SEVENSEDIE

Ellipse collection is a momentous step for Sevensedie in complete furnishings.

Sevensedie was born in 1965 when Diego Piva founded a workshop to build wooden seating. With passion and foresight its' reality asserted itself quickly in the furniture world.

Today to lead the company are three people with a long standing connection to the brand: Massimo, Federico and Luca.

Bringing a breath of enthusiasm, the partners have boosted the production of chairs, combining the values that distinguish the company together with innovation.

Now they prepare to face a challenge which they have strongly desired: to offer complete furnishings, the ability to furnish every environment.
