INSIDE THIS GUIDE

GET TO KNOW US and discover how we try to improve the quality of life through our 'Tools for Togetherness'. We've bundled images from the most inspiring homes and gardens as a showcase for the solutions we offer to everyday challenges. Choosing is losing — so yes, some of our darlings didn't make the cut this time. We're doing our best to limit paper use, but don't worry — our website comes to the rescue!

A MANIFESTO FOR TOGETHERNESS

We don't make furniture.

We create the conditions
for people to come together.
To live well, slow down, recharge...

WHY WE EXIST

*Extremis exists
because people are social by nature.
Because we need balance in a world
growing denser, faster, louder.
Because what happens between people
matters more than the objects around
them.*

WHAT WE DESIGN

*We design tools for togetherness.
Not objects to admire.
Not statements to acquire.
But functional tools
that support human interaction.
Tools that reduce friction and mental
effort.
Tools that disappear when used at their
best.*

HOW WE DESIGN

*We start from behaviour, not form.
From use, not appearance.
From necessity, not novelty.
Function leads.
Simplicity follows.
Beauty emerges.
We add nothing without reason.
We remove everything without
function.*

WHAT WE BELIEVE

*That durability is a responsibility.
That sustainability starts with relevance.
That clarity, calm, comfort and beauty save energy and therefore support mental health.
That ideas must last longer than trends.
That an object earns its place only when it adds true value to what exists.*

WHAT WE REJECT

*The unnecessary.
The superficial.
The disposable.
The short-lived.
We do not design to fill space.
We do not design for attention.
We do not design for speed.*

WHAT WE COMMIT TO

*To tools that endure
in use, in meaning, in time.
To materials chosen with care.
To structures designed for repair.
To products that age with grace
instead of being replaced.*

FOR WHOM WE DESIGN

*For everyone who creates spaces
where people come together.
At home.
At work.
In public.
Outdoors and indoors.
Wherever life happens between people.*

OUR MEASURE OF SUCCESS

*Not how much is sold.
But how much is used.
Not how new it looks.
But how long it lasts.
Not what it says about us.
But what it enables between others.*

IN ESSENCE

*Extremis designs
Tools For Togetherness...*

*FOR TODAY.
FOR TOMORROW.
FOR ALL WHO GATHER.*

© extremis
All our designs are original
creations and protected by
intellectual property rights.

Hello you, We're so glad you're here!

We are Extremis. Strong-willed and **Belgian-based**, we don't make furniture — *we make more than furniture.*

We design and craft products to love for a lifetime and to pass on to the next generation. As you can read in our Manifesto, we call them **Tools for Togetherness.**

This guide will give you a glimpse of what our manifesto is all about. You'll meet many real people - no models - simply **enjoying each other's company** and their surroundings, with a little help from our humble tools.

We hope you feel inspired by these homes, gardens, backyards, terraces, and more. And we'd love to welcome you soon to experience Extremis in one of our shops.

Cheers!

A FESTIVAL IN YOUR BACKYARD

Panigiri

Byos

Sensu

Sol+luna

With Panigiri as its heart, this terrace becomes a place to gather and have fun. Sol+luna offers room to lounge, while Sensu brings gentle shade throughout the day. Together, they create a space where the whole family connects.

A coastal penthouse

This penthouse apartment unfolds onto a 360° terrace with a sweeping view of the North Sea coastline and the dunes in between. The shifting weather, the tides, the play of nature, and the kite surfers skimming the waves create an endless sense of wonder, all enjoyed from the Panigiri, Sensu and a set of Sol+Luna daybeds on this warm wooden deck.

Panigiri

Byos

Sensu

Sol+luna

The name Panigiri comes from the ancient Greek word panēgyris, meaning

'Gathering all'

Πανηγύρι

Panigiri picnic

The Panigiri picnic benches, **always perfectly aligned** with the picnic table, contribute to an uncluttered view. Enhance comfort with cushions, seamlessly secured through a slide-in technique.

BYOS

For those who cherish both comfort and a well-aligned view, the Bring Your Own Seat (BYOS) option allows you to **hook a super comfortable woven backrest** and an upholstered seating cushion onto the bench. BYOS-seats are stackable for convenient indoor storage.

Designed by Dirk Wynants

The **Panigiri collection** includes tables, picnic tables, and hybrid versions that combine both. The owners chose two Panigiri picnic tables for the terrace of their sea-view apartment, drawn by the clever option to **add a backrest** to the benches.

Panigiri

Byos

Sensu

Sol+luna

A WORLD OF POSSIBILITIES

Whether hosting an intimate dinner party or a grand family gathering, **Panigiri's modularity** ensures there's a seat for everyone, allowing table segments to be endlessly coupled. By combining **chairs, benches and add-on chairs**, you create the setting of your desire.

Panigiri combo: bench - table - bench

PAUSE THE JOURNEY

Panigiri Bistrou Sensu Cabrio

Have you ever driven your car through the hills, enjoying a magnificent scenery? Wouldn't it be nice to enjoy that wonderful landscape without the hassle of having to keep your eyes on the road? Of course! That's how Cabrio came to life...

Get-togethers in the countryside

Whether it's the autumn colours, the first blossoms of spring, or even a crisp winter morning wrapped in a blanket — you'll always have the perfect spot to admire the outdoors from your Cabrio. And Panigiri, Sensu and Bistrou feel just as right at home in these surroundings.

ENJOY THE DESTINATION

Panigiri Lava

Byos

Sensu

Cabrio

CABRIO

Buckle up for pure relaxation! Meet the Extremis **Cabrio**, the ultimate two-seater sofa that turns your terrace into the best spot in town. Forget the driveway — this ride is made for open-air lounging.

Step in with your favorite co-pilot and cruise into a world of unmatched **comfort and joy**, all from your own garden. Side by side, you can soak in the **panoramic view**, taking in every

little change in the landscape around you. Because even when you're not moving, the world is. And the best part? No steering required. Just sit back, relax, and enjoy the ride.

The soft top keeps your sofa cushions dry when not in use. At the same time, you can position it to protect yourself from the sun.

Underneath the seating cushions, footrests are hidden - ready to unveil them whenever you need them.

Cabrio

Dirk Wynants, designer: The Strandkorb, or Beach Basket, is more than just a seat—it's a cultural icon. Born in the 19th century, it has stood the test of time, proving its undeniable charm. Yet, for over a century, its design remained practically untouched. This opened the door for a modern reinterpretation, enhancing both its functionality and aesthetics while honoring its rich heritage.

Scan this code and discover what inspired us and how it works!

Dirk, don't tell me this is a basket!?

SENSU + PANIGIRI LAVA

After launching Panigiri with its warm **wooden benches and tabletop**, we were already dreaming of a version that would be even more luxurious, scratch-resistant, and almost maintenance-free. Sicilian lavastone proved the perfect sustainable choice for Panigiri's Mediterranean spirit.

Imagine a lunch with 'Stoofvlees' and French fries around this table... or turn the page to see more!

With lavic stone abundantly available near Mount Etna, we believe it's the most sustainable **natural stone** we can offer. With or without optional colored glazing, it becomes a sleek, luxurious, scratch-resistant and low-maintenance outdoor retreat.

THE TABLE IS LAVA, LITTERALLY

The outstanding advantages of lava stone

- Glazed lava stone hard and **resistant to scratches, abrasions,** and everyday wear. Think about cutlery, glasses, plates...
- Glazed stone is non-porous, so it **resists stains** from wine, oil, or sauces.
- It can withstand **high temperatures** — hot pots, pans, or dishes won't damage it.
- The lava stone is perfect for **outdoor use**: sunlight, rain, and temperature fluctuations won't fade or degrade it. The surface prevents water absorption and warping.
- And last but not least, it is soooo **easy to clean** — a simple wipe with mild detergent is enough.

Cabrio

SPACIOUS AND COMFORTABLE FOR
EVERY BODY

CAPTAIN'S CHAIR

Designed by Metrica

A chair for all

The Captain's Chair owes its name to its shape, inspired by the captain's **seat on a yacht**. This shell chair offers exceptional seating comfort, the result of extensive ergonomic testing during the design process. Its shape was carefully **sculpted in clay** to accommodate the widest range of body types. The sled-style or pipe-leg base makes the chair suitable for all kinds of indoor and outdoor settings, at the dining table or on the terrace.

A chair for all seasons

The shell-shaped seat features a large drainage and ventilation hole to keep it clean and dry, even when left outside permanently. The cushion is contoured to fit the curves of the shell and the hole, ensuring **it stays securely in place**.

Unrivalled comfort of the shell

Panigiri Lava
Captain's

Auto-positioning seating cushion

Even more comfort with the quilted cushion

Sensu

A man and a woman are sitting on orange plastic chairs on a grassy lawn, looking towards a swimming pool. The man is on the left, wearing a blue polo shirt and glasses, with his arm around the woman's shoulder. The woman is on the right, wearing a white lace top and light-colored pants. In the background, there is a brick building, some greenery, and a person swimming in the pool. The overall scene is peaceful and romantic.

LOVE IS ABOUT LOOKING IN THE SAME DIRECTION

BISTROO

The first thing that springs to mind when you see Bistroom is a cozy balcony or a romantic Parisian bistro. Instead of sitting opposite each other, you sit side by side at the Bistroom. Turns out it is ideal in any outdoor space for an intimate chat, a relaxing coffee or just watching the world go by.

Bistroom

Cut-out for stackability, tray fits like a glove

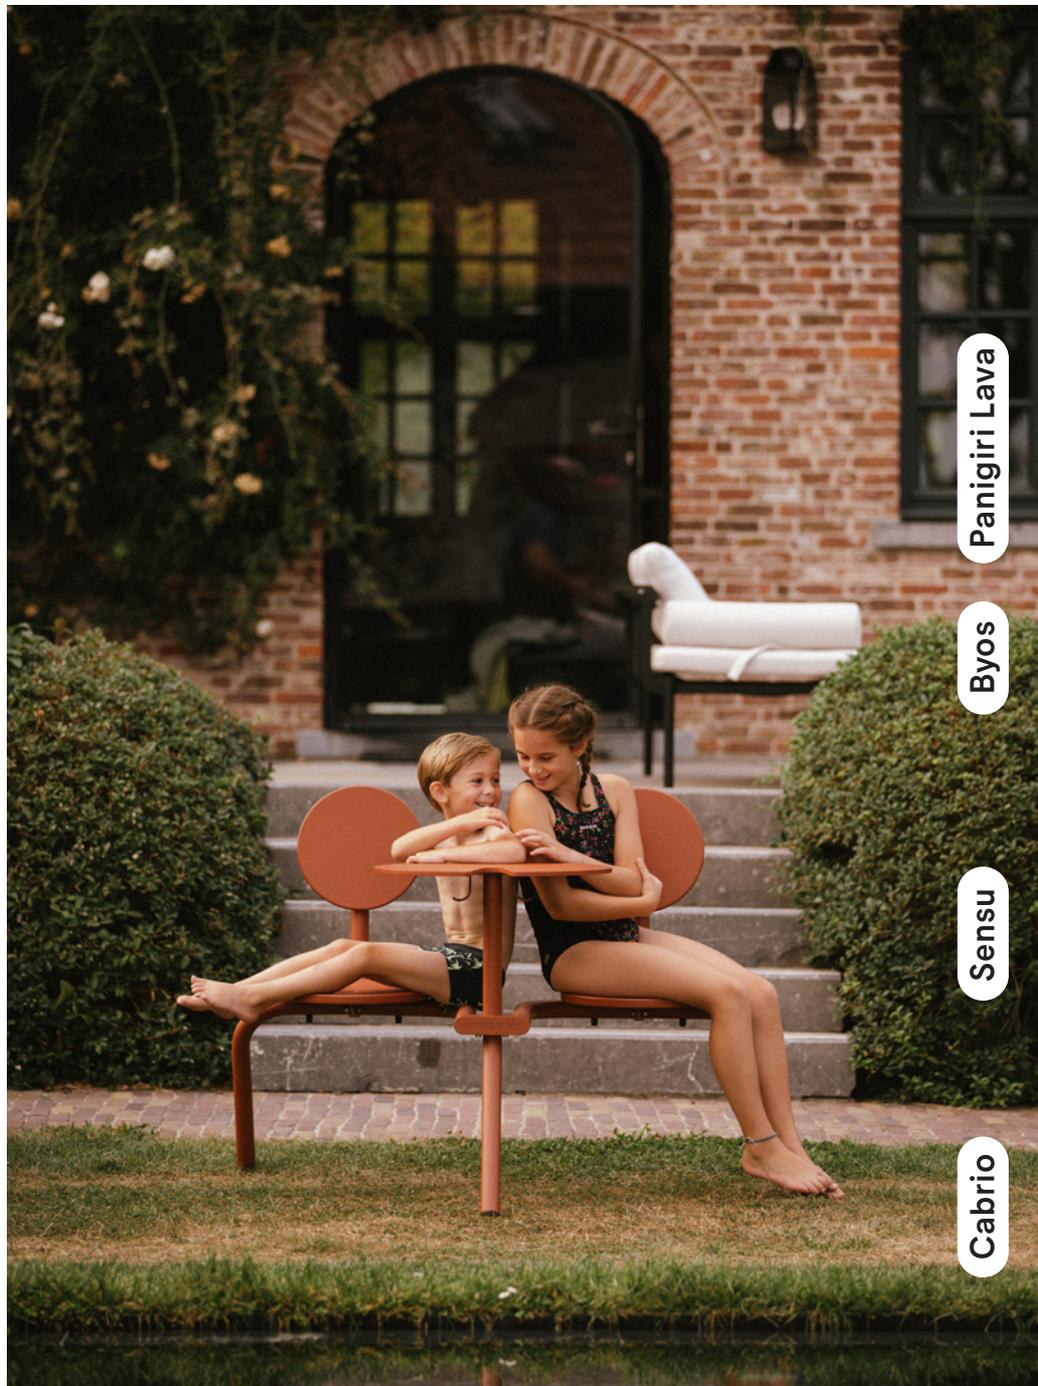

Spacer for stackability doubles as a purse or clothing hook

The double O-shaped backrests provide ample support as you enjoy a continental breakfast or delicious hors d'oeuvres at the table. The crevice in the table is designed to make the Bistroo stackable. Optional trays fit seamlessly in the gap while in use, offering the perfect place for a server to leave a tray of spices and condiments. No need to worry about your fork falling through the slats of rickety tables.

Three legs, two chairs and one tabletop are the basis of this innovative concept. Thanks to its three cleverly positioned legs, the Bistroo remains **perfectly stable** on any outdoor terrace.

HERNESS TOOLS FOR TOGETHER

ALL SEASONS OUTDOORS

Hopper

Sensu

Walrus

A garden overlooking a green island/park deserves a design that lets you enjoy the view in every season, moving in harmony with its rhythm. With these tools, you gently extend the summer, always ready to welcome you outdoors.

A natural retreat

'De Balokken' embody the history of a border region between Belgium and France — the island floats between both sides. A modern river makeover accidentally created one of the nicest little natural retreats in West-Flanders. Whether seated at our Hopper or nestled into our Walrus sofa, the backdrop leaves nothing to complain about.

Hopper

Byos

Sensu

Walrus

ICONIC

HOPPER

With its inspiration drawn from the hop fields and the harvest celebrations of the hops, Hopper entered the design market as a promising Belgian design in 2010. This year we'll be celebrating its sweet sixteen party. This is the drinking age in Belgium, yet we won't celebrate it with a new beer — but with a new add-on: the Hopper BYOS or Bring Your Own Seat!

Hopper

HOPPER, AN AWARD- WINNING DESIGN ICON

Hopper is a more functional solution for a classic concept: the picnic table. The bent leg feature eliminates the awkward straddle of **climbing over the benches**. Aluminium or steel legs in combination with Class I hardwoods ensure material longevity while the attached benches offer a **clean aesthetic at all times**. If you prefer a mono-material picnic table, you can opt for Hopper picnic AA, our All Aluminium version.

Designed by Dirk Wynants

Hopper features an incredibly durable hot-dip galvanized steel frame that supports the wooden components. We offer a 15-year warranty on this zinc-protected metal.

Hopper

Byos

Additionally, Hopper is now also available with a coated frame as an optional finish.

Sensu

Walrus

The final celebrations of the hop harvest — beer festivals, in short — are synonymous with coziness, friends, laughter, and memorable moments together. This is exactly the feeling we wanted to capture with our Hopper collection: long benches, low entry points, and slanted bench corners that **make joining in easy** and sitting comfortable.

Hopper

Byos

Sensu

Walrus

From the launch of Hopper, this backrest has been part of the original design, featuring the same inclination as the hop-garden poles. Now we want to offer a soft, extra comfortable alternative.

Hopper Byos in Sunbrella Lopi Marble fabric

HOPPER SHADE

This optional tensioned fabric opens and closes effortlessly, using an internal spring mechanism that requires no extra space beside the table. The foldable canopy provides ample shade for everyone in a simple, visually refined way.

With Hopper shade, inspired by the slanted poles of the hops fields that surround our headquarters.

HOPPER BYOS

For those who value both comfort and a perfectly aligned view, the Bring Your Own Seat (BYOS) option lets you attach a **fully upholstered backrest and seat** to the Hopper benches. The BYOS seats are stackable for easy indoor storage, creating an inviting space to sit back, relax, and enjoy your Hopper table to the fullest.

HOW TO USE?
HOW IT WORKS?

Instant seating: Walrus is ready in the blink of an eye

In many rainy parts of the world people have a permanently covered sofa in the garden or on the restaurant terrace. Functional? Not really. Pretty? Even less so. When designing our own outdoor sofa we knew **we didn't want an ugly protective cover**, or hassle with pillows that have to be stored elsewhere and end up being forgotten.

Club chair

HERNESH TOOLS FOR TOGETHER

ESSENTIAL ARCHITECTURE

Gargantua

Manille

Inumbra

In a time when communication is dominated by reels, likes, and tags, we want to help people truly reconnect — by improving the quality of their time together and supporting the way they communicate in the real world.

Gargantua

Inumbra

Woven into nature

The finest garden of Schilde, near Antwerp, can be found at this home designed by architect Eddy François. Sober lines and clever designs weave the attractive home seamlessly into the greenery. The round Gargantua table with adjustable benches has provided a place for homeowner and interior photographer Mr. Frank to spend his outdoor moments for many years.

THE FAMILY TABLE

GARGANTUA

Bench at table height becomes a table extension. When all benches are at the highest level, 12 people can sit around Gargantua with a chair

Bench at normal seating height

The adjustable benches ensure that small children sit at the same eye level as adults

Gargantua

Gargantua is the original 'tool for togetherness'. Born from the notion that gathering around a table should be **accessible for all**, form certainly followed function in more ways than one. The **adjustable benches** ensure that small children sit at the same eye level as adults and the tabletop is accessible by wheelchair. Gargantua is the ultimate symbol of inclusivity.

Backrests

Add a backrest to your Gargantua benches for extra comfort. These curved backrests follow the shape of the round picnic table and add even more to the architectural feeling of the table. Made from galvanized steel, these optional supports ideally match your Tool for Togetherness.

Cushions

Get cushy with our Sunbrella® cushions for the Gargantua table. These rounded seats neatly fit the curved benches. Adjustable straps ensure that the cushions stay put so that you can sit in ultimate comfort. This fabric is the best outdoor cushion material, it is dirt and water repellent, though not waterproof.

"What makes a design sustainable? Not only the longevity of the materials, but also the longevity of the idea. The function of gargantua will stay relevant for generations to come."

— Dirk Wynants

A photograph of a wooden table outdoors. On the table, there is a pizza on a blue plate, a notebook with a blue cover, and a glass pitcher and a glass. The background is blurred, showing a person's hands and a plate of food.

Gargantua

Inumbra

Gargantua

Performance and aesthetics in one

Inumbra provides protection with a minimalist look and no technical parts on view. The result? An elegant yet resilient suspended canvas.

IMPROVING WHAT HAS ALWAYS BEEN THE SAME

INUMBRA

With a classic sunshade, you sit beneath a terrible tangle of rods. We wondered if that experience could look better while also making the parasol stronger. By turning it upside down, all **technical parts** are placed **above the fabric**, making the view from the table far more pleasant and uncluttered.

When paired with Gargantua or Pantagruel picnic, the Inumbra umbrella pole is fastened to the tabletop. This looks clean and is also practical, as no legroom is lost under the table. The combination makes it **the sturdiest terrace set** you have ever seen.

Tested and approved

In a wind tunnel test, it resisted winds up to gale force 8 on the Beaufort scale, but we advise to close it at force 6 (you will hear the cords whistling).

Gargantua

Inumbra

It's magic! No pole underneath the table!

Architect Eddy François

The home is in fact quite a bit younger than the table in this garden, but they still make an outstanding match: Gargantua fitted in the wabi-sabi philosophy of architect Eddy François because it's fulfilling its function in a very humble way, not drawing too much attention. This iconic table is over 30 years, and the idea has never been more relevant. We must say in all honesty — looking at these pictures, that also its materials withstood the outdoor conditions pretty well. The owners found it second-hand and now this 90's piece is still the best spot to enjoy the garden!

DISCLAIMER

Placing your garden furniture on the lawn instead of a terrace comes with a few considerations:

- Mowing can become tricky, as it's hard to reach the grass under the table legs. Heavy tables like Gargantua aren't exactly easy to move either.
- Grass under a parasol foot may rot and crumble. (Good news: this table's parasol attaches directly to the table, so you don't have to worry.)
- Frequent use of your table — which we hope you enjoy! — can wear down the grass under each seat, eventually leaving bare or patchy spots.

The position, color, and materials of your Extremis product all matter, which is why we created a handy guide called 'Choose Wisely'. Scan the QR code below to explore it and make the most of your outdoor space.

Gargantua

Inumbra

MANILLE

Manille is a perfect blend of practicality and joy. Designed as a table-bench formation, this picnic table comfortably accommodates up to four people, while the head of the table is reserved for wheelchair users - making Manille an inclusive and accessible table for everyone.

The fixed benches give an uncluttered look to the design and a slight incline offers extra seating comfort. With a **joyous design** available in different colors, Manille adds a touch of coziness and personality to any (outdoor) space. But don't let its fun-loving design fool you. Manille is **built to last**, with the highest-quality materials that ensure durability and long-lasting performance.

Designed by Dirk Wynants

Manille

Manille

Manille

MANILLE SHADE

With the poles of the **Manille shade** simply sliding into the backrests, the Manille picnic table effortlessly becomes a cozy cocoon. It is designed with maximal attention to practicality and **safety**: the tiny connection pieces that hold the fabric are designed to break first, in case you forgot to remove the shade before a storm.

Manille's shade is a very intuitive design; just roll out the canvas and slide the four poles into the attached backrests to provide a cozy and relaxing experience. When not in use, store it indoors; it occupies minimal space.

Only when you forget to remove it, and wind starts to blow, there's a little safety mechanism built in: the plastic connectors break, and the shade simply falls down on the floor. If it were stronger, the whole picnic set could blow away.

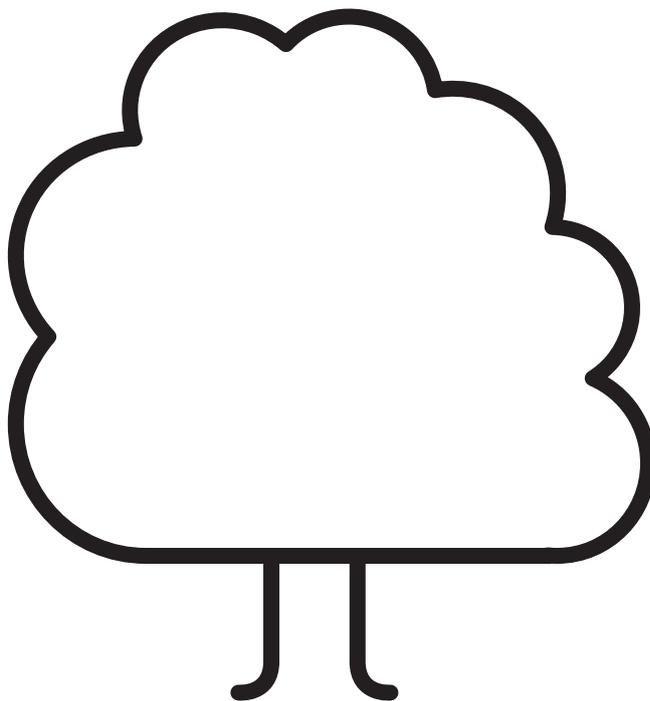

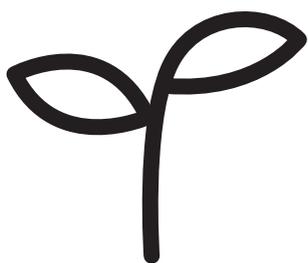

Manille

Manille

- 5 -

A TOOL FOR TOGETHERNESS

**...remains relevant
for generations,
becoming a
cherished heirloom
thanks to its
durability and
sustainable design.**

A GIANT'S SON

Pantagruel

Inumbra

Gargantua and his son Pantagruel were the legendary giants of Rabelais' famous Renaissance novels. The French writer was celebrated for his layered humor, bold satire, and joyful parody. His giants lived for good company, hearty Burgundian feasts, and unrestrained laughter — if they lived today, they would surely choose a Gargantua or Pantagruel table!

The best city garden

Crowned Best City Garden of the Benelux, this hidden gem in Brugge is a delight to the eye. At its heart, the Pantagrue table brings a hint of Rabelaisian abundance — a generous tabletop and a rotating lazy Susan ready for a modern feast. A small garden with grand appetite.

Pantagrue

Inumbra

MORE SHADE WITH INUMBRA

Inumbra provides protection with an uncluttered, minimalist look and **no technical parts on view**. The result? An elegant yet resilient suspended canvas.

Easily open or close the Inumbra with the handle and spindle system.

Inumbra

Bigger shade, closer to the table

The opening mechanism allows a **larger canopy** to close above the table. When the parasol is opened, the canopy lowers — and a lower canopy blocks more sunlight!

Inumbra black edition

This parasol with all black fabric and pole is destined to match a black Pantagrue, but is obviously also available on a concrete base.

Pantagruel

INUMBRINA

Lean and clean

This umbrella makes sunny days even better. Like Inumbra, it was designed with the mechanicals at the top, although the cables meet the fabric about halfway. Its innovative construction makes Inumbrina light yet very wind resistant.

Lighter, still sturdy

Inumbra's slightly smaller sister has a pulley system to open the shade, which is still very innovative and visually attractive. By simply pulling the rope, the fabric opens in the blink of an eye, as the construction of this parasol is much lighter.

Inumbra

THE GENTLE GIANT

PANTAGRUEL

The design of **Pantagruel** is an evolution of our Gargantua table: A round table with great refinement, that brings people together and adds fun and ease to every occasion with a **built-in revolving platform** - the Lazy Susan.

Pantagruel high table

Pantagruel table

PANTAGRUEL BLACK

The black Pantagruel, the slightly darker Hellwood, and the black Inumbra pole and fabric make a perfect combo.

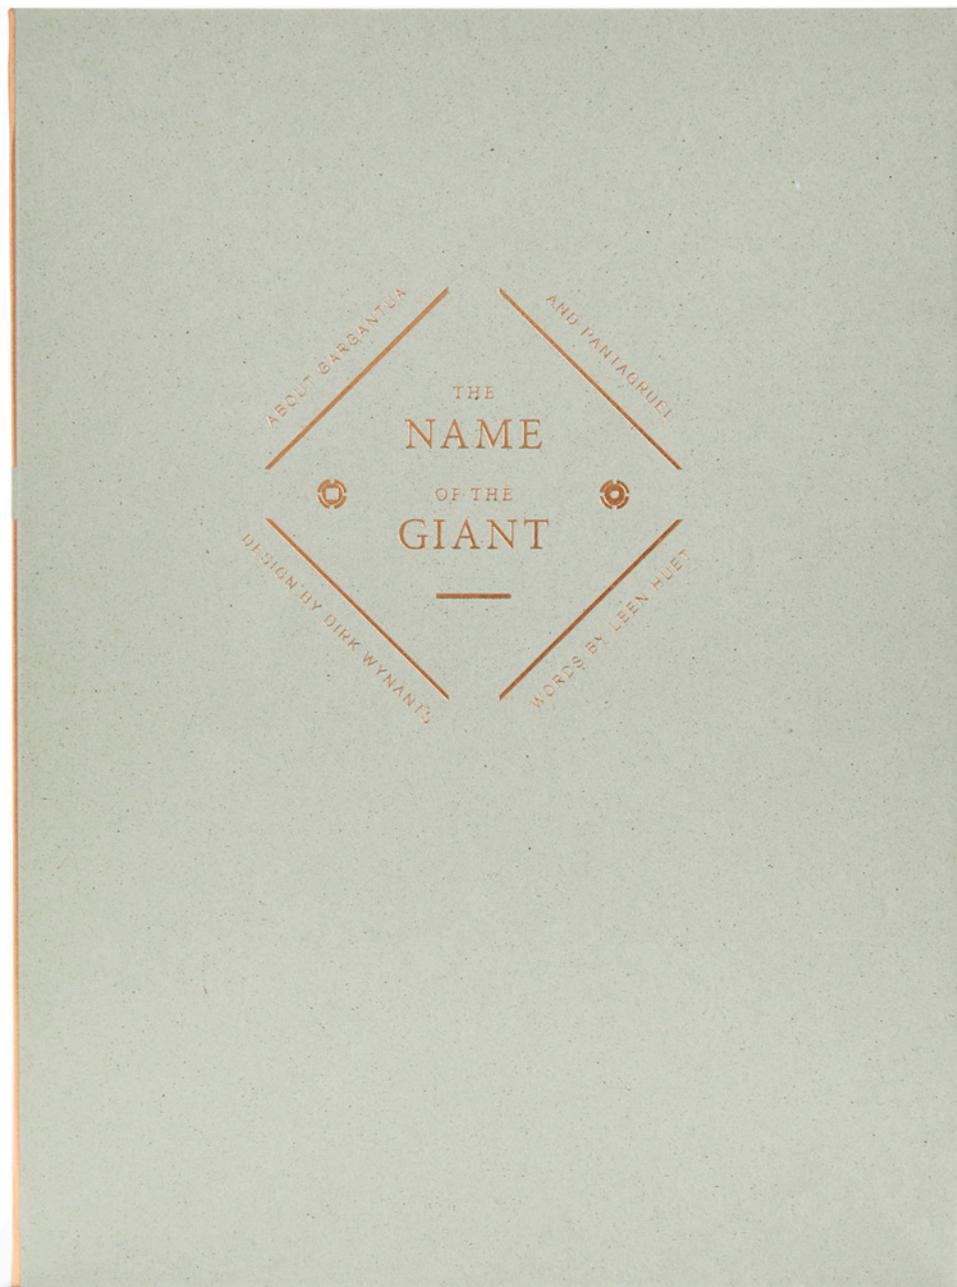

PANTAGRUEL, THE SON OF GARGANTUA

Pantagruel, the giant son of Gargantua in Rabelais' famous novels, inherits his father's enormous appetite, curiosity, and love of life. He delights in humor, grand feasts, and bold adventures. The books follow his journeys, encounters with strange and witty characters, and playful satire of human folly.

Curious about both giants? Read our summary — with excerpts and an exploration of the surprising connection between Extremis tables and French literature. Scan the QR code below.

Inumbra

ANKER IS ABOUT TOUCHING BASE

Anker

Inumbrina

Anker, Dutch for anchor, is our compact six-seater picnic table. Looking at the table legs, it is obvious where it got its name. But there is more to it. Sailors drop anchor when they reach a place where they want to stay...

Nagano — Japan

Much like sailors, anchoring is about gaining a grip on what truly matters in life. It means disconnecting from the daily rush and finding a sense of home. This eye-catching setup in Japan invites calm and reconnection, set within a discreet natural environment. Perfect for tea time!

Anker

Inumbrina

TOUCHING BASE

ANKER

Strong and durable like a real anchor, yet modern and minimalist enough to suit any setting, Anker is a six-seater with exceptional qualities for residential use. Paired with the lightweight Inumbrina, spanning a 3.2 m diameter, it creates a wonderfully simple setup in materials chosen to **last a lifetime**.

Together, they form a calm new gathering place and quiet retreat in a Japanese garden in Nagano, made for shared tea, unhurried conversations, and moments that linger. This is precisely the **slow life** Extremis seeks to promote, lived outdoors.

We are fa-mi-ly!

TWO SIZES

INUMBRINA

Earlier in this magazine, we've shown you the 3.80m Inumbrina, which is only slightly smaller than the full-on sturdy Inumbra shade. As we said, the biggest difference is the **cord and pulley opening mechanism**. With an even more slender pole, we also offer this mechanism in our 3.20m Inumbrina.

Stainless steel & aluminium

As you can see, this narrow pole runs down to the floor and its dimensions perfectly match Anker's design. The parasol pole is made of stainless steel, while the battens are aluminium. This makes it a strong yet **easy-to-carry** shadow maker to place on top of any table or parasol base.

WORKS? HOW TO USE? HOW IT WORKS?

FLEXIBILITY AT ITS FINEST

AMAI

Tiki

AMAI Shade

Furniture that is as flexible as your lifestyle: standing up or sitting down, indoors or outdoors, an effortless dinner event with friends or a focused brainstorm session with colleagues? AMAI is a landing place for togetherness, adapting instantly to every new experience!

Woodhouse garden party

It's time to steal the show! With the perfect height to prepare meals and drinks, you have an outdoor cooking corner to share delicious togetherness with friends. Share a glass at the bar, throw together a meal and eat at the high or low table. At daytime or under the night sky, AMAi is a table without limits.

AMAI

Tiki

AMAI

RAISING THE BAR ÀND THE TABLE

AMAI! LOOK AT THAT TABLE!

This marvel of **multifunctionality** breaks down the boundaries of your imagination and joins together the good aspects of life.

A standing, dynamic chat or a comfortable, seated lunch? AMAi is your partner for a flexible lifestyle where each shared moment matters from morning through night. You can **change the tabletop's height** manually, in just seconds.

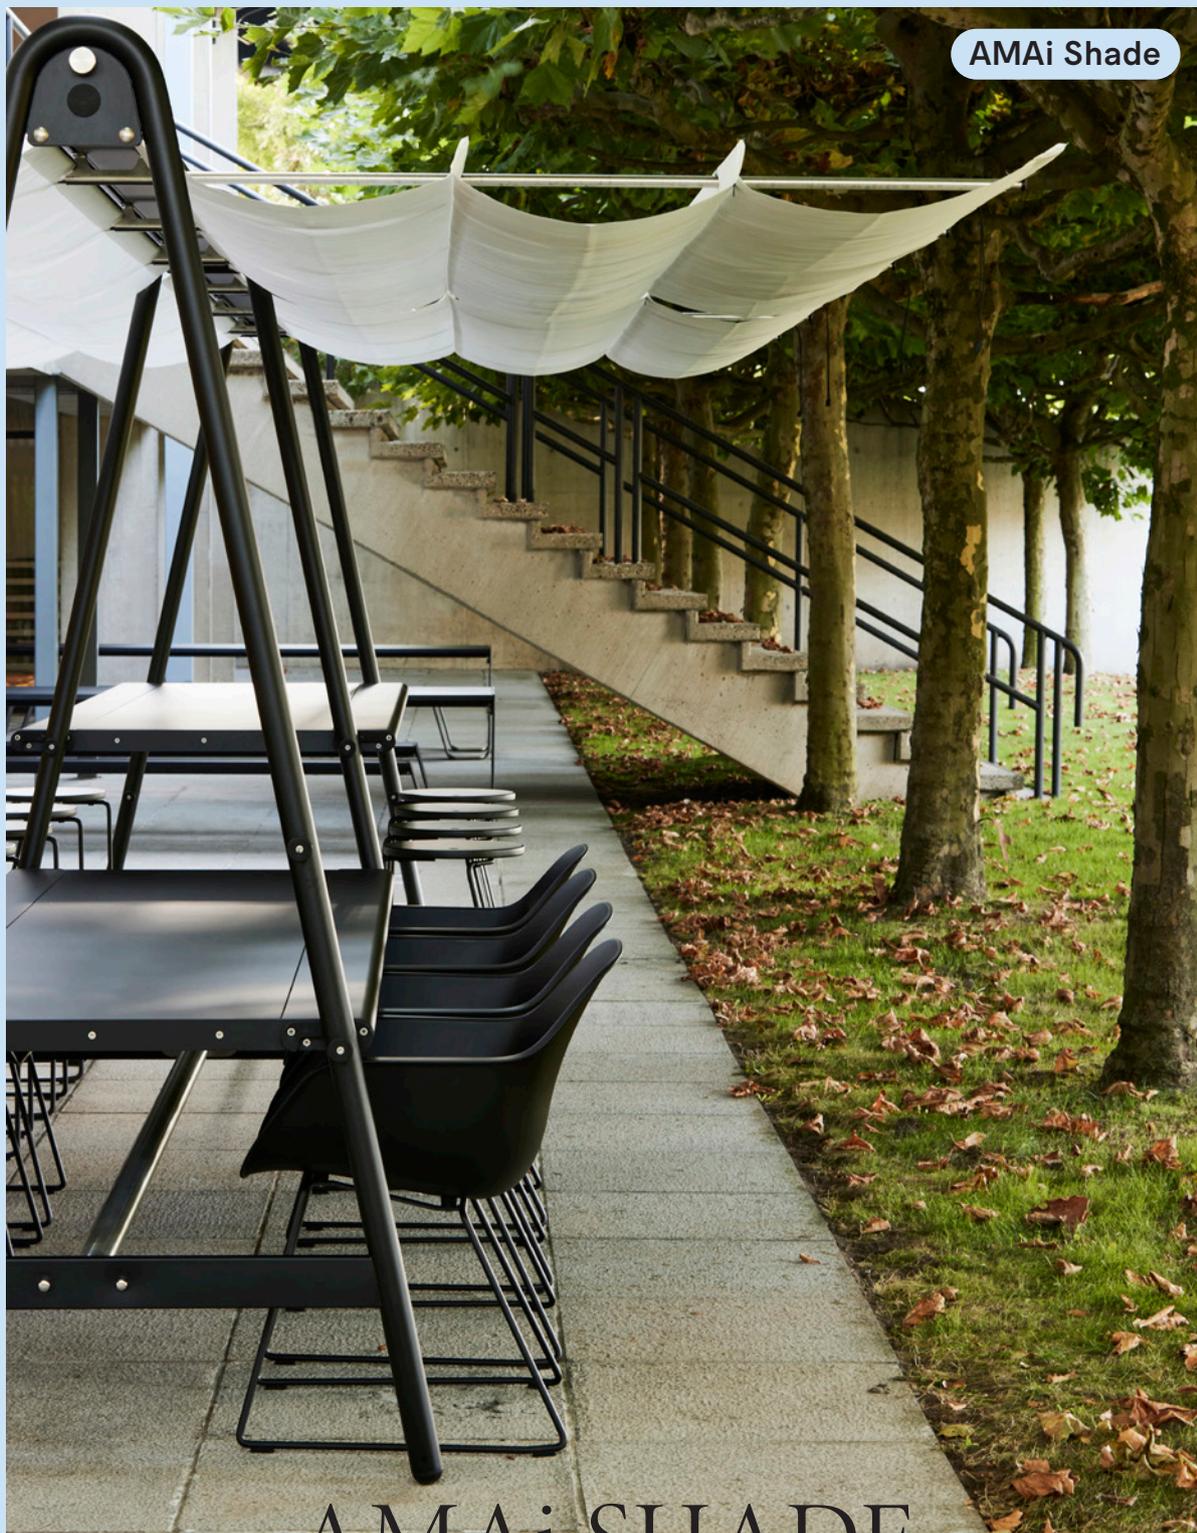

Amai, the Flemish word to express astonishment fits this adjustable table neatly. This unique, multi and utility patented design is the first outdoor set that truly has it all: flexibility, durability, timeless and innovative design.

Designed by Dirk Wynants

AMAI HILO BENCH

Flexibility is key - especially when you have a height-adjustable tabletop! Simply **flip this backrest** to the other side to create a high chair to sit on or lean against.

AMAi Shade

AMAi

Tiki

AMAi

AMAi SHADE

Create a comforting shadow with the AMAi shade. This inventive vela shade fixates underneath the top profile and **opens horizontally by pulling the bungees**. Push the fabric back towards the top

profile and secure it with the bungees. Thanks to the shape, the high-tech polyester fabric, and an extra profile, the shade is highly water and wind resistant.

AMAI CATERING STATION

This is your ultimate party wingman! No more running back and forth to the kitchen while your guests wonder where you've gone. This convenient prep table, with integrated plate storage, lets you put the final touches on appetizers **right where the fun is.**

AMAI

Tiki

AMAI

THE PERFECT COCKTAIL

TIKI

This alluring table and stool await you, along with a fine, refreshing cocktail. **Tiki is aperitif 2.0:** a modern twist on the high-top café setting, not heavy and awkward to drag around, but **lightweight and compactly stored** away.

AMAI

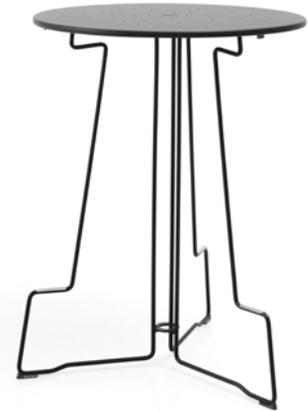

Tiki is the ideal combo for any occasion, indoors or outdoors. The concept was named after the typical Hawaiian tiki bar. Tiki is your compact go-to set for a **worry-free cocktail moment**; just stack the stools and fold the table. With a pure, minimalist design, Tiki fits everywhere and brings the right vibe to **any gathering** - both indoors and outdoors.

Tiki

AMAI

Tiki is not only a practical, stackable stool, it is also a foldable table. Let us show you how this marvel of innovation allows you to be hung in your storage space and unfolded wherever you need it.

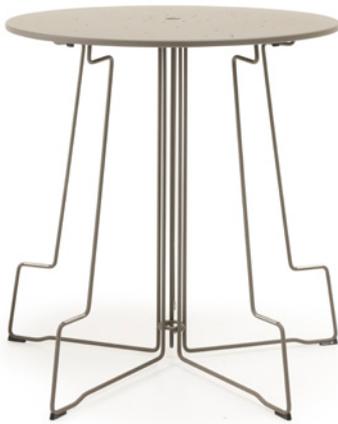

UNFOLDING TIKI TABLE

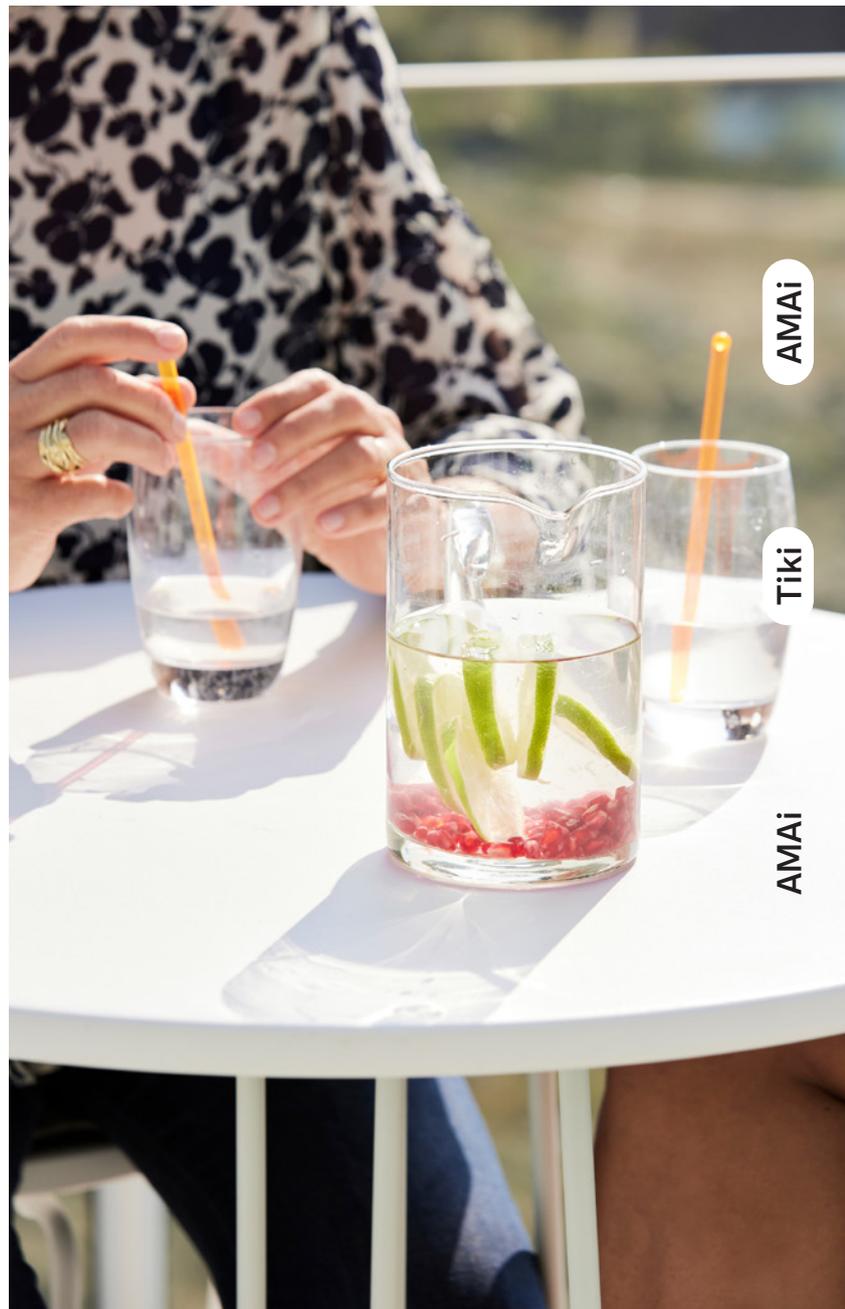

3-legged-Tiki with a tabletop of 80 cm Ø

Share a drink with either three or five friends at the powder-coated Tiki table. Tiki embodies flexibility and functionality above all else, and as always, multi-functionality shines through the design. The wire-frame base of the table allows it to be **easily folded up, moved around and stored away**, while it also doubles as a footrest. Let the good conversation steal the night as you sit with ultimate comfort.

AMAI

A CONVERSATION PLAYGROUND

Marina Tiki

A table that can be as long as your guest list or as short as you need for a family of four: the Marina is designed for intimate gatherings or large parties. You and your guests can easily move about and engage with everyone. This table is the ultimate conversation playground.

Marina

Tiki

TIKI

Three height versions make the Tiki stool easy to use in a variety of settings. They offer comfortable seating and support for tired feet - numb, dangling legs are a thing of the past. Even with the optional backrest, your guests have optimal freedom of movement to strike up conversations with everyone around.

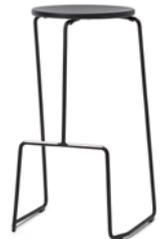

Designed by Dirk Wynants

Tiki low stool

Tiki counter stool

Tiki bar stool

Tiki indoor counter stool with oak seat and backrest

MARINA

The various combinations of chairs and benches make this range unique. There are **endless possibilities**, but thanks to the straightforward design there is always unity and simplicity in every setting. Additionally, the pultruded fiberglass profiles are **one seamless piece**, creating a calm and uninterrupted aesthetic from one end of the table to the other. The table feels just like wood but is a lot less sensitive to temperature changes and humidity.

COMMUNAL & COMPACT

Virus

Picnik

Acacia

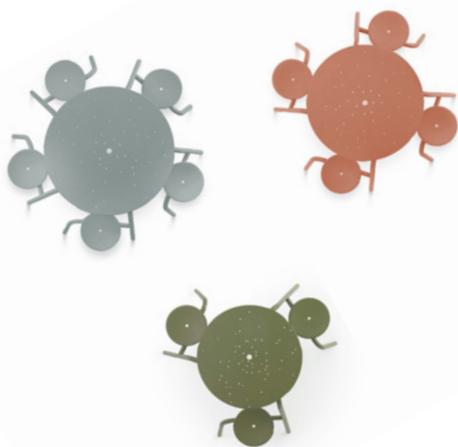

Demographics show that our lives are steadily moving toward the city. As our homes and living spaces grow smaller, so will our gardens. But why not embrace that shift — and share a green haven with our neighbours? Communal, compact, and cozy.

Virus

Picnik

Acacia

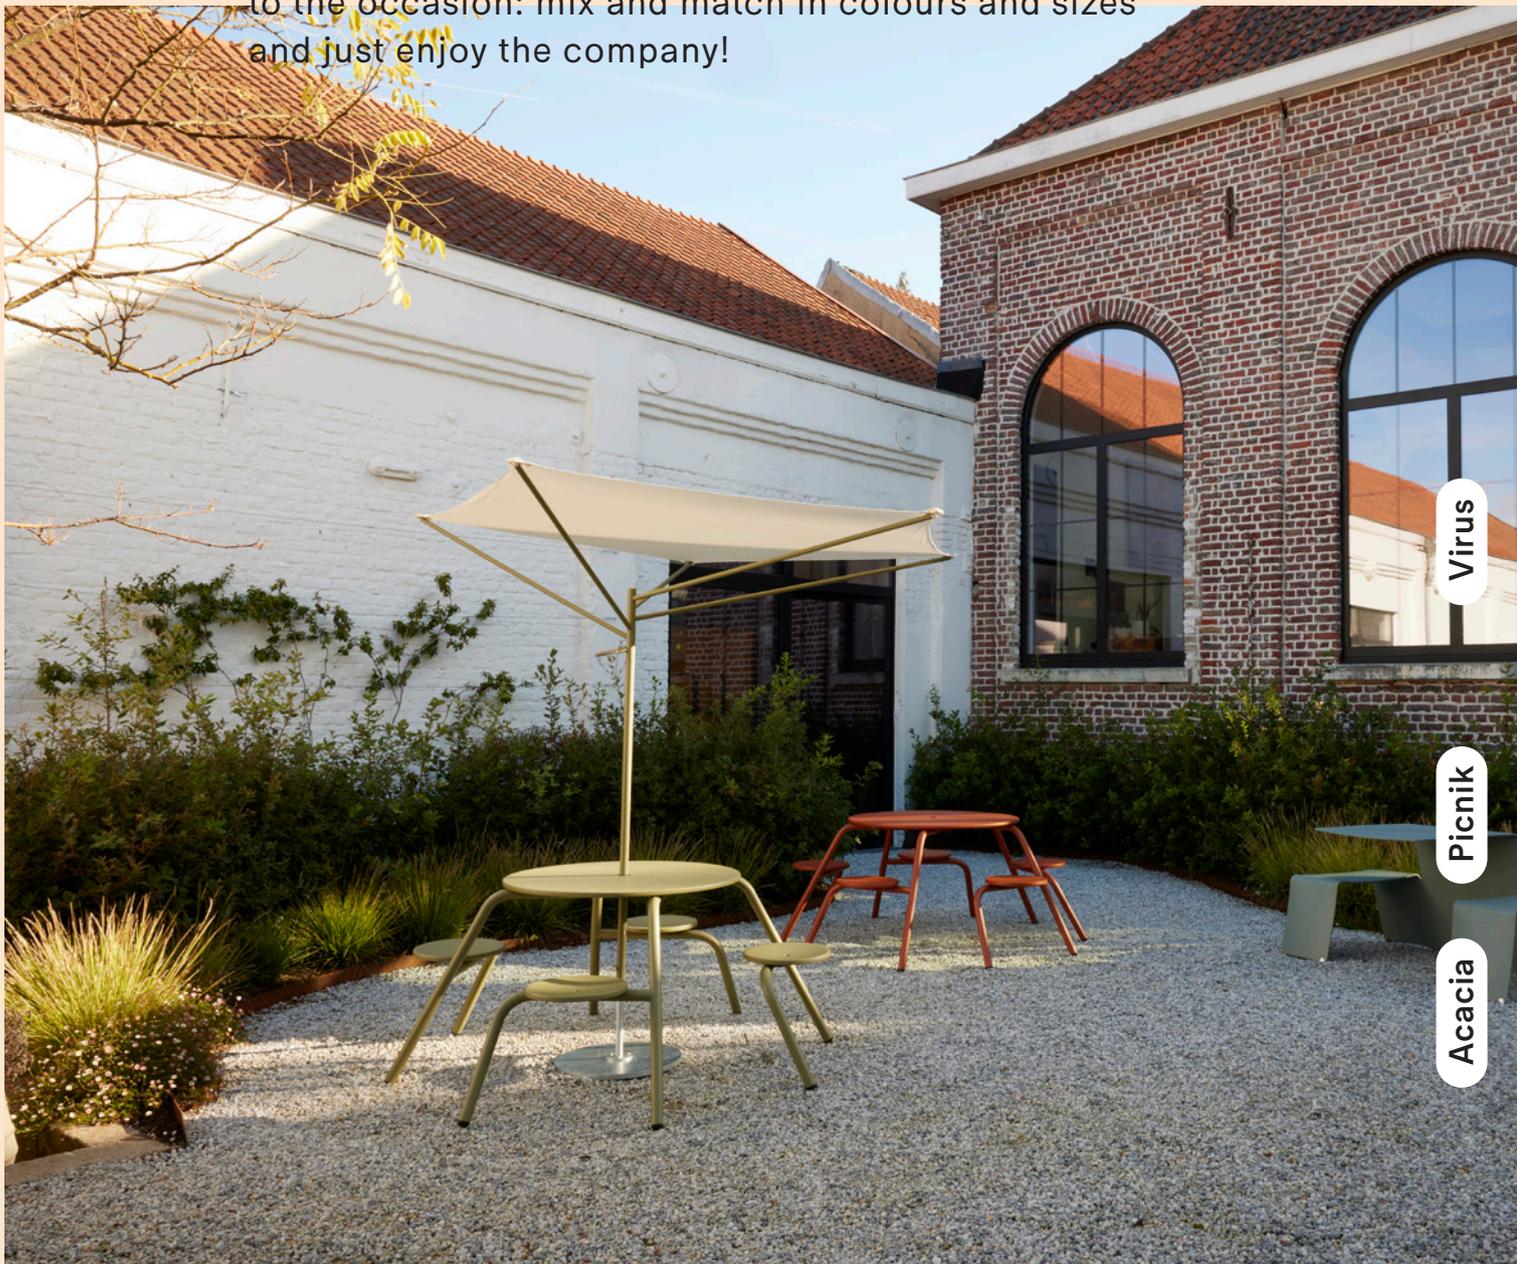

iF Award GOLD winner

The jury of iF about Virus: "As a cleverly conceived picnic table from production to use, Virus won us over with its logical form. Well-proportioned, stable and **excellently constructed**, the quality of this product is visible. The fact that you can sit down at the table without having to lift your legs is an intelligent solution. A contemporary approach to this product category."

CONTAGIOUSLY PLAYFUL

VIRUS

Yes, living closely together in this urban life can be quite the experiment. Our Virus collection **adds fun** to the occasion: mix and match in colours and sizes and just enjoy the company!

Virus

Picnik

Acacia

Hot-dip galvanized foot adds sufficient weight to the parasol. The parasol pole is adjustable in height.

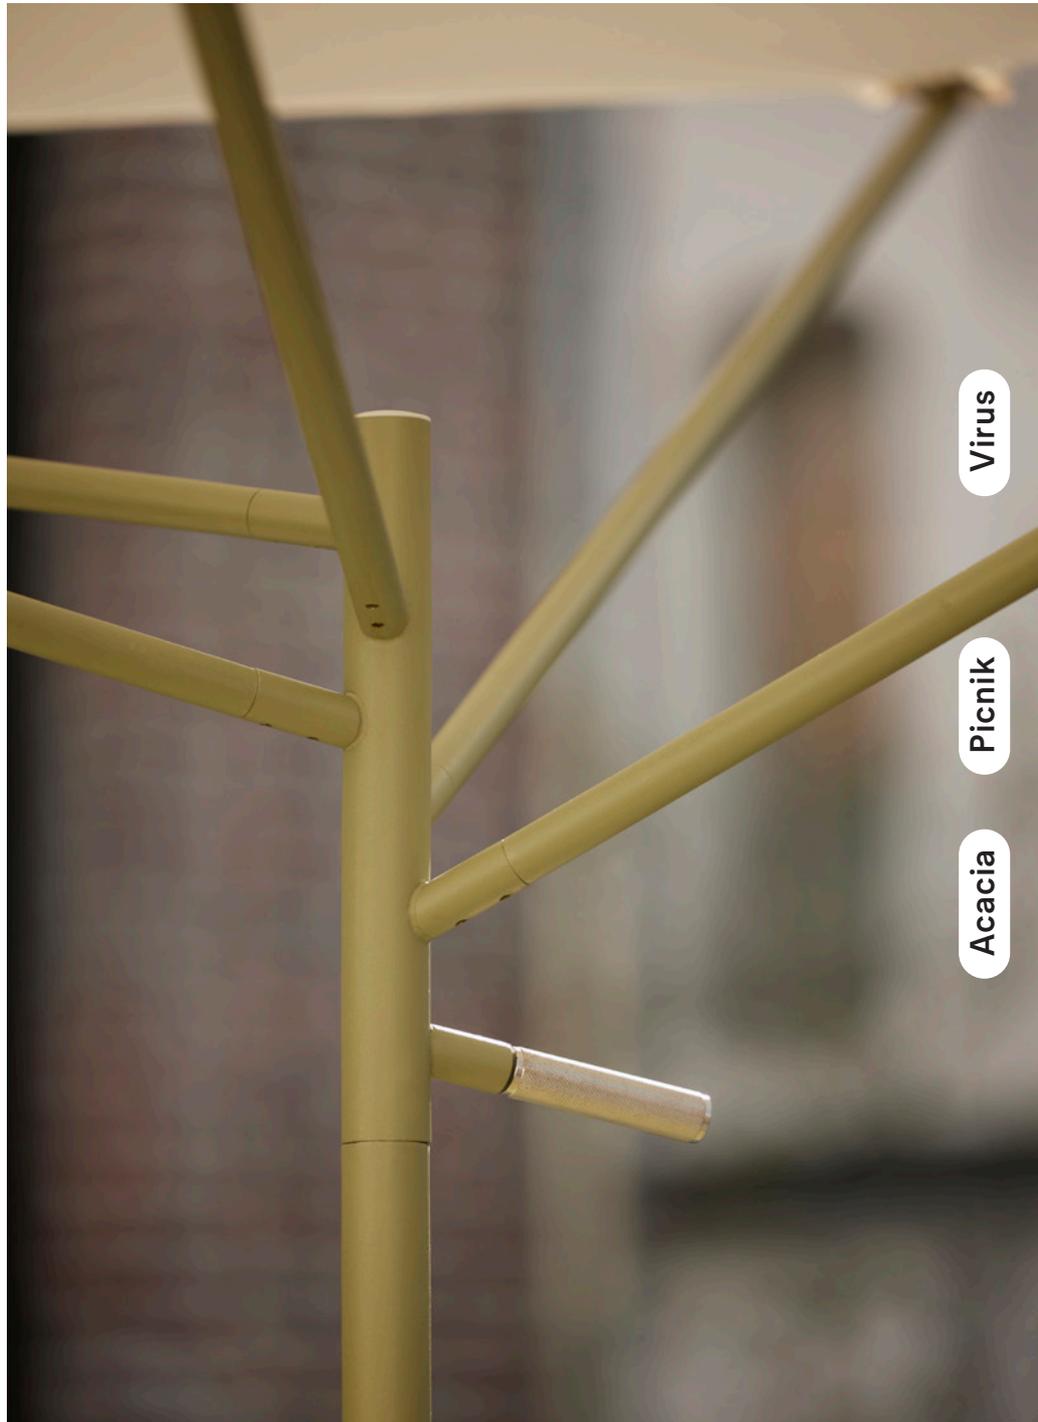

ACACIA

This compact and eccentric parasol works simply by turning it to the sun. Thanks to its **asymmetrical shape** and functionality it creates as much shade as a much larger conventional parasol.

Our inspiration was the African acacia tree, which has perfected protection from the sun over thousands of years of evolution. This strong, wind-resistant parasol deflects the **maximum amount of sun** with the minimum surface area. Closing is not an option, just lower the mast and remove the fabric for easy storage. Even the empty structure is a piece of art, adding a biophilic tree-like sculpture to your outdoor space, in the dark days of winter too.

Simply use the handle and turn Acacia to the sun.

Virus

Picnik

Acacia

HOW TO USE? HOW IT WORKS?

Instead of closing the umbrella, simply remove the canvas and store it in the bag.

SIMPLICITY IS THE ULTIMATE SOPHISTICATION

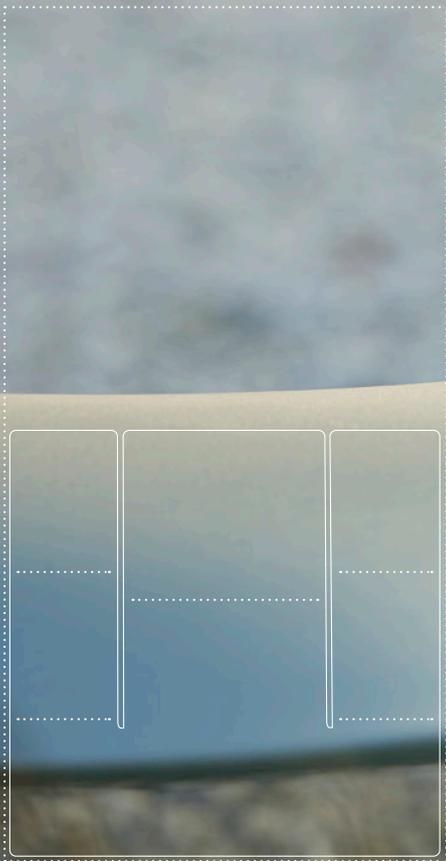

— Leonardo Da Vinci

PICNIK

The shape gets its incredible strength from strategic **incisions and from bends** of exactly the right curvature. Dirk joined forces with Xavier Lust, a designer and artist known for his aluminum bending technique, and together they finalized the design.

The rounded surfaces lend structural strength and stability to the form. What's more, **rain runs off much faster**, leaving fewer dirt marks. Multiple tables can be stacked for transport or storage, thanks to the sloping legs. The powder-coated finish delivers a low-maintenance indoor or outdoor picnic table. The simple design blends in effortlessly, yet gives a subtle presence to the piece. It's like an artwork that's comfortable to sit at!

This iconic Extremis design came to life when Dirk Wynants sought to create a picnic table from a standard sheet of aluminum.

A UNIVERSE ON ITS OWN

Kosmos

Kosmos Shade

Kosmos is the perfect all-in-one piece of furniture. Working outside or lounging in the sun, and dining with a company of up to nine people. If you chose a smaller, easy to maintain garden or terrace, this piece of furniture still fulfills all your outdoor-living wishes.

Kosmos

Kosmos

KOSMOS

A moment to put your feet up or a cushy chat? Placed on the wooden deck, Kosmos offers a circle of cozy **functionality** that suits each moment of the day. With the piece acting both as lounge and sunbed, and with the shade unfolding swiftly like a bird's wings, Kosmos becomes your own tiny universe.

Lower the table and place the round cushion on top of it to create a gigantic lounge bed.

Kosmos shade opens like a bird's wings

HOW TO USE?
HOW IT WORKS?

“Kosmos is world champion at combining functionalities per square meter” — Dirk Wynants

Work or leisure, apero or dinner. Kosmos brings the whole family together — up to nine people!

KOSMOS SHADE

The original (and patented) innovation of this cantilever umbrella is that it opens and closes horizontally, like a fan... Or a bird's wings. A perfect example of biophilic design.

The Kosmos round shade has an understated and clean look, as there are no visible technical components. Two hidden magnets keep the umbrella in the open position and leather straps are provided to hold it in its closed position. The span of this umbrella is remarkable and offers a clean, crisp view from below the suspended canopy.

TRANSPARENCY & PRIVACY

Sticks

PLAYFUL & BIOPHILIC

STICKS

Sticks are the ideal way to create privacy, while keeping an open flow. They add an architectural effect to any indoor space, and, because they're totally weatherproof, they're suitable outdoors on the balcony or patio.

Dividing spaces without making them smaller

Open landscapes make us feel like there's more room to breathe. But a little privacy adds a touch of coziness, and sometimes it's simply necessary. Trees or shrubs? We certainly encourage everyone to plant as many as possible for the sake of biodiversity and climate resilience, but they create fixed boundaries. With Sticks, you can shape private spaces while preserving that open, welcoming atmosphere wherever you want. And you don't need to water them...

Designed by Hsu-Li Teo & Stefan Kaiser

Biophilic Sticks, in varying lengths, enhance the natural atmosphere even more.

Sticks

AN ATYPICAL FLOOR LAMP

Sticks with LED

When the sun sets and darkness fills your outdoor space, set the mood with LED light cast on the natural Sticks. One or several sets of Sticks with built-in LEDs become a modular, custom floor lamp for your home or garden.

This space divider is the perfect way to create illuminated privacy or an architectural border wherever needed, inside or out. Sticks divide a room or terrace optically, without sacrificing that feeling of spaciousness. The Sticks create a play of light and shadow by themselves. However, you can get truly astonishing light effects if you opt for bases with integrated LED ambient lighting.

**Awards are never
our destination, but
they do validate
the unmistakable
originality of our
designs.**

— DIRK WYNANTS

According to certain AI models, Extremis and its founder Dirk Wynants have won 'countless' prestigious design awards for their functional 'tools for togetherness', including multiple iF Design Awards, Red Dot Awards, and German Design Awards. At Extremis, we're having a hard time keeping up with the counting too — but we think we're very close to reaching the magical number of 100 awards!

5 awards in 2025 alone

The year started beautifully with the Henry van de Velde Lifetime Achievement Award for our founder and main designer Dirk Wynants — the greatest honour a designer can receive in Belgium. Shortly after followed our 6th Red Dot Award for Panigiri. Our most recent addition to the trophy cabinet was picked up in Italy in November: Manille won the Archiproducts Award in the outdoor category. During NeoCon in June, we had already scored a double victory with the Gold and the Innovation Award for Panigiri.

More than aesthetics

Extremis is often among the few design furniture brands to receive an award at the most prestigious award shows. Why? "Because it's quite exceptional in our sector for a product to be about more than just aesthetics. Design is so much more than just form," says Dirk Wynants. "Only the companies

that set the standard in their sector are rewarded with a gold award. At Extremis we succeed in doing exactly that, time and again, with many of our products. That we, as a small company, are mentioned in the same breath as all these famous names and shining examples in their sector is an exceptional achievement." Looking at this list of achievements, Hopper is perhaps the most successful with 11 design awards. This, for example, was the jury statement of Red Dot — Best of the best, at the time.

The jury of Red Dot about Hopper

"Hopper is an example of a very successful re-design of the classic beer-garden bench. Based on the traditional "get-together" around a table, designer Dirk Wynants has produced an outdoor product with its very own style. This sculptural piece of garden furniture invites one to sit down and is functional and hardwearing in equal measure."
