# *love wood*

*We love wood because we have known it our entire life. From the forest, we played in as children, to the calling to which we have dedicated our adulthood.*

*We produce furniture because we love wood, and we want to share this love with you, — with those who appreciate fine woodworking and furnishings of the highest quality.*

*Driven by our passion for wood, we work with the top local and international designers who are familiar with our technological advantages and who understand how to translate the expertise into a vision that is worthy of this precious material.*

*We employ our artisans' hands as our primary manufacturing tools because we aim to invest our love for wood into our products. The Artisan craftsmen are masters of transforming the designers' ideas into one-of-a-kind handcraft.*

# ***Materials***

*Wood and life are inextricably connected, and wood is literally life to us. Therefore, we use solid wood from renewable resources in our production, only environmentally-friendly materials for treatment, natural oils and wax that emphasize the luxurious and organic beauty of wood texture and that enable it to “breathe” naturally. This emphasizes the natural colour diversity, while the use of harmful chemical substances for wood treatment is avoided by using vinyl-based glue.*

*We insist that, at the end of the production process, the furniture that adorns your living environment is as natural as the wood from which it has originated.*

# *Design*

*We give our wood only into the hands of those designers who share our love of wood. Our plant and our artisans are equipped and trained to offer designers as much freedom and options as possible in order for them to realize their vision.*

*Further more we encourage the designers to create each piece with their own artistic signature insisting that every such piece is worthy of the precious material it was made from, thus conveying our philosophy of love of wood.*

# Technology

*In 2009 we founded the company ARTECO Wood Technology Center with the idea to make the company the driving force of a new movement in Bosnia-Herzegovina's wood industry. The wood industry has always been B-H's leading industry, but primarily due to the export of raw material. As a unique technological centre for the wood-processing industry, Arteco aims to reverse this trend, providing infrastructure and expertise in design, prototype production, work on state-of-the-art CAD machinery, woodwork machinery, finishing, preparation, raw material drying and help in the export of final wood-processing products. The company was set up in collaboration with the Excellence in Innovation project, supported by the USAID (United States Agency for International Development) and the Norwegian Ministry of Foreign Affairs.*

# Touch

*Hands are our basic equipment and the control point in our wood-work. From a tree to a chair, our wood travels from the hands of one artisan to another. Wood selection, its preparation for production, rough processing and assembling, finishing and protection... at every moment their sharp eye and infallible touch guarantee an individual approach that results in a top quality product or, more precisely, handicraft.*

*While you're sitting on an Artisan chair or at a table, or lying on an Artisan bed ... be sure that each of your Artisan products was manually processed, assembled and protected.*

*Inspiration*

# *Collections*

## LATUS COLLECTION

*Tranquil lines of extremely fine craftsmanship highlight the beauty of the material and evoke a continuous flow by masterfully soft transitions, creating a functional yet sculptural quality. The result is exceptionally pure forms inundating one another, bending and thinning down, revealing the flexibility and beauty of a solid material.*

*The collection is permeated by identifiable element of the holders, the verticals connected by fine horizontal lines.*

*The beauty of design is additionally accentuated by the understanding of the raw material, by respecting and visually underlining the structure of wood, creating a unique quality of aesthetics and an elegant structure.*

## TESA COLLECTION

*The Tesa collection creates a functional and pleasant ambience, filled with solid wood furniture of distinctive aesthetics. Each piece contains a dose of originality, in addition to connection in details, discreetly revealing its collection-related identity.*

*The compact and monumental forms are softened by bent and curved lines, carefully included in the design, by simple grids and elements contributing to comfort and functionality, creating a visual attraction with character. A high level of refined craftsmanship is expressed in totality as much as in particular details.*

*Tesa evokes classic quality, with a decidedly contemporary twist.*

## NEVA COLLECTION

*An ongoing flow of soft lines defines elegant units; it respects ergonomics and sophisticatedly rounds off an understated yet identifiable aesthetics.*

*Like typeface, certain elements reappear in variations of clearly defined hallmark traits, characteristic strokes whose soft wood lines trace out the desired form, adapting themselves to the use by altering the line flow.*

*Seating furniture variations are completed with practical cabinets, all subtly connected by a common aesthetic with a chance of creating a pleasant ambience out of similar elements.*

*Thanks to their unobtrusive beauty, the elements from the Neva collection gracefully fit in already established interiors and adapt themselves to them, refining them while never losing their distinction.*

#### MELA COLLECTION

*Varieties of upholstered seating furniture of perfectly curved lines provide inviting comfort and refined aesthetics.*

*Like a comfortable soft shell, Mela envelops a space of relaxing sitting, ergonomically suited to the purpose and the user needs, thanks to proportional variations in height and width.*

*The dominant seat and backrest volumes are upholstered and soft-filled, connected by a practical complementary interplay: the backrest follows and outlines the edge of the seat, adheres to it, creating a pleasing soft membrane. The compact and visually elegant solid wood structures complete the picture, encompassing and connecting the seat and the backrest, providing a sense of safety and beauty.*

#### INVITO COLLECTION

*The Invito collection is defined by robust beauty, insisting on strong forms, effected with solid and compact basic material – wood. Simple, powerful, finely proportioned forms seem reliable, evoke durability, resistance and comfort. The holders here play a clear role; built to last with exceptional stability.*

*The beauty and strength of wood is visible in the expressive shapes of the elements, additionally accentuated by unexpected contrasts in the material, tones, colour, in the details changing and enriching the character of the piece.*

*Invito is a collection of unassuming aesthetics, of finely crafted simple forms and of a definitely strong character.*

## W U C O L L E C T I O N

*Minimalist elements of a classic visual concept are effected from a solid material, solid wood, in soft curved forms. An exquisite refinement of processing very concrete forms results in pieces of exceptionally fluid design. The elements seem to flow from one another, connected by ties that seem to flow from the body, creating an intense level of compactness.*

*Powerful and expressive elements are shaped entirely without sharp edges, almost like sculptures. Balanced and clearly defined features create ergonomically suited forms which maintain a clear character even in the variations, illustrating their belonging to the collection. The result is monumental beauty imbued with elegance.*

#### KALOTA COLLECTION

*A combination of beauty of the material, the wood basis and ceramic or leather superstructure, is bound in this collection by the common element: a calotte. A subtle association to the spherical form, to a segment of this perfect shape, is immersed in the warmth of wood, in a curved mould, like a negative embracing a body. The piece is completed by a flat surface with a contrasting tone and texture, ceramic or leather inserts, trimmed with wood, like an elegant cross-section, a calotte surface.*

*The functional horizontal place remains visually accentuated by means of the material's aesthetic sensations, textures in seductive light and dark versions, accompanied by the imperative of the tactile, of touch.*

## *Salih Teskeredžić*

[www.teskeredzic.com](http://www.teskeredzic.com)

*Salih Teskeredžić is an internationally renowned Bosnian designer with offices in Vienna and Sarajevo. His designs have been successfully produced in numerous European countries. He has exhibited at all significant European fairs and has organized solo exhibitions in Vienna and Sarajevo. He has received local and international awards for his work.*

## *designschneider*

[www.designerschneider.de](http://www.designerschneider.de)

*In 1993, Michael Schneider founded designschneider in Cologne and moved to Berlin in May 2009. Designschneider is dedicated to product, furniture and exhibition design as well as trend research. Designschneider has an international client base and is committed to designing new products which are unique, beautiful and functional.*

## *Regular Company*

[www.regular.company](http://www.regular.company)

*Regular Company is an award winning multidisciplinary design consultancy. It was founded in 2015, building upon the work of the company's co-founders Marija Ruzic Vukmanic, Ruder Novak-Mikulic, Marinko Murgic, Tihomir Filipec and their partners and collaborators, who have been working together in the creative industries since 2009.*

## *Inoda+Sveje*

[www.gallery.inodasveje.com](http://www.gallery.inodasveje.com)

*Founded in Denmark (2000), Kyoko Inoda (Japan) and Nils Sveje (Denmark) have developed a harmonious and sensitive approach applied to both the design process and the resulting form and aesthetics, the design language is a mixture of the two cultures as well as their background in industrial design engineering, it is minimalistic but not simplistic, shaped but not ornamented.*

## *Neisako*

[www.neisako.com](http://www.neisako.com)

*Neisako a small design studio focusing on innovative and inspirin product design solutions. Previously working as Redesign, from 2020 operates under the new name — Neisako. The studio works in a wide variety of design fields with work that is mostly driven by investigation in the deeper meaning of creation through the language of geometry. It was founded by Neven and Sanja Kovačić and is based in Zagreb, Croatia.*

## *Alan Hung*

[www.alan-hung.com](http://www.alan-hung.com)

*Alan was born In Taiwan. He has worked in several world-renowned architecture studios for years and obtained his architecture license in Canada. He started WAY Object studio in Vancouver, Canada, where he currently resides. Since then, Alan has won multiple international design awards, including the prestigious Red Dot best of the best award. It is the top prize in the Red Dot Award.*

## *Silva Mikelić*

*Silva Mikelić was born in Kotor, Montenegro. She graduated design at the Faculty of Architecture, School of Design in Zagreb, Croatia, acquiring the title Master of Arts in Design. She has been working for Artisan company in Zagreb since 2013. The knowledge and experience she gained while working at Artisan enabled her to design products that reflect her love for wood.*

## *OrtegaGuijarro Studio*

[ortegaguijarro.com/](http://ortegaguijarro.com/)

*Barcelona & Berlin-based design office founded in 2017 by the visionary duo, Carlos Guijarro and Alex Ortega. Renowned for their unique and disruptive style, the Spanish pair navigates the intersection of simplicity, poetics, and a constant pursuit of innovation in their aesthetic endeavors.*

## *Karim Rashid*

[www.karimrashid.com](http://www.karimrashid.com)

*More than 300 international awards and more than 3,000 works produced in the fields of fashion, interior design, furniture, lighting, art and music – this is Karim Rashid, one of the most significant designers of our time whose numerous creations adorn homes and offices, as well as many museums and galleries.*

## Studio Pang

[www.studiopang.it](http://www.studiopang.it)

*Fabio Damiani and Marco Quistini established the studioPANG in October 2012, with the shared idea that by combining different skills and passions, the project approach is enriched with new forms and perspectives. They were awarded at various design, architecture and graphics competitions. StudioPANG is an open laboratory of constant research and development of ideas and projects.*

## Says Who

[www.sayswho.dk](http://www.sayswho.dk)

*We are Nikolaj and Kasper. We are Says Who Design. We are furniture designers – and we are passionate about Scandinavian design. Says Who design and develop furniture for international brands and manufacturers. Our style is simple, functional and filled with character. Our strength is in the combination of good design, thought-through solutions and solid business understanding. Says Who is based in Denmark.*

## Edwar Design

[www.edvardesign.com](http://www.edvardesign.com)

*Although very young, Emrah Son and Emel Son have been creating inspiring and joyful designs for furniture, tableware and kitchenware brands in Istanbul since 2013. With Artisan they have entered into the international design area. Their designs have been exhibited at several fairs and exhibitions. Taking the nature of materials seriously and being unique are their design mottos.*

## *Filter*

[www.filter.ba](http://www.filter.ba)

*Filter is an internationally renowned studio for architecture and design, based in Sarajevo. Along with a number of international awards and exhibitions held many European cities, filter is being considered as the most awarded studio in Bosnia and Herzegovina today. Some of the awards include Collegium Artisticum Grand Prix, Balkan Designers 2015, 'Common Grounds' and Qercus 2013.*

## *Ado Avdagić*

[www.avado.ba](http://www.avado.ba)

*Born in 1970 in Tuzla, Ado Avdagić, the founder of the studio 'Avado', designs furniture and interiors focusing on the creation of organic shapes. Through his works he contemplates about the relationship between a man, nature and form in space, and he designs functional, ergonomic and aesthetically convincing solutions. He has exhibited at international fairs too.*

## *Mirko Miličić*

[www.behance.net/Mirx](http://www.behance.net/Mirx)

*Mirko Miličić was born on 9 January 1985 in Zagreb where he graduated design at the Faculty of Architecture acquiring the title Master of Arts in Design. His work is characterised by simple and clear lines he uses to achieve powerful and innovative solutions based on methodological processes. Apart from working in the field of product design, furniture and interior design, he is also active in the fields of Web, graphical and motion design.*

## Nick Rennie Studio

[www.nickrennie.com](http://www.nickrennie.com)

*NICK RENNIE STUDIO was formed in 2001. "Design to us is the presentation of a problem and the opportunity to offer a solution. On a personal level, however, it is so much more than that. It is the ability to feel emotion the moment you see or interact with something. It can be so simple, but can still just resonate with you on every level. This thinking provides the foundation for the studios philosophy."*

## Gabriela Bellon

[www.gabrielabellon.com](http://www.gabrielabellon.com)

*Gabriela Bellon is an Argentinean architect and interior designer who established her career in her native Argentina and Germany before moving to Sarajevo a couple of years ago, where she has been engaged in furniture design and production. Gabriela has been collaborating with Artisan since the time when she lived in Bosnia and Herzegovina.*

## Erno Dierckx

[www.ernodierckx.com](http://www.ernodierckx.com)

*Erno Dierckx is an emerging Belgian product and furniture designer based in Barcelona, Spain. As a designer, he challenges the manufacturing process and searches for clever and aesthetic solutions. He finds inspiration in the production process, materials, and construction of everyday objects. Erno aims to create well-thought-out, timeless products that contribute to this world.*

## ***Fahmida Lam***

[www.fahmidalam.com](http://www.fahmidalam.com)

*Fahmida Lam is an emerging residential furniture and home accessories designer based in New York City. She earned her Master's in Industrial Design from Pratt Institute and also holds a degree in finance and economics. Inspired by her personal travels, handcraft, and the elegant simplicity found in Scandinavian and Japanese design, Fahmida sets out to produce pieces that enrich life through utility and beauty.*

## *Zoran Jedrejčić*

*An industrial designer from Split with Italian background. After seven years of fruitful cooperation with Ettore Sottsass he opened his own design studio in Milan and recently one in Belgrade. He has designed for many world brands 3M, Dada Cucine, Fratelli Guzzini, Molteni & C, Nambé, Segis, and others. He has won almost all design awards, and his works have been exhibited in famous museums like MAK Wien, ICA Boston, MoMA NY, Ozone Centre Tokyo, etc.*

# *Interiors*

#### CUSTOM LIVING AND WORK SPACE

*Apart from individual collections, we also offer our clients comprehensive solutions for living or work space. Our team of experienced architects, designers and artisans already has a lot of experience in attending to interiors for various purposes. Thanks to our experience and individual approach, every space we design is maximally adapted to its purpose and customers' needs and wishes.*

*Process*

# Process

*We treat walnut, cherry and elm wood only with superheated steam to reach an ideal color with an accentuated texture without jeopardizing the structure and ecological values of the wood.*

*Wood treated this way, as well as oak, ash and maple wood, is prepared for natural drying in covered, ventilated storage facilities at carefully selected geographic locations best suited for natural drying until a critical moisture level is reached appropriate for the continued drying in computer-controlled chambers operating under conventional and vacuum systems using state-of-the-art wood drying software.*

*We store wood dried in this manner under conditions identical to the living conditions of the people for whom the furniture is made. What follows next is the selection of wood from the storage facility and its cutting to the desired lengths and widths, machine processing and gluing into boards, drying and acclimatization.*

*With precise machine processing, the wood is then prepared for assembling the end product, the cutting and cropping of the completed boards or elements in a traditional manner and through the use of a 5-axis Homag CNC machine.*

392

*The final production stages are assembling and finishing work. For the finishing work we use natural oils, soaps, wax and varnish. These substances are mutually acceptable, i.e. they can be applied together to a given surface. The use of these substances (or the combination of the same) on dried wood ensures a longer lifespan, preserves its naturalness and improves the visual wood features – color, texture, etc.*

# Latus

SALIH TESKEREDŽIĆ

## LATUS CHAIR

H 79 W 47 D 50 CM

WOODEN SEAT / LEATHER SEAT / FABRIC SEAT

Solid wood – American and European walnut, oak, ash, cherry, elm, maple  
Seat size: 45x40 cm  
Front legs thickness: min fi 3 cm – max fi 3.5 cm  
Back legs: min 2,0x3,5 – max fi 3,5  
Seat height: 48 cm  
Dismantling option: No  
Packing: stretch wrap + five-layer cardboard box  
Packaging: 3 piece/packaging

## LATUS BED

W 80, 140, 160, 180, 200 D 200 CM

WITH DRAWERS AND WIDE HEADBOARD

Solid wood – American and European walnut, oak, ash, cherry, elm, maple  
Dismantling option: Yes  
Packing: stretch wrap + five layer cardboard box  
Packing: 1 piece/packaging  
Height of the bed: 37 cm  
Height of the headboard: 96 cm  
Depth for the latoflex/mattress: 8 cm  
Bed frame: 12 cm  
Bedside tables dimensions: 50x15x35 cm  
Total width with tables: bed + 57,5 cm from each side.  
E. g. Bed Latus for the mattress 180x200 has total width of 320 cm: bed frame 205 cm + 57,5 cm + 57,5 cm = 320 cm  
Dismantling option: Yes  
Latoflex and mattress are not included in the price  
Packing: stretch wrap + five-layer cardboard box  
Packaging: 1 piece/packaging

## LATUS DESK

H 76 W 140, 160 D 70 CM

2 DRAWERS

Solid wood – American and European walnut, oak, ash, cherry, elm, maple  
Top thickness: 4 cm  
Visually: 6 cm  
Leg diameter: : Ø3 – Ø6 cm  
Drawers: 2 pieces  
Dismantling option: No  
Packing: stretch wrap + five layer cardboard box  
Packing: 1 piece/packaging  
Standard desk top: solid wood  
Other modifications and prices on request

## LATUS TABLE

H 76, 35 W 160, 180, 200, 220, 240, 260 D 70, 90 CM

Solid wood – American and European walnut, oak, ash, cherry, elm, maple  
Top thickness: 4 cm  
Visually: 6 cm  
Leg diameter: : Ø3 – Ø6 cm  
Dismantling option: Yes (only on request)  
Packing: stretch wrap + five layer cardboard box  
Packing: 1 piece/packaging  
Maximum width: 150cm, maximum length: 260 cm  
Between sizes possible: e. g. 205x85x76 cm  
Mega lengths possible with fifth leg:  
E.g. 380x100x76 cm, 140x140x76 cm (prices on request)

## LATUS BED

W 80, 140, 160, 180, 200 D 200 CM

WITHOUT DRAWERS AND WITH REGULAR HEADBOARD

Solid wood – American and European walnut, oak, ash, cherry, elm, maple  
Dismantling option: Yes  
Packing: stretch wrap + five layer cardboard box  
Packing: 1 piece/packaging  
Height of the bed: 37 cm  
Height of the headboard: 96 cm  
Depth for the latoflex/mattress: 8 cm  
Bed frame: 12 cm  
Total width with tables: bed + 12 cm frame from each side.  
E. g. bed Latus for the mattress 180x200 has total width of 204 cm: bed frame 24 cm + 180 cm  
Dismantling option: Yes  
Latoflex and mattress are not included in the price  
Packing: stretch wrap + five-layer cardboard box  
Packaging: 1 piece/packaging

## LATUS LEATHER DESK

H 76 W 140, 160 D 70 CM

3 DRAWERS

Solid wood – American and European walnut, oak, ash, cherry, elm, maple  
Top thickness: 4 cm  
Visually: 6 cm  
Leg diameter: : Ø3 – Ø6 cm  
Drawers: 3 pieces  
Dismantling option: No  
Packing: stretch wrap + five layer cardboard box  
Packing: 1 piece/packaging  
Standard desk top: solid wood  
Other modifications and prices on request

## LATUS SIDEBORD

H 75 W 180, 200, 220 D 40 CM

Solid wood – American and European walnut, oak, ash, cherry, elm, maple
