EN Living without boundaries translates into a vision of living where the open-air world becomes an inexhaustible source of inspiration, sensoriality, and sharing. An open horizon that invites freedom, discovery, and the authentic pleasure of experiencing every space with intensity. Exteta has transformed this ideal into an art form, redefining outdoor living as an immersive and profound experience, in continuous dialogue with the landscape — whether natural or architectural — generating a fluid balance between interiority and horizon. An aesthetic of living that transcends physical boundaries and expresses itself through atmospheres, materials, and suggestions capable of creating authentic and lasting connections. Exteta's creations give form to this philosophy: pure expressions of stylistic elegance, material research, and artisanal savoir-faire, interpreted through a tailor-made design that adapts naturally to every setting. At the heart of each collection lies a meticulous selection of the finest materials, to ensure strength and durability over time. The finishes — evocative of ancient techniques, still applied by hand — give uniqueness to every piece, while constant experimentation with forms brings character and elevates aesthetic allure to new heights of refinement. Thus are born furnishing scenographies that speak the language of excellence, in terms of performance, quality, and style. A universe where each creation carries the distinctive mark of Exteta's haute couture. True to this identity, the company has given life to a distinctive outdoor lifestyle capable of reflecting the charm of the indoor. Anticipating the trends of contemporary design, Exteta has dissolved the boundary between interior and exterior, creating a single, coherent, harmonious, and continuous dimension. Spaces merge in aesthetic harmony, through compositions that mirror styles, materials, and design languages, in perfect balance between functionality and absolute comfort. It is a celebration of the full pleasure of living: the softness of the padding, the authentic tactility of natural surfaces, the enveloping sensation of hospitality designed in every detail. A design story that exalts conviviality and the art of living with an exclusive, essential, and profoundly elegant style.

IT Il vivere senza confini si traduce in una visione dell'abitare in cui il mondo en plein air diventa fonte inesauribile di ispirazione, sensorialità e condivisione. Un orizzonte aperto che invita alla libertà, alla scoperta, al piacere autentico di vivere ogni spazio con intensità. Exteta ha trasformato questo ideale in una forma d'arte, ridefinendo l'outdoor living come un'esperienza immersiva e profonda, in continuo dialogo con il paesaggio — naturale o architettonico — generando un equilibrio fluido tra interiorità e orizzonte. Un'estetica del vivere che trascende i confini fisici e si esprime attraverso atmosfere, materiali e suggestioni capaci di creare connessioni autentiche e durature. Le creazioni Exteta danno forma a questa filosofia: espressioni pure di eleganza stilistica, ricerca materica e savoir-faire artigianale, interpretate da un design tailor made che si adatta con naturalezza a ogni scenario. Alla base di ogni collezione vi è un'approfondita selezione dei materiali più nobili, per garantire resistenza e durata nel tempo. Le finiture — evocative di tecniche antiche, applicate ancora a mano — conferiscono unicità ad ogni pezzo, mentre la costante sperimentazione sulle forme dà carattere ed eleva l'allure estetica a nuovi livelli di raffinatezza. Nascono così scenografie d'arredo che parlano il linguaggio dell'eccellenza, in termini di performance, qualità, stile. Un universo in cui ogni creazione porta con sé il segno distintivo dell'haute couture di Exteta. Fedele a questa identità, l'azienda ha dato vita a un distintivo outdoor lifestyle capace di riflettere il fascino dell'indoor. Anticipando le tendenze del design contemporaneo, Exteta ha dissolto il confine tra interno ed esterno creando un'unica dimensione coerente, armoniosa, continua. Gli spazi si fondono in una sintonia estetica fatta di composizioni che replicano stile, materiali e linguaggi progettuali, in perfetto equilibrio tra funzionalità e comfort assoluto. Si celebra il piacere di vivere a tutto tondo: la morbidezza delle imbottiture, la tattilità autentica delle superfici naturali, la sensazione avvolgente di un'accoglienza pensata nei minimi dettagli. Un racconto di design che esalta la convivialità e l'arte dell'abitare con uno stile esclusivo, essenziale e profondamente elegante.

BOUNDLESS CREATIVITY

EN Exteta's 2025 collection is the perfect representation of its philosophy, constantly balancing elegance and performance. With its distinctive artisanal savoir-faire and boundless creativity, the company expresses its vision of outdoor living through new designs, expanded collections, and exclusive collaborations. The artistic direction of Arianna Lelli Mami and Chiara Di Pinto, founders of Studiopepe, sensitively and coherently orchestrates every element, bringing together different poetics into a harmonious vision.

"Attention to detail, technical research, and formal study are the foundation of every product and represent Exteta's signature," says Studiopepe. "Every detail speaks of love and passion, and we share this attitude in our work as designers and architects."

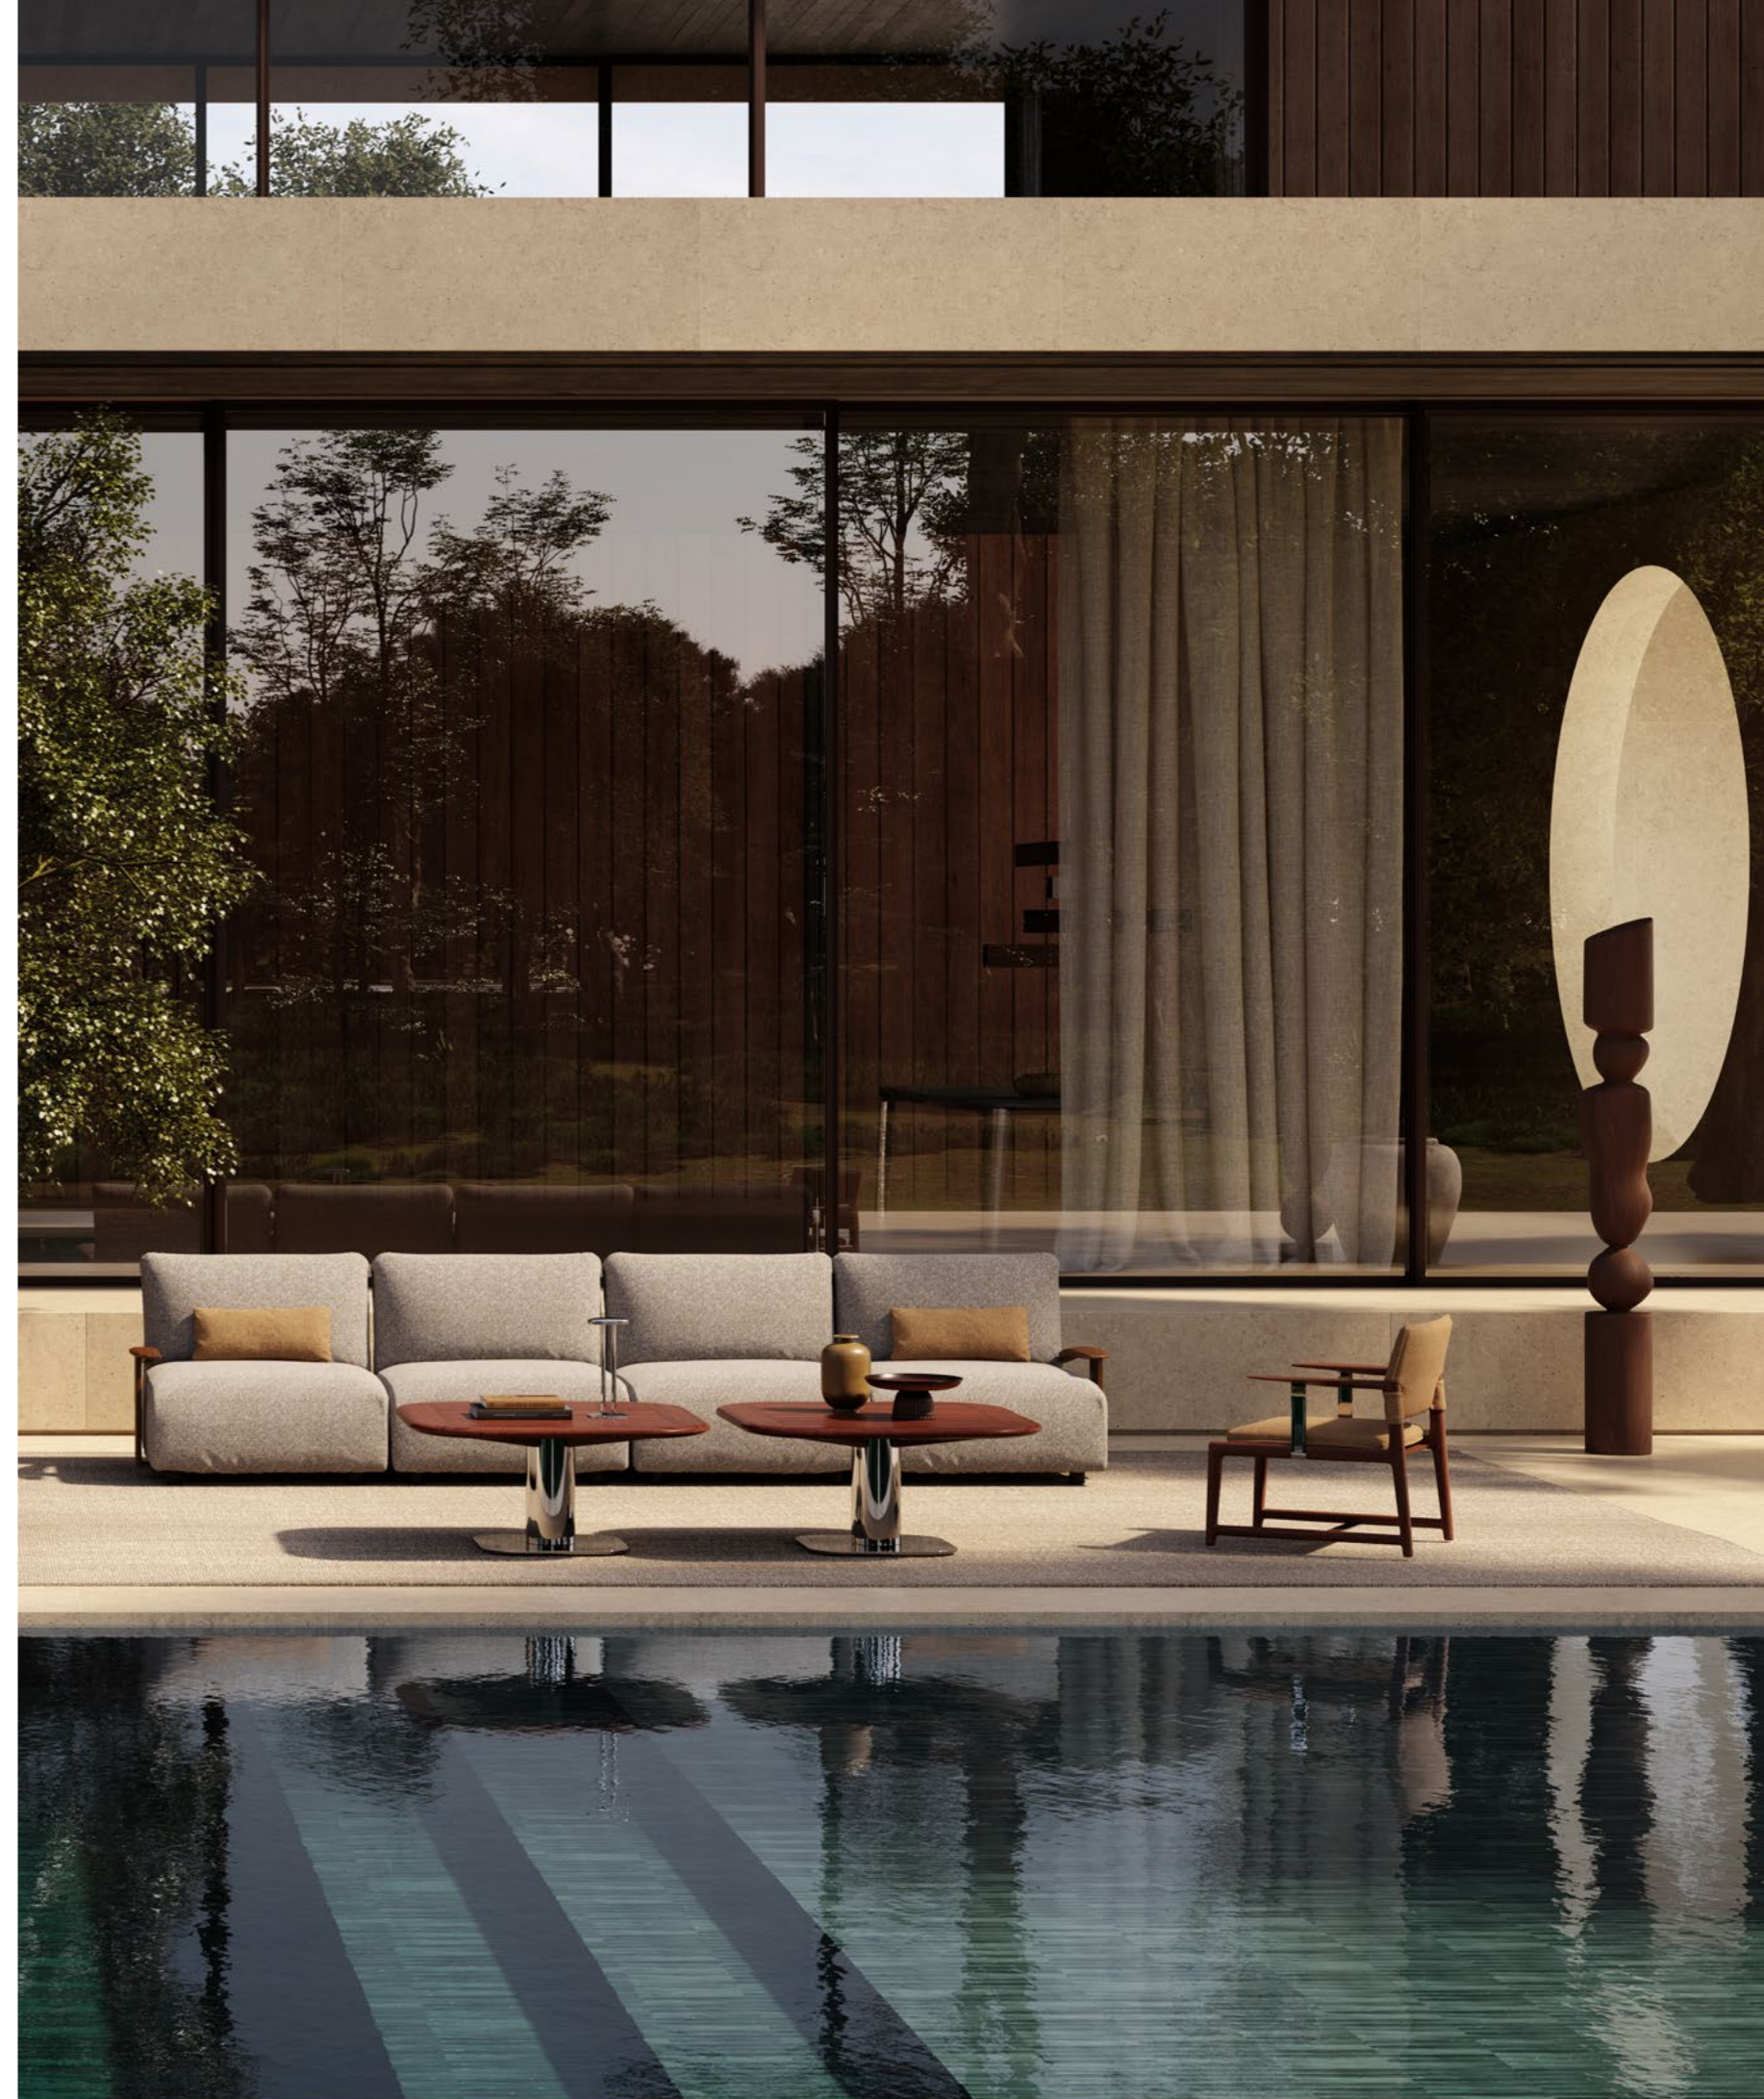

Among the key names in the new collection are Massimo Castagna and Paola Navone OTTO Studio, with projects that best embody the brand's free and sophisticated spirit. Highlights include two prestigious collaborations: Loro Piana Interiors, The Delight Chairs by Exteta, now enriched with new proposals, and the brand-new Exteta x Riva, where the brand's passion for the nautical world merges with Riva's exclusive heritage and its iconic boats. Exteta's new creations emerge from diverse inspirations, yet engage in dialogue with one another in perfect balance – a harmony of forms, functions, and impressions.

Scenic compositions meet and blend effortlessly, united by a recognizable aesthetic and a language shaped by style, intent, and personality. Once again, the lines are fluid, organic, inspired by nature, and designed to accompany everyday life.

IT La collezione 2025 di Exteta è la perfetta rappresentazione della sua filosofia, costantemente in equilibrio fra eleganza e performance. Con il suo distintivo savoir-faire artigianale e una creatività senza confini, l'azienda racconta la sua visione dell'outdoor living attraverso nuove proposte, ampliamenti di collezione e collaborazioni esclusive. La direzione artistica di Arianna Lelli Mami e Chiara Di Pinto, fondatrici di Studiopepe, orchestra con sensibilità e coerenza ogni elemento, unendo poetiche differenti in una visione armonica. «L'attenzione al dettaglio, la ricerca tecnica, lo studio formale sono alla base di ogni prodotto e sono il tratto distintivo di Exteta. Ogni dettaglio parla di amore e passione e condividiamo questa attitudine nel nostro lavoro di designer e architetti», dichiara Studiopepe.

Tra i protagonisti della nuova collezione spiccano i nomi di Massimo Castagna e Paola Navone OTTO Studio, con progetti che esprimono al meglio l'anima libera e sofisticata del brand. Tra le novità spiccano due prestigiose collaborazioni: Loro Piana Interiors, The Delight Chairs by Exteta, che si arricchisce di nuove proposte, e la nuovissima Exteta x Riva, dove la passione del marchio per il mondo nautico si fonde con l'heritage esclusivo di Riva e delle sue iconiche imbarcazioni.

Le nuove creazioni firmate Exteta nascono quindi da ispirazioni diverse ma dialogano con le altre in perfetto equilibrio, in un'armonia di forme, funzioni e suggestioni. Scenografie che si incontrano e si fondono senza forzature, accomunate da un'estetica riconoscibile e da un linguaggio fatto di stile, vocazione e personalità. Ancora una volta, le linee sono fluide, organiche, ispirate alla natura e pensate

“Attention to detail, technical research, and formal study are Exteta's distinctive signature.”

EN Materials – fine woods, sculpted marbles, refined fabrics – are chosen for their quality and their ability to evoke tactile emotions.

The 2025 collection is guided by a clear design vision – a concept of space and architecture that enhances each piece, allowing it to stand out through its own material and formal identity. The imagined environments are hybrid, open, and free of clear boundaries. Indoors and outdoors blend into a continuous dialogue, where design moves freely in close connection with the surrounding landscape. Partitions don't divide, they embrace: filtering, lightweight surfaces that become the skin of the architecture, creating a refined play of transparencies, solids and voids, light and shadow.

This design vision embracing the new products reflects Exteta's language: a sensory architecture that conveys the brand's distinctive traits – signature design, refined tactile materials, and masterful craftsmanship. The setting in which the new products take shape is equally material: a measured combination of wood, stone, concrete, natural weaves, and metals.

A multisensory space becomes the canvas where Exteta's artistic touch emerges with depth, energy, and personality. Each product lives as part of the whole, yet also independently – almost nomadic: able to adapt, to move, to rewrite space with elegance and expressive character. Enriched with the latest novelties, the Exteta collection goes beyond furniture: it offers a true lifestyle experience, where comfort, beauty, and functionality coexist effortlessly. Conceived for the outdoors and the nautical world

IT per accompagnare la quotidianità. I materiali – legni pregiati, marmi scolpiti, tessuti raffinati – sono selezionati per la loro qualità e per la capacità di evocare emozioni al tatto.

Ad accompagnare la collezione 2025 c'è una precisa visione progettuale, un concept di spazio e di architettura che valorizza ogni proposta rendendola protagonista attraverso la propria identità materica e formale.

Gli ambienti immaginati sono ibridi, aperti, privi di confini netti. Interno ed esterno si fondono in un dialogo continuo, in cui il design si muove liberamente in stretta connessione con il paesaggio. Le partizioni non separano, ma avvolgono: superfici filtranti, leggere, che diventano pelle dell'architettura, dando vita a un gioco raffinato di trasparenze, pieni e vuoti, luci e ombre. Questa visione progettuale che abbraccia i nuovi prodotti riflette il linguaggio di Exteta: un'architettura sensoriale che racconta i tratti distintivi del brand – il design d'autore, i materiali ricercati e tattili, la maestria artigianale.

Lo scenario su cui i nuovi prodotti prendono forma è quindi altrettanto materico – una combinazione misurata di legno, pietra, cemento, intrecci naturali, metalli: uno spazio multisensoriale diventa la tela su cui il tocco artistico di Exteta può emergere con profondità, con energia, con personalità. Ogni prodotto vive nell'insieme, ma anche singolarmente, quasi nomade: capace di adattarsi, di spostarsi, di riscrivere lo spazio con eleganza e carattere espressivo.

La collezione Exteta, arricchita dalle ultime novità, va dunque oltre l'arredamento: propone una vera e propria

EN – contexts where design and performance must always coexist – it also adapts elegantly to indoor spaces, enriching them with its aesthetic value and technical quality. Every piece fits into a broader landscape, in dialogue with the surrounding environment. Whether it's a sea-view terrace, an urban garden, or the deck of a yacht, Exteta designs complete settings, immersed in nature and open to the landscape. This is how a new way of contemporary living unfolds: sensory, sophisticated, and capable of turning every outdoor moment into an experience to remember.

IT esperienza di lifestyle, dove comfort, bellezza e funzionalità convivono con naturalezza. Pensata per l'outdoor e per il mondo nautico – contesti in cui design e performance devono sempre coesistere – si adatta con eleganza anche agli spazi indoor, arricchendoli con il suo valore estetico e la qualità tecnica. Ogni elemento si inserisce in un panorama più ampio, in relazione all'ambiente circostante. Che si tratti di un terrazzo vista mare, di un giardino urbano o del ponte di uno yacht, Exteta disegna scenari completi, immersi nella natura e aperti al paesaggio. Così si delinea un nuovo abitare contemporaneo: sensoriale, sofisticato, capace di trasformare ogni momento all'aperto in un'esperienza da ricordare.

THE WISDOM OF HANDS

EN The heritage that inspires, nourishes, and strengthens Exteta is deeply rooted in a land of excellence: Brianza, the historic cradle of fine cabinetmaking and the homeland of Italian design. It is in this region—vibrant with ancient knowledge and contemporary creativity—that the soul of the brand comes to life, shaped by the talent of master artisans and the design ingenuity that have always defined this district. A living legacy, made of precise gestures, passed-down memory, and constant innovation, which is expressed in Exteta's collections as the authentic embodiment of timeless elegance.

Each creation is born from centuries-old know-how, reinterpreted through a gaze fixed on the present: every piece is crafted and finished entirely by hand, in a meticulous process that enhances every detail, every finish, every nuance. Furniture that carries the

IT L'heritage che ispira, nutre e dà forza a Exteta affonda le sue radici in un territorio d'eccellenza: la Brianza, culla storica dell'alta ebanisteria e patria del design italiano. È in questa terra vibrante di saperi antichi e creatività contemporanea che prende vita l'anima del marchio, forgiata dal talento dei maestri artigiani e dal genio progettuale che da sempre definiscono questo distretto. Un'eredità viva, fatta di gesti precisi, di memoria tramandata e di innovazione costante, che si traduce nelle collezioni Exteta come espressione autentica di un'eleganza senza tempo. Ogni creazione nasce da un know-how secolare, reinterpretedato con uno sguardo rivolto al presente: i pezzi sono realizzati e rifiniti interamente a mano, in un processo minuzioso che valorizza ogni dettaglio, ogni finitura, ogni sfumatura. Arredi che portano con sé l'impronta irripetibile del gesto umano.

EN unrepeatable imprint of the human touch. Skilled hands transform raw materials into objects that tell a story of everyday beauty. Wood, marble, stone, metals, and fabrics become surfaces to explore, canvases upon which Exteta's artisanal gestures and design vision intertwine. It is within this balance that a contemporary way of living takes shape—defined by comfort, elegance, and functionality. From material selection to the final workmanship, each phase is part of a precise process: every creation is designed to be consistently comfortable, long-lasting over time, and resilient in any environment. But above all, it is the highly bespoke nature of this manufacturing approach that makes each piece unique: every furnishing element can be customized down to the smallest detail, shaped according to individual desires and the identity of the space it inhabits. Because at Exteta, excellence is always something authentic and unrepeatable.

IT Mani esperte trasformano dunque le materie prime in oggetti che raccontano un'idea di bellezza quotidiana. Legno, marmo, pietra, metalli e tessuti diventano superfici da esplorare, tele su cui si intrecciano il gesto artigianale e la visione progettuale di Exteta. È in questo equilibrio che prende forma un abitare contemporaneo fatto di comfort, eleganza e funzionalità. Dalla scelta dei materiali alla lavorazione finale, ogni fase è parte di un processo accurato: ogni creazione è ideata per essere confortevole sempre, durevole nel tempo, resistente in ogni contesto. Ma è soprattutto la natura altamente sartoriale di questo approccio manifatturiero a rendere ogni pezzo unico: ogni arredo può essere personalizzato nei minimi dettagli, modellato sui desideri individuali e sull'identità dello spazio che lo accoglie. Perché l'eccellenza, da Exteta, è sempre un fatto autentico e irripetibile.

Collaborations

EN A shared passion, a creative dialogue born from kindred visions and translated into furnishings rich in allure. Exteta intertwines its identity with that of brands and designers from the world of luxury and fine craftsmanship, giving rise to collaborations that become fertile ground for exploring new forms, new languages, new emotions. It is in this refined exchange that the brand's values—artisanal excellence, aesthetic research, and attention to detail—are reinterpreted through contemporary proposals capable of expanding Exteta's expressive boundaries and enriching its universe of style. Original collections and re-editions by design masters come together in a narrative in constant evolution, where history and innovation coexist in perfect harmony.

IT Una passione condivisa, un dialogo creativo che nasce da visioni affini e si traduce in opere d'arredo ricche di fascino. Exteta intreccia la propria identità con quella di marchi e designer provenienti dal mondo del lusso e dell'alto artigianato, dando vita a collaborazioni che diventano terreno fertile per esplorare nuove forme, nuovi linguaggi, nuove emozioni. È in questa contaminazione raffinata che i valori del brand – l'eccellenza artigianale, la ricerca estetica, l'attenzione al dettaglio – vengono reinterpretati attraverso proposte contemporanee, in grado di espandere i confini espressivi di Exteta e di arricchire il suo universo di stile. Collezioni inedite e riedizioni d'autore si affiancano in un racconto in continua evoluzione, dove storia e innovazione convivono in perfetto equilibrio.

Exteta × Riva

EN A lifestyle inspired by the nautical world. An exclusive collaboration that elevates contemporary elegance. Exteta x Riva is the new outdoor furniture collection that brings the iconic charm of boating into the world of living, transforming every space into an experience of pure style. Designed by Massimo Castagna, the collection draws inspiration from the most authentic soul of Riva—the skilled craftsmanship of Carlo Riva, the timeless myth of the 1960s “Dolce Vita,” and the extraordinary artisanal mastery of his boats. A story reinterpreted with modern sensitivity through Exteta’s design vision, which conveys its essence through details, materials, and proportions. From the refinement of precious Sapelli mahogany, enhanced by the sheen of stainless steel, comes a complete and coherent collection where design and memory merge into a new, sophisticated interpretation of outdoor living.

Jacquemus + Exteta, special re-edition of Locus Solus series

EN Authorial design, its visionary force, creativity that travels through time. From this heritage comes the collaboration between Exteta and Jacquemus: a spontaneous, sincere, and subtly ironic encounter that brings back to light an icon of Italian design, reinterpreted with a fresh perspective. The protagonist of this capsule collection is the legendary Locus Solus, designed in 1964 by Gae Aulenti. A collection with a pop spirit, defined by bold lines and vintage charm, now revisited in fabrics and colors with the audacious yet refined touch of Simon Porte Jacquemus—designer, collector, and admirer of Aulenti's work. The stainless steel tubing, shaped into elegant curved profiles, becomes the distinctive signature of the collection, a fil rouge connecting Exteta's craftsmanship with Jacquemus' unconventional aesthetic approach. For a vibrant and daring outdoor proposal that dares to stand out, without ever compromising on quality or essential beauty.
