Unopiù

En ➤ Unopiù, leading company in the production and distribution of outdoor design furniture and accessories, was founded in the heart of Tuscany over forty years ago. The company's mission is to furnish any outdoor space in the house with the same care and passion usually reserved for interiors, envisioning and recreating spaces in a functional and elegant way so as to experience inspirational moments of relaxation in a perfect Italian style. The company offers "total look" solutions for any setting, going from a city balcony experience to a large terrace to the great gardens of a villa. With its wide range selection of furniture sets, structures, and accessories, Unopiù is able to meet any customer's requirement, from classic to contemporary design. All Unopiù creations are made to last, their materials selected for their unrivalled quality and resistance to all weather conditions, even the most extreme.

It ➤ Unopiù, azienda leader nella produzione e distribuzione di arredi e accessori di design per esterni, nasce in Italia nel cuore della Toscana più di quarant'anni fa. Missione dell'azienda è arredare ogni spazio esterno della casa con la cura e la passione che vengono dedicate agli interni, pensando e organizzando gli spazi in modo funzionale ed elegante per vivere momenti ispirazionali e di relax in perfetto stile italiano. L'azienda offre un "total look" per qualsiasi tipo di ambiente, dal balcone cittadino, alla terrazza fino ai grandi giardini di ville immerse nel verde. Grazie a collezioni complete di arredi, strutture e accessori, Unopiù è in grado di soddisfare qualsiasi stile richiesto dal cliente, dal design più classico al più moderno. Tutte le creazioni di Unopiù sono realizzate per durare nel tempo e i materiali selezionati per una qualità impareggiabile, capaci di resistere a tutti gli agenti atmosferici, anche i più estremi.

Our World

En - Origins and Development

Since 1978, Unopiù is an international point of reference in manufacturing and distributing outdoor design furniture and accessories. Since its very beginning, the Company's goal has been to furnish the outdoors with the same attention and care usually reserved for interiors, creating functional and esthetically elegant spaces, and providing them with complete and tailored solutions: from seating and structures to furniture accessories. Products by Unopiù, many of them created by well-known designers, are timeless proposals, in terms of both quality and design aesthetic criteria. The best terraces and outdoor spaces of renowned hotels and Resorts - including the Bulgari Hotel, the Mandarin Oriental Hotel, the Greenwich Hotel in New York, and the Four Seasons Resort in Hawaii - have been decorated by Unopiù. Unopiù has an extensive global presence, with 10 flagship stores, in the Brera district in Milan and in the Boulevard Saint-Germain, in Paris.

It - Origine e Sviluppo

Dal 1978 Unopiù è un punto di riferimento internazionale nella produzione e distribuzione di arredi e accessori di design per esterni. Fin dall'inizio, l'obiettivo dell'azienda è stato quello di arredare ogni spazio outdoor con la stessa cura e attenzione solitamente rivolti all'interior design, creando spazi funzionali ed esteticamente eleganti con soluzioni di arredo complete e su misura: dalle sedute, alle strutture, fino ai complementi. I prodotti Unopiù, molti firmati da noti designer, sono proposte 'senza tempo', sia in termini di qualità sia come canoni estetici di design. Unopiù nel tempo ha arredato le migliori terrazze e spazi esterni di rinomati hotel e resort, tra cui Bulgari Hotel, Mandarin Oriental Hotel, Greenwich Hotel di New York, Four Season Resort alle Hawaii. Unopiù ha un'ampia presenza globale con 10 negozi monomarca, in Brera a Milano e in boulevard Saint-Germain a Parigi.

Since its very beginning, Unopiù has had a vision: to see the outdoors as as a 'room more', to be furnished using versatile, elegant and functional solutions, created to last over time by adapting harmoniously to the environment. The Company today is considered one of the main reference points in the outdoor sector, that is perceived as a place to spend time in communion with Nature, to benefit from the sensations of comfort, well-being, and freedom it offers.

Unopiù nasce dalla volontà di immaginare l'esterno come 'una stanza in più' da arredare attraverso soluzioni versatili, eleganti e funzionali, nate per durare nel tempo adattandosi all'ambiente in modo armonioso. L'Azienda rappresenta oggi uno dei punti di riferimento più significativi del mondo dell'outdoor, visto come luogo dove trascorrere il tempo in comunione con la Natura, per beneficiare delle sensazioni di comfort, benessere, libertà che offre.

Our DNA

02. Timeless Products

Amazing design icons

En - Unopiù projects its vision of the outdoors through the eyes of designers that, inspired by traditions, give form to the Company's values creating signature products that embody the quality and unique style of Unopiù.

It - Unopiù interpreta la visione dello stile outdoor attraverso lo sguardo dei designer che, ispirati dalla tradizione, hanno tradotto i valori dell'azienda firmando prodotti capaci di raccontare la qualità e lo stile unico di Unopiù.

Materials & Sustainability

En - Unopiù combines the pursuit of excellence and innovation with a constant commitment to sustainability, starting with the responsible selection of raw materials. Each piece of furniture is designed to last, maintaining a timeless appeal thanks to conscious production choices that ensure its longevity.

The teak used, grade A, comes from Indonesian plantations managed by the government in an eco-sustainable manner, with strict reforestation processes. This commitment has allowed Unopiù to obtain FSC (Forest Stewardship Council) certification, ensuring responsible sourcing.

Aluminum, chosen for its strength and infinite recyclability, also contributes to a sustainable production cycle, allowing the material to continually regain new aesthetic and functional value.

Every Unopiù product is designed to withstand the test of time, with elegant and harmonious forms, in full respect of the environment. The furniture is created to last a lifetime, never compromising the commitment to sustainability.

It - Unopiù unisce ricerca dell'eccellenza e innovazione con un impegno costante per la sostenibilità, partendo dalla selezione responsabile delle materie prime. Ogni arredo è progettato per durare, mantenendo un fascino senza tempo grazie a scelte produttive consapevoli che ne garantiscono la longevità.

Il teak utilizzato, di grado A, proviene da piantagioni indonesiane gestite dal governo in modo eco-sostenibile, con rigorosi processi di riforestazione. Questo impegno ha permesso a Unopiù di ottenere la certificazione FSC (Forest Stewardship Council) , che garantisce un approvvigionamento responsabile.

L'alluminio, scelto per la sua resistenza e riciclabilità infinita, contribuisce anch'esso a un ciclo produttivo sostenibile, permettendo al materiale di riacquistare sempre nuovo valore estetico e funzionale.

Ogni prodotto Unopiù è pensato per resistere nel tempo, con forme eleganti e armoniose, nel massimo rispetto dell'ambiente. Gli arredi sono progettati per durare tutta la vita, senza mai compromettere l'impegno verso la sostenibilità.
