As we continue to expand, our vision is to position Jardinico Parasols as the global leader in high-end shade products, setting the benchmark for luxury and functionality in outdoor living.

# OUR HISTORY

As a proud Belgian family-owned company, our roots run deep. For many years, we specialized in textile manufacturing before making a pivotal shift in 1999 to the production of garden cushions.

**1999**

Jardinico evolved in 2015 into two specialized branches, each led by a member of the founding family. Jardinico Cushions, overseen by Bram Vandeputte, continues to produce premium garden cushions with the same dedication to craftsmanship.

Meanwhile, Jardinico Parasols, under the leadership of Bruno Vandeputte, has grown into a premier brand for luxurious shadowmakers.

**2015**

**2000**

In 2000, we expanded into parasols, marking the beginning of our journey in high-end outdoor solutions.

Today, with more than 25 years of expertise in parasols, we offer a comprehensive collection of high-end shade solutions and outdoor designs. From sophisticated umbrellas to dining tables, sunloungers and bespoke accessories, our products seamlessly combine superior quality.

By keeping all cushion and canopy production family-owned at Jardinico Cushions, we ensure that our products stay true to our values and heritage.

## 2026

## 2018

3 years later, we expanded our expertise by introducing our first outdoor furniture collection, enabling us to offer a complete outdoor living experience. This addition allows customers to seamlessly combine parasols, furniture and accessories to create a harmonious and stylish outdoor space.

### LUNA LED LIGHT

UALUN-LED02

You create a warm glow by adding this outdoor umbrella light to the built-in holder on the frame. Luna LED light is wireless with 16 LEDs and gives a warm colour. Using the BT speaker, the module will play music for six to ten hours.

**Colour:** grey

**Light:** LED warm light

**Fits on:** Azore - Antego - Lima - Amalfi - Malibu

### GUTTERS

Gutters offer an uninterrupted protection between several umbrellas. By connecting the parasols, large areas have a complete coverage against the sun or rainy weather. A gutter is always attached to the parasol with a slight slope in order to drain the water efficiently in the desired directions.

Our gutters are available in the same colour as the cloth of the parasol to match perfectly. Only applicable on the following parasols: JCP.201, JCP.202 and JCP.501.
