ENJOY THE OUTDOORS

# Retractable Awnings

## ENJOY THE OUTDOORS!

Create an eye-catching look for your deck or patio while adding more living space to enjoy!

From full-featured, luxurious awnings to cost-conscious entry-level models, the KE family of retractable awnings has just what you're looking for. Providing on-demand solar protection, retractable awnings expand your home beyond its walls. With the touch of a button or turn of the crank, these awnings transform your deck or patio into an attractive and comfortable expanded living space.

KE Retractable awnings provide high grade UV protection, allowing everyone to enjoy the outdoors longer and more safely.

Qubica Flat, Bella Plus, Domina and Elite Plus awning have been awarded certification by the Florida Department of Business and Professional Regulation to comply with standard ASCE 7-16 (ASD) and Florida Building Code Seventh Edition. This provides additional assurance that KE awnings are of superior quality and durability to provide many years of enjoyment.

# DESIGN & FUNCTIONALITY

Add Living Space to Your Deck or Patio  
by Creating the Perfect Outdoor Environment  
for Family and Friends to Enjoy

**MAXIMUM MEASUREMENTS**  
Max measurement up to 46' wide and up to 23' projection

**FABRIC ROLLING**  
KE designed and patented technology avoids folds and creases during the rolling process

**OVERALL DIMENSIONS**  
Elegant design reduces overall dimensions to produce an attractive profile, whether extended or retracted

**AUTOMATION**  
Available wind, rain and sun sensors allow for automation that helps to protect awnings against harmful weather

**WIND RESISTANCE**  
KE products are tested and rated to withstand windy conditions

**RETRACTABLE ARMS**  
Retractable arms are specifically designed for long service life

**EASY INSTALLATION**  
KE awnings are easy to install with fastening systems designed for each kind of wall

**FABRICS**  
More than 500 fabrics to choose from in a wide variety of styles and colors

**LED LIGHTING**  
Available to increase beauty, functionality, and use

Maximize your living space, get relief from the sun's harmful rays, reduce energy costs and create an elegant expression of your personal style.

Versatile and beautiful, KE awnings are custom-crafted and professionally installed to create a cool, natural extension to your home. Enjoy the Outdoors with KE.

# REGAL

The KE Regal retractable awning offers style, functionality and value. Regal is our most competitively priced custom shading system. An excellent choice to add beauty, dimension and detail to any part of your home, Regal's classic design is available in two standard frame colors - white and sand.

With a custom width up to 23' wide and a maximum projection of 11'2", Regal provides the shade you need wherever it's needed - a doorway, patio, balcony or picture window. With Regal, there is no need to sacrifice our most popular features.

Even when retracted, Regal adds a touch of sophistication and curb appeal to any home.

Available in motorized or manual configuration, Regal is constructed of strong, lightweight aluminum for durability.

Reduces sun glare to provide a more pleasant indoor environment.

Minimizes solar heat build-up, which helps to reduce home cooling costs.

Regal can be mounted on a wall, roof or soffit and comes with an 8-year frame warranty.

There are more than 500 fabrics to choose from.

The Pinnacle One tension roll-up shade system with full cassette creates a pergola post setup with direct attachment of the cassette to the building structure.

With spring/cord fabric tensioning, the maximum width and projection is 16' x 16' in a single module. Additional modules can expand the configuration to a maximum overall width of 48' width with dual track guide rails between modules attached to a single shared post column.

Drop screens can be added to the front side of the unit to provide protection from low sun angles.

Available with drop screens as shown below.

Pinnacle Two can be mounted on an existing pergola or other suitable structure. Constructed with the same engineering features as Pinnacle One, but without the front leg posts, Pinnacle Two mounts easily to the sub-structure with available variable height and side-to-side mounting brackets.

With spring/cord fabric tensioning, the maximum width and projection is 16' x 16' per single module. Additional modules can expand the configuration to a maximum overall width of 48' with dual track guide rails between modules.

Optional wall brackets are available for backside cassette mounting when top mounting is not feasible. In this configuration, the front side of the guide rail needs to be attached to the structure with a top mounting bracket.

# TOPAZ

This retractable drop-arm window awning in a cassette is perfect for windows up to 16' wide.

The spring-loaded arm tension guarantees a taut fabric cover that can be dropped to a 160 degree position, just short of totally vertical, while still allowing some light to enter. The sleek design of the front rail fits flush against the cassette housing that contains the fabric roller for a more attractive and compact appearance when the unit is retracted.

# INTEGRATED LED LIGHTING FOR RETRACTABLE AWNINGS

Standard Arm with Integrated LED

Somfy LED 24v DC Controller

LED Dimmer with Remote

## Pre-assembled LED Arms

These retractable awning arms include factory-installed, integrated LEDs that provide a sleek, clean appearance and help speed assembly of the unit. The soft LED light provides an enjoyable ambiance to enhance outdoor living with switch-controlled, non-dimmable LEDs. Pre-assembled LED Arms are available on Qubica, Bella Plus, Domina and Elite Plus awnings, in all sizes.

**Somfy's new LED Controller** adds dimmable functionality to pre-assembled LED arms and can control up to 2 pairs of retractable arms per controller.

## Pre-assembled LED Strips

Factory-installed integrated LEDs make these optional light strips quick and easy to install to add practical beauty to any KE shading system.

# AUTOMATION FOR YOUR RETRACTABLE AWNING SYSTEM

Adding weather sensors to your retractable awning helps to protect your investment and provides peace of mind when you're away from your awning.

Wind sensor systems can automatically retract your awning when high winds are detected, preventing damage to the awning.

Enjoy the outdoors while protecting yourself from the sun by equipping your awning with a sun sensor so that it opens automatically.

A Somfy wire-free motion sensor can automatically close the awning to help protect your awning from damage caused by high winds.

The Ondeis® WireFree RTS Rain and Sun Sensor is a solar-powered combined rain and sun sensor. Completely wireless, it uses optical rain-sensing technology to measure rainfall and sends an wireless command to close the awning when rainfall exceeds the user-selected threshold. The sun-level sensor sends a command when sunlight exceeds the user-selected threshold.

SOMFY Mylink WIFI

Transform your experience with Somfy motorized solutions that maximize benefits such as energy savings, privacy, comfort and convenience.

Somfy myLink puts you in control, so you can operate your motorized shades, blinds, awnings and screens with your favorite mobile device, whether you're home or not.
