THE RUGS

With this catalog, the proposal of Sevensedie extends to a new world, fascinating and fundamental for “dressing” any type of ambience: The rugs.

The rug defines a room, gives it character, surrounds and enhances the products placed on it, softens and warms the atmosphere: the rug is, from all points of view, the beating heart of a furnished space.

The rugs that Sevensedie presents to you today result from the design of the latest collections and are perfectly aligned with modern and contemporary ambiances.

Careful research of threads, selection of colors, creation of applied textures are

details that our designers have followed directly hands on in order to define a collection that welcomes the latest trends but absolutely does not give up on sobriety and elegance.

The strength of Sevensedie, also for the Rugs division, is the "customized product" service: the most demanding customer can propose a theme of his or her own imagination, with the colors and sizes best suited to their ambience.

Like the tailor struggling with a high fashion garment, Sevensedie will create for you, thanks to the direct relationship established with skillful artisans, an absolutely exclusive and unique hand tufted rug.

WELCOME TO THE WORLD OF SEVENSEDIE RUGS
