2022 COLLECTION / INDOOR

La 2022 Collection è una vera e propria esplorazione di nuovi orizzonti creativi tra forme, immaginari e rievocazioni culturali da più parti del mondo; il battesimo di una nuova importante tappa nel percorso ispirazionale di Minotti. Dopo l'Italia e la Francia di Rodolfo Dordoni e Christophe Delcourt, il Giappone di Nendo, il Brasile di Marcio Kogan / studio mk27 e la Danimarca di GamFratesi, quest'anno il viaggio del brand arriva ad unire due mondi così lontani eppure così legati: il Giappone e la Danimarca, paesi d'origine del duo di designer Inoda+Sveje. Il fil rouge tra queste due culture si traduce per Minotti in una scelta inedita che affonda le proprie radici nell'ineffabile legame tra Oriente e Scandinavia ma, soprattutto, nell'inesauribile ricerca del bello e ben fatto da parte del brand.

Coordinata da Rodolfo Dordoni con Minotti Studio, la nuova collezione vede tra i protagonisti elementi dal chiaro richiamo alle diverse culture del design, ma anche al loro saper fare: dall'ebanisteria più raffinata alle imbottiture lavorate magistralmente, fino alla confezione sartoriale di sofisticata qualità, il tutto animato da inediti accenti cromatici.

Colorati con chiara ispirazione ai toni della natura sono tessuti, tappeti, complementi, volumi imbottiti, dettagli costruttivi che impreziosiscono gli arredi e li contraddistinguono dando loro un inaspettato carattere contemporaneo, se pur fortemente legato alle radici storiche e manifatturiere dell'azienda. Le ispirazioni allo stile Contemporary, così come all'estetica anni '70, si integrano con le equilibrate e raffinate influenze stilistiche giapponesi e la moderna naturalezza del design nordico per incontrarsi in una bellissima simbiosi capace di creare un'atmosfera ricca e armonica. Nonostante la loro diversità, le culture giapponesi e scandinave condividono un profondo amore per la semplicità, l'artigianato e gli elementi naturali, linguaggio che Minotti traduce alla perfezione evolvendolo in una propria nuova grammatica del vivere gli spazi domestici e di Hospitality. Non solo le ispirazioni, ma anche il know how e la creatività del brand animano la 2022 Collection, unendo l'abilità manifatturiera alla ricerca e alle più evolute tecnologie in materia di comfort, ergonomia e resistenza dei materiali dando vita ad un ambiente calmo e sereno che esprime la propria ricchezza nella cura dei dettagli; un luogo in cui sobrietà ed eleganza sono sussurrate e non urlate. Arredi compatti, di carattere e potenti al tempo stesso, capaci di dialogare con le collezioni precedenti rafforzandole, creando una sorta di nuova punteggiatura all'interno degli spazi firmati Minotti. Tra i protagonisti, Goodman e Twiggy di Rodolfo Dordoni, Horizonte di Marcio Kogan / studio mk27 e Yoko, Lars e Sendai, i tre progetti firmati da Inoda+Sveje che danno vita ad un rinnovato, leggero e raffinato Nordic Japanisme.

Poltrone, panche, pouf, divanetti dalle proporzioni gentili e dai raffinati dettagli curati impeccabilmente ma anche sistemi di sedute monolitici e tavolini scultorei. Oggi Minotti fa rivivere le peculiarità di queste culture traducendole in un gusto contemporaneo, capace di dialogare con le proporzioni e le visioni spaziali alle quali da sempre il brand italiano si ispira.

The 2022 Collection is a real exploration of new creative horizons incorporating shapes, images and cultural references from around the world; heralding a new, important stage in the inspirational pathway of Minotti. After the Italy and France of Rodolfo Dordoni and Christophe Delcourt, Nendo's Japan, the Brazil of Marcio Kogan / studio mk27 and GamFratesi's Denmark, this year, the brand's journey urges it to unite two worlds that are distant yet also closely connected: Japan and Denmark, the homelands of designer duo Inoda+Sveje. The leitmotif shared by these two cultures translates for Minotti into an unusual choice rooted in the ineffable bond between the Orient and Scandinavia but, above all, in the brand's inexhaustible pursuit of beauty and excellent workmanship. Coordinated by Rodolfo Dordoni with Minotti Studio, the protagonists of the new collection are elements that clearly take their cue from different design cultures, but also from their savoir-faire: from the most refined cabinet-making to upholstery crafted with extraordinary expertise and exquisitely sophisticated tailoring, all invigorated by brand new colour nuances.

Fabrics, rugs, furnishing accessories, padded elements and structural details in colours clearly inspired by the shades of nature enhance and distinguish the furnishing pieces, giving them a personality that is unexpectedly contemporary yet deeply rooted in the company's history and crafting expertise. Contemporary style inspirations and a 1970s aesthetic blend with well-balanced, sophisticated Japanese stylistic influences and the modern natural flair of Nordic design to meet in a beautiful symbiosis that creates a rich, harmonious atmosphere. Despite their diversity, the Japanese and Scandinavian cultures share a deep love for simplicity, craftsmanship and natural elements, a language that Minotti flawlessly translates, developing it into its own grammar for regulating new ways of conceiving the spaces at home and in the Hospitality sphere. The 2022 Collection is not only animated by these inspirations, but also by the brand's know-how and creativity, combining manufacturing expertise with research and the most advanced technologies in terms of comfort, ergonomics and durable materials, creating a calm, peaceful atmosphere that expresses its prestige in its attention to detail; a place in which sobriety and elegance are not shouted but rather whispered. Compact yet powerful furnishing pieces with a strong personality, capable of dialoguing with the previous collections and reinforcing them, creating a sort of new punctuation within the spaces furnished by Minotti. The protagonists include Goodman and Twiggy by Rodolfo Dordoni, Horizonte by Marcio Kogan / studio mk27 and Yoko, Lars and Sendai, the three designs by Inoda+Sveje which bring to life a renewed, light and refined Nordic Japanisme.

Armchairs, benches, ottomans and small sofas with modest proportions and refined, impeccably crafted details, but also one-piece seating systems and sculptural coffee tables. Today Minotti revives the peculiarities of these cultures, translating them into a contemporary taste, capable of dialoguing with the proportions and spatial visions of the Mid Century that has always inspired the Minotti brand.

Die 2022 Collection ist eine echte Erkundung neuer kreativer Horizonte zwischen Formen, Bildern und kulturellen Anspielungen aus verschiedenen Teilen der Welt; die Taufe einer neuen wichtigen Etappe auf der inspirierenden Reise von Minotti. Nach Italien und Frankreich von Rodolfo Dordoni und Christophe Delcourt, Japan von Nendo, Brasilien von Marcio Kogan / studio mk27 und Dänemark von GamFratesi, führt die Reise der Marke in diesem Jahr zu zwei Welten, die so weit entfernt und doch so verbunden sind: Japan und Dänemark, die Herkunftsländer des Designerduos Inoda+Sveje. Der Fil rouge zwischen diesen beiden Kulturen bedeutet für Minotti eine beispiellose Wahl, die in der unvergleichlichen Verbindung zwischen dem Orient und Skandinavien, aber vor allem im unerschöpflichem Streben der Marke nach Schönheit und gut Gemachtem wurzelt. Die neue Kollektion, von Rodolfo Dordoni zusammen mit Minotti Studio koordiniert, enthält Elemente mit klaren Bezügen zu den unterschiedlichen Designkulturen, aber auch zu deren Know-how: von den exklusivsten Schränken bis hin zu meisterhaft gefertigten Polstermöbeln und raffinierten Schneiderarbeiten, die alle durch ungewöhnliche Farbakzente belebt werden.

Die Farben der Stoffe, Teppiche, Einrichtungselemente, Polstervolumina und Konstruktionsdetails sind eindeutig von den Tönen der Natur inspiriert. Sie verdehnen die Möbel und verleihen ihnen einen unerwarteten zeitgenössischen Charakter, auch wenn sie stark mit den historischen und produktiven Wurzeln des Unternehmens verbunden sind. Inspirationen aus dem zeitgenössischen Stil sowie aus der Ästhetik der 1970er Jahre treffen mit den ausgewogenen und raffinierten japanischen Stileinflüssen und der modernen Natürlichkeit des nordischen Designs in einer wunderschönen Symbiose zusammen, die eine prächtige und harmonische Atmosphäre schafft. Trotz ihrer Unterschiedlichkeit teilen die japanische und die skandinavische Kultur eine tiefe Liebe zur Schlichtheit, zum Handwerk und zu natürlichen Elementen. Diese Sprache übersetzt Minotti auf perfekte Weise durch die Weiterentwicklung seiner eigenen neuen Grammatik für das Leben der häuslichen vier Wände und von Hospitality-Bereichen. Nicht nur die Inspirationen, sondern auch das Know-how und die Kreativität der Marke beleben die 2022 Collection. Handwerkskunst wird mit Forschung und den fortschrittlichsten Technologien im Bereich Komfort, Ergonomie und Materialbeständigkeit verbunden, um ein ruhiges und unbeschwertes Ambiente zu schaffen, das seinen Reichtum in der Liebe zum Detail zum Ausdruck bringt. Es entsteht ein Ort, an dem Nüchternheit und Eleganz geflüstert und nicht geschrien werden. Einrichtungsgegenstände, kompakt, charakterstark und kraftvoll zugleich, die in der Lage sind, mit den vorherigen Kollektionen in Dialog zu treten, sie zu verstärken und eine Art neue Interpunktion in den von Minotti gestalteten Räumen zu schaffen. Im Mittelpunkt stehen unter anderem Goodman und Twiggy von Rodolfo Dordoni, Horizonte von Marcio Kogan / studio mk27 und Yoko, Lars und Sendai, die drei Projekte von Inoda+Sveje, die einen erneuerten, leichten und raffinierten „Nordic Japanisme“ zu neuem Leben erwecken.

Sessel, Bänke, Poufs und Sofas mit sanften Proportionen und makellos gearbeiteten erlesenen Details, aber auch monolithische Sitzprogramme und skulpturale Beistelltische. Heute lässt Minotti die Besonderheiten dieser Kulturen wieder aufleben. Sie werden in einen zeitgenössischen Geschmack übersetzt, der in der Lage ist, mit den Proportionen und räumlichen Visionen, die die italienische Marke schon immer inspiriert haben, in Dialog zu treten.

La 2022 Collection est une véritable exploration de nouveaux horizons créatifs à travers des formes, des images et des évocations culturelles venant des quatre coins du monde ; le baptême d'une nouvelle étape importante dans le parcours d'inspiration de Minotti. Après l'Italie et la France de Rodolfo Dordoni et Christophe Delcourt, le Japon de Nendo, le Brésil de Marcio Kogan / studio mk27 et le Danemark de GamFratesi, cette année, le voyage de la marque arrive à réunir deux mondes à la fois si éloignés et si rattachés : le Japon et le Danemark, pays d'origine du duo de designers Inoda+Sveje. Le fil rouge entre ces deux cultures se traduit, pour Minotti, par un choix inédit qui puise ses racines dans le lien ineffable entre l'Orient et la Scandinavie mais, surtout, dans la recherche inépuisable du beau et du travail bien fait menée par la marque.

Coordonnée par Rodolfo Dordoni avec Minotti Studio, la nouvelle collection met en vedette des éléments qui font clairement référence non seulement aux différentes cultures du design, mais aussi à leur savoir-faire : de l'ébénisterie la plus raffinée aux rembourrages magistralement réalisés et à la confection réalisée en atelier d'une qualité sophistiquée, le tout agrémenté d'accents de couleur inédits.

Les couleurs, clairement inspirées des tons de la nature, recouvrent les tissus, les tapis, les volumes rembourrés et les détails de construction qui embellissent les meubles et les distinguent en leur donnant un caractère contemporain inattendu, quoique fortement lié aux racines historiques et manufacturières de l'entreprise. Les inspirations du style Contemporary, ainsi que de l'esthétique des années 1970, s'intègrent aux influences stylistiques japonaises équilibrées et raffinées et au naturel moderne du design nordique pour se rencontrer dans une très belle symbiose capable de créer une atmosphère riche et harmonieuse. Malgré leur diversité, les cultures japonaise et scandinave partagent un amour profond pour la simplicité, l'artisanat et les éléments naturels, un langage que Minotti traduit à la perfection en le faisant évoluer vers sa propre nouvelle grammaire des espaces de la maison et de l'hôtellerie à vivre. Ce ne sont pas seulement les inspirations, mais aussi le savoir-faire et la créativité de la marque qui animent la 2022 Collection, alliant le savoir-faire artisanal à la recherche et aux technologies les plus avancées en matière de confort, d'ergonomie et de résistance des matériaux pour donner naissance à un environnement calme et serein qui exprime sa richesse dans l'attention portée aux détails ; un endroit où la sobriété et l'élégance sont murmurées plutôt que criées. Des meubles à la fois compacts et puissants, capables de dialoguer avec les collections précédentes et de les renforcer, créant une sorte de nouvelle ponctuation au sein des espaces conçus par Minotti. Parmi les protagonistes figurent Goodman et Twiggy de Rodolfo Dordoni, Horizonte de Marcio Kogan / studio mk27 et Yoko, Lars et Sendai, les trois projets signés Inoda+Sveje qui donnent vie à un japonisme nordique renouvelé, léger et raffiné.

Des fauteuils, des bancs, des poufs et des canapés aux proportions délicates et aux détails raffinés, réalisés de manière impeccable mais aussi des sièges monolithiques et des petites tables sculpturales. Aujourd'hui, Minotti fait revivre les particularités de ces cultures, en les traduisant en un goût contemporain, capable de dialoguer avec les proportions et les visions spatiales dont la marque Minotti s'inspire.

2022 COLLECTION / OUTDOOR

La 2022 Outdoor Collection segna un ulteriore passo nell'evoluzione delle collezioni Minotti e ribadisce l'inequivocabile e sempre più forte volontà dell'azienda di trasferire l'estetica dell'indoor agli spazi da vivere all'aperto. Non solo continuità di stile e armoniosa coesione tra gli arredi, ma anche sviluppo stilistico e tecnologico negli elementi outdoor contraddistinguono le novità della 2022 Collection: legni masselli lavorati per diventare strutturali, metalli alleggeriti, tessuti dalle texture raffinate capaci di conferire agli arredi ecletticità e carattere. Sono diversi i designer che hanno contribuito a fianco di Minotti Studio a dare forma all'identità della 2022 Outdoor Collection: Rodolfo Dordoni, GamFratesi, Gordon Guillaumier e Inoda+Sveje. E nel progetto di ognuno di essi la scelta dei materiali abbina tecnologie avanzate e finiture in grado di durare nel tempo, acquistando sapore e raccontando uno stile di vita sempre più sofisticato e naturale al tempo stesso.

L'ampiezza della proposta di arredi, che permette di scegliere tra l'elegante e delicata sensazione tattile del legno o l'innovativa tecnologia del metallo, consente di arredare il proprio spazio outdoor in modo coerente con lo stile degli interni. Ispirata al tema della natura, non solo come luogo con cui confrontarsi, ma anche come spazio con cui dialogare, la palette cromatica della 2022 Textile Outdoor Collection richiama i toni caldi della terra, i neutri della sabbia e tinte più vive e luminose sempre legate alla natura.

Arredi eleganti e accoglienti, pensati per arredare sia vasti giardini che piccole terrazze, oltre a spazi di condivisione che vanno dal living alla zona pranzo, dai momenti di relax a quelli di grande convivialità, interpretando esigenze diverse e nuovi modi di vivere l'outdoor.

The 2022 Outdoor Collection marks a further step in the evolution of Minotti's collections and reaffirms the company's unequivocal and increasingly strong desire to transfer the aesthetics of indoor living to outdoor spaces. Not only continuity of style and harmonious cohesion among the furnishing pieces, but also the stylistic and technological developments in the outdoor elements distinguish the new features of the 2022 Collection: solid woods worked to become structural, lightened metals, fabrics with refined textures that give the furnishing pieces eclecticism and character. Several designers have contributed alongside Minotti Studio to shape the identity of the 2022 Outdoor Collection: Rodolfo Dordoni, GamFratesi, Gordon Guillaumier and Inoda+Sveje. And in the designs of each one, the choice of materials combines advanced technologies with finishes capable of standing the test of time, acquiring flavour and narrating a lifestyle that is increasingly sophisticated and natural at the same time.

The variety of the furnishing pieces available, which offers a choice between the elegant and delicate tactile sensation of wood and the innovative technology of metal, allows you to furnish your outdoor space in a way that is consistent with the style of the interior. Inspired by the theme of nature, not only as a place with which to engage, but also as a space with which to dialogue, the colour palette of the 2022 Outdoor Textile Collection recalls the warm tones of the earth, the neutrals of sand and brighter, more vibrant colours, again linked to nature.

Elegant and welcoming furnishing pieces, designed for both large gardens and small terraces, as well as shared spaces ranging from the living to the dining area, from moments of relaxation to those of lively conviviality, interpreting different needs and new ways of experiencing the outdoors.

Die 2022 Outdoor Collection stellt einen weiteren Schritt in der Entwicklung der Kollektionen von Minotti dar und bekräftigt den unmissverständlichen und immer stärker werdenden Wunsch des Unternehmens, die Ästhetik von Innenbereichen auf das Wohnen und Leben in Außenbereichen zu übertragen. Nicht nur die Kontinuität des Stils und der harmonische Zusammenhalt zwischen den Einrichtungsgegenständen, sondern auch die stilistischen und technologischen Entwicklungen bei den Outdoor-Elementen zeichnen die Neuheiten der 2022 Collection aus: Massivhölzer, die strukturell bearbeitet wurden, leichter gemachte Metalle, Stoffe mit ungewöhnlichen Texturen, die den Einrichtungsgegenständen Eklektizismus und Charakter verleihen. Neben Minotti Studio haben mehrere Designer an der Gestaltung der Identität der 2022 Outdoor Collection mitgewirkt: Rodolfo Dordoni, GamFratesi, Gordon Guillaumier und Inoda+Sveje. In jedem ihrer Projekte werden bei der Wahl der Materialien fortschrittliche Technologien mit Oberflächen mit einer langen Lebensdauer kombiniert. So entsteht eine charakteristische Handschrift und die Möbel spiegeln einen immer raffinierteren und gleichzeitig natürlicheren Lebensstil wider. Das breite Angebot an Möbeln, das die Wahl lässt zwischen der eleganten und zarten Haptik von Holz und der innovativen Technologie von Metall, ermöglicht es, den privaten Außenbereich in einer Weise einzurichten, die einen Bezug zum Stil der Inneneinrichtung herstellt. Inspiriert durch das Thema Natur, nicht nur als Ort der Begegnung, sondern auch als Raum, mit dem man sich austauschen kann, erinnert die Farbpalette der 2022 Textile Outdoor Collection an die warmen Töne der Erde, die neutralen Farben des Sandes und die helleren, lebhafteren Töne, die wiederum mit der Natur verbunden sind.

Elegante und einladende Möbel, die sowohl für große Gärten als auch für kleine Terrassen sowie für gemeinsam genutzte Räume, vom Wohn- bis zum Essbereich, für Momente der Entspannung bis hin zu Momenten großer Geselligkeit, konzipiert wurden, interpretieren unterschiedliche Bedürfnisse und neue Arten, Außenbereiche zu leben.

Réaffirmant la volonté claire et toujours plus ferme de l'entreprise de transposer l'esthétique de l'intérieur dans les espaces extérieurs, la 2022 Outdoor Collection marque un nouveau jalon dans l'évolution des collections Minotti. Les nouveautés de la 2022 Collection ne se distinguent pas seulement par une continuité de style et par une harmonieuse cohésion mais aussi par la qualité stylistique et technique des éléments conçus pour l'extérieur : des bois massifs travaillés pour devenir structuraux, des métaux allégés et des tissus aux textures raffinées à même de conférer aux meubles éclectisme et caractère. Plusieurs designers ont contribué, aux côtés de Minotti Studio, à donner corps à l'identité de la 2022 Outdoor Collection : Rodolfo Dordoni, GamFratesi, Gordon Guillaumier et Inoda+Sveje. Dans chacun de leurs produits, le choix des matériaux se double de technologies avancées et de finitions pensées pour durer dans le temps, gages d'un style toujours plus séduisant et d'un art de vivre à la fois plus sophistiqué et plus naturel.

Le riche éventail de solutions permet d'opter soit pour le toucher élégant et délicat du bois soit pour l'innovante technologie du métal afin de conférer aux espaces extérieurs un style cohérent avec l'intérieur. S'inspirant de la nature, non seulement comme élément de comparaison mais aussi comme espace de dialogue, la palette de la 2022 Textile Outdoor Collection rappelle les couleurs chaudes de la terre, les nuances neutres du sable et les teintes plus intenses et lumineuses d'autres éléments naturels.

Ces meubles élégants et accueillants sont pensés pour meubler non seulement de grands jardins ou de petites terrasses mais aussi des espaces partagés comme les séjours ou les salles à manger pour des moments de détente ou de grande convivialité à même de répondre aux multiples besoins et aux nouvelles façons de vivre le plein air.
