Useful, necessary beauty

*Creating designs that last by inspiring interactions
that matter*

Some objects have the power to change our lives in ways we could never anticipate. They inspire and challenge us to look at the world from a different angle, to interact with it to the fullest. That's exactly what Extremis is all about: transforming radical ideas into game-changing designs. Designs that are not only useful, necessary and beautiful, but also spark meaningful connections and enhance the way we interact with one another.

The result? An Extremis piece that you will love for a lifetime, something to pass on to the next generations.

Immortal ideas with a positive impact

At Extremis, we only start developing an idea if it's both necessary and useful. An idea that answers a basic need, offers a solution, and makes you look at things differently. Only those strong ideas have the ability to ripple outward and span decades, instead of years. From that point on, we shape the idea to inspire the future and create the best possible impact.

Carefully designed with lasting materials

To maximize that impact, we only employ the highest quality materials and cutting-edge processes. Designed locally, logically and ecologically we create strong and durable products that are ready for the future, carefully made in Belgium. In every minute of the design process, we do our absolute best to achieve the highest level of eco-efficiency by reducing transport volumes and waste. So, every tool for togetherness has a long history, even before it's being used by you.

However, the best way to make a product last, is to make it beautiful. Only this way it will spark memories and experiences that are as beautiful as life itself.

Hof ter Heebeke

Een zwemmer is een ruiter

Zwemmen is losbandig slapen in spartelend water
is liefhebben met elke nog bruikbare pone
is eindeloos vrij zijn en inwendig zegevieren

En zwemmen is de eenzaamheid betasten met vingers
is met armen en benen aloude geheimen vertellen
aan het altijd alles begripende water

Ik moet bekennen dat ik gek ben van water
Want in het water adem ik water
word ik een schepper die zijn schepping omhelst
en in het water kan men nooit geheel alleen zijn
en toch nog eenzaam blijven

zwemmen is een beetje bijna heilig zijn
