'esigenza fondamentale e che gli eventi degli ultimi anni e mesi hanno reso ancora più urgente.

Arredi progettati per coinvolgere tutti e cinque i sensi, dove la sinuosità delle linee si accompagna alla seduzione tattile dei materiali e alla bellezza e vividezza dei colori. La relazione con gli spazi segue ora l'approccio razionale dell'occasione d'uso, ora l'impalpabile suggestione poetica creata dalle corrispondenze con il mondo circostante. Una texture può richiamare una superficie sabbiosa, una particolare tinta può evocare le sfumature del cielo in estate. La natura ci parla attraverso le forme, i suoni, le consistenze e l'arcobaleno di colori, è la nostra sapiente maestra.

Al centro, l'idea di spazi aperti da vivere prendendosi tutto il tempo che serve e durante tutto l'anno, grazie a prodotti pensati e costruiti per sfidare qualunque temperatura e condizione atmosferica. Arredi resistenti e di agevole manutenzione, pratici, confortevoli e flessibili. Perfetti per l'ambizioso ma quotidiano *Living in Nature* di Fast.

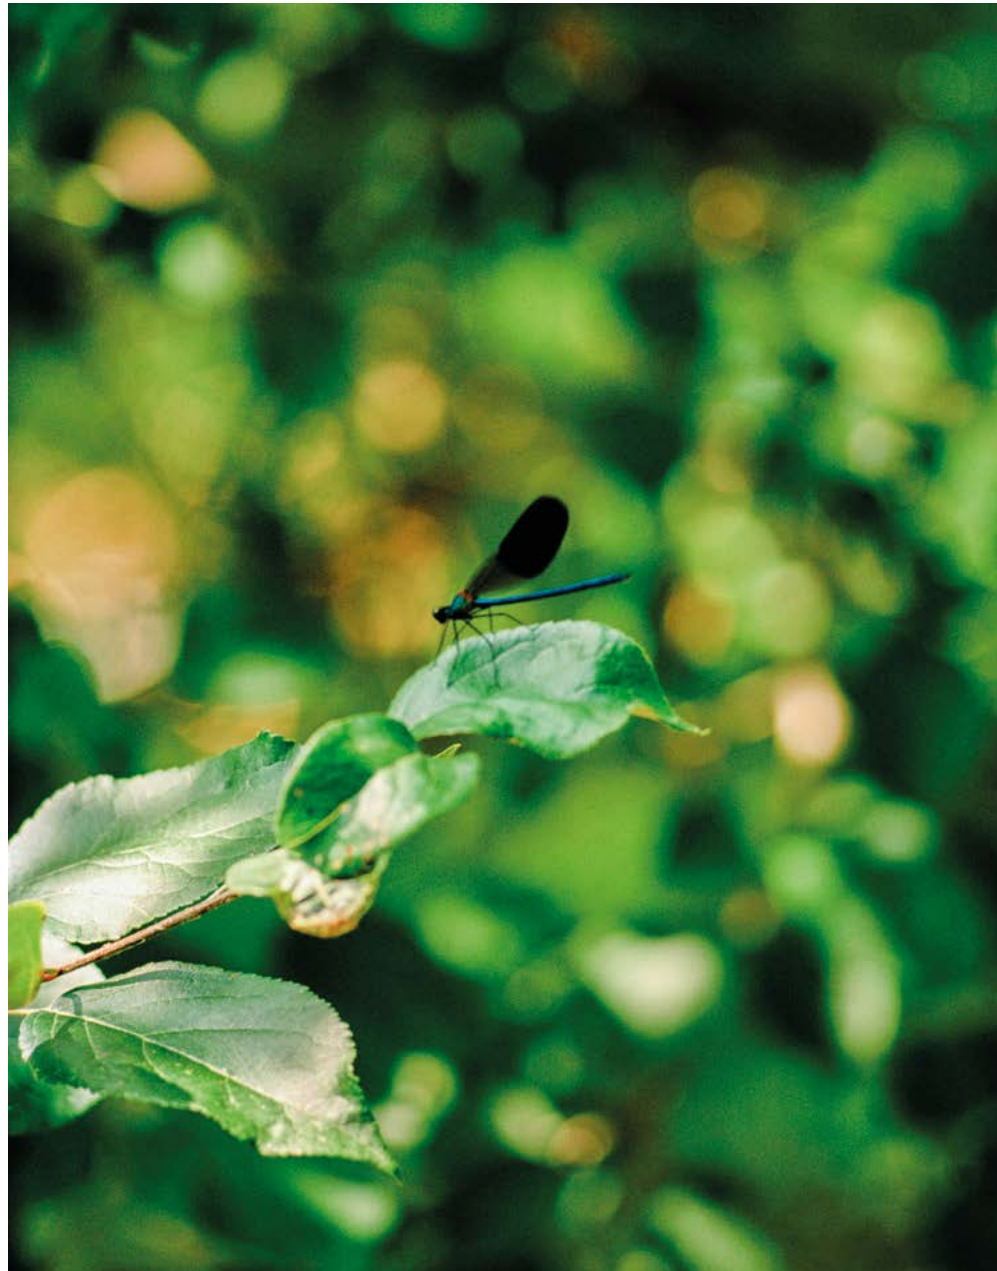

EN Contact with nature has always made us feel enriched and at peace with ourselves. The more time we spend in the virtual world, shut away indoors, the stronger our need to spend time outdoors. Gardens, woods, meadows, the seaside, sunny fields or narrow mountain paths... a world where *perfumes, sounds and colours correspond*, as Baudelaire once wrote. In the spirit of this strong bond with nature, Fast presents its new collections, in a brand-new, fuller form. Their inspiration stems from the basic elements – water, air, earth and fire – in a formal style that is evocative yet to the point. This is furniture designed in an awareness that spending time outdoors is a fundamental need, and that the events of recent years have made this need more pressing than ever. Furniture designed to involve all five senses, where sinuous lines are joined by the seductive tactility of the materials and the vibrant beauty of the colours. Its relationship with the spaces is led partly by the rational approach of its use, and partly by the elusive poetic charm evoked by its affinity with the surroundings. One texture might evoke a sandy surface, another particular shade might recall the colours of a summer sky. Nature is a wise teacher, speaking to us through shapes, sounds, textures and a rainbow of colours. Central to the collections is the idea of outdoor spaces that can be enjoyed as long as you need, all year round, thanks to products designed and built to withstand all temperatures and weather conditions. Resistant furniture that is easy to care for, practical, comfortable and versatile. Perfect for Fast's ambitious but everyday *Living in Nature* concept.

Manifesto

^{IT} L'*outdoor* è il cuore della nostra identità e della nostra filosofia. È l'amore per la natura in tutte le sue declinazioni e la passione per un design che sa costruire un dialogo armonico con gli spazi aperti. Abbiamo una chiara idea di come dev'essere un prodotto ecosostenibile: sicuramente un prodotto rispettoso di standard produttivi a basso impatto, ma anche un prodotto longevo, sia per la resistenza dei materiali che per lo stile intramontabile. Ecco perché la nostra idea di design è *timeless*: una forma capace di conservare intatta nel tempo la sua forza comunicativa.

A farci da guida sono tanto il passato – il legame con il territorio e le nostre radici, la sorgente della nostra *italianità* – quanto il futuro. Nel futuro vediamo e auspichiamo una tutela dell'ambiente che diventi preconditione per ogni concetto di impresa. Per dare concretezza a questa visione, abbiamo identificato "innovazione" e "rispetto" come parole-chiave al centro della nostra *smart nature*: il progresso tecnologico è strategico per la sostenibilità. È la passione per ciò che facciamo a renderci instancabili sperimentatori, sempre vicini alle esigenze del cliente. La funzione (*function*) non è mai indipendente dal sentimento (*feeling*); lo stesso concetto di comfort va considerato nella sua ampiezza, come un valore che abbraccia tanto la funzionalità quanto la bellezza che appaga lo sguardo. I valori ci ispirano, ma i fatti ci definiscono e riteniamo importante che la loro misurazione venga affidata a un ente terzo. Per questo le Certificazioni ambientali sono state al centro nei nostri sforzi di innovazione fin dall'inizio. La metodologia LCA, ormai una consuetudine per noi, ci permette di monitorare l'impronta ambientale di gran parte dei nostri prodotti lungo il loro ciclo di vita, dalla materia prima all'oggetto finito, per meglio valutare le inefficienze e ridurre gli sprechi. Il conseguimento della Dichiarazione EPD per alcuni prodotti è stato un traguardo importante: la garanzia, per i nostri clienti, di poter contare su informazioni trasparenti e comparabili con altri fornitori, in tutto il mondo. L'obiettivo che ci siamo dati è di estenderlo con il tempo all'intera produzione Fast.

EN The *outdoors* is central to our identity and our philosophy. A love of nature in all its forms and a passion for design that is in harmonious dialogue with open spaces is paramount. Our idea of a sustainable product is very clear: it should respect low-impact production standards, and it should be long-lasting, both in terms of material durability and timeless style. Hence our concept of design is *timeless*: a form that will maintain all its communicative power intact for years to come. We are led as much by the past – our ties with Italy and our roots, the source of our *Italian identity* – as by the future. In the future, we envision and hope that protection of the environment will be a prerequisite for every business idea. In order to make this vision a reality, we have identified “innovation” and “respect” as the key words at the core of our *smart nature*: technological progress is crucial for sustainability. It is our passion for what we do that makes us tireless experimenters, always led by the needs of our clients. *Function* can never be separated from *feeling*; the concept of comfort itself should be considered in its fullest sense, as a value that encompasses aesthetically pleasing beauty as much as it does functionality. Values inspire us, but facts define us, and we believe it is important that they are measured by an external body. Which is why environmental certification has always been central to our innovation efforts from the very beginning. The LCA methodology, now standard for us, allows us to monitor the environmental impact of most of our products throughout their entire life cycle, from the raw material to the finished product, in order to better assess inefficiencies and reduce waste. Certain products receiving the Environmental Product Declaration is a huge achievement: it means our clients can count on transparent information that can be compared with other suppliers throughout the world. Our goal is to eventually extend this achievement to the entire Fast production.

La nostra storia

IT Fast è un'azienda di arredi outdoor che ha fatto della Natura la propria ispirazione, del Made in Italy le proprie radici e dell'internazionalizzazione la propria visione del futuro. Nata in Valle Sabbia nel 1995, Fast individua nell'alluminio il materiale di elezione: leggero, versatile e duttile, l'alluminio è un materiale in sé sostenibile perché riciclabile all'infinito.

A esso si affiancano con il tempo altri materiali – gres, legni, tessuti e corde – tutti trattati per essere duraturi nel tempo, resistenti agli agenti atmosferici e completamente waterproof, all'insegna di un outdoor idealmente "all season" e con una accentuata flessibilità e possibilità di customizzazione. Consapevoli che il design rappresenta non una mera scelta estetica ma una sostanziale presa di posizione nei confronti del mondo, abbiamo scelto di affidarci a nomi capaci di interpretare la nostra idea di "timeless", un design longevo nelle forme e nel messaggio. La collaborazione con Robby Cantarutti & partners ha portato alla creazione della collezione Forest, tuttora bestseller dell'azienda, mentre allo Studio Lievore Altherr di Barcellona è dovuta una nuova sensualità e organicità delle linee estetiche.

La sostenibilità è per noi un impegno prioritario e irrinunciabile; lavoriamo in un territorio al quale siamo profondamente legati, coinvolgendo fornitori che condividono i nostri stessi valori e il nostro modo di fare impresa. La natura comprende tutto ciò che ci circonda: luoghi, persone, risorse, tradizioni.

Negli ultimi anni abbiamo intrapreso un deciso percorso di crescita con una forte proiezione internazionale. Vendiamo in tutto il mondo attraverso i nostri partner commerciali e oltre l'80% del fatturato di Fast si realizza all'estero.

Nel 2021 abbiamo ampliato e potenziato il nostro impianto di produzione e logistica e oggi Fast può contare, oltre che sul polo produttivo di Vestone, su un nuovo polo logistico e su un prestigioso showroom sul Lago di Garda, ospitato all'interno di un vecchio edificio del XIX secolo.

Our History

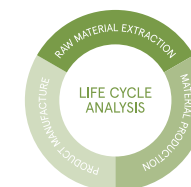

EN Fast is an outdoor furniture company whose inspiration is nature, whose roots are Made in Italy, and whose vision of the future lies in globalisation.

Founded in Valle Sabbia in 1995, Fast found its material of choice in aluminium: lightweight, versatile and ductile, aluminium is a sustainable material, as it can be endlessly recycled. Over time it was joined by other materials – stoneware, wood, fabric and rope – all treated to be long-lasting, weather resistant and completely waterproof, in pursuit of an all-season outdoor space with an emphasis on flexibility and customisation.

In the knowledge that design is not merely a question of aesthetic choice but a concrete approach to the world, we chose to rely on designers who could successfully interpret our idea of "timeless": design with an enduring form and message. Our collaboration with Robby Cantarutti & partners led to the creation of the Forest collection, still a bestseller, while the collaboration with Studio Lievore Altherr in Barcelona added a new organic sensuality to the aesthetic lines.

For us, sustainability is an overriding and fundamental commitment: we work in a place with which we are deeply connected, involving suppliers who share our values and our way of doing business. Nature encompasses everything that surrounds us: places, people, resources, traditions.

In recent years we have experienced a period of rapid growth with a strong international outlook. We sell all over the world through our sales partners and over 80% of Fast's turnover is generated abroad. In 2021 we expanded and upgraded our production and logistics facilities, and in addition to the production hub in Vestone, Fast now has a new logistics hub as well as a prestigious showroom on Lake Garda, housed in a 19th-century building.
