Colette

Iconic light

DESIGN

Alberto Basaglia - Natalia Rota Nodari, 2013

EN — Colette is a table or bedside lighting in polycarbonate that stands out for its sculptural shapes and the colour. A translucent cylinder diffuses the light only in correspondence of the half-sphere. Its transparency gives lightness to the whole lighting.

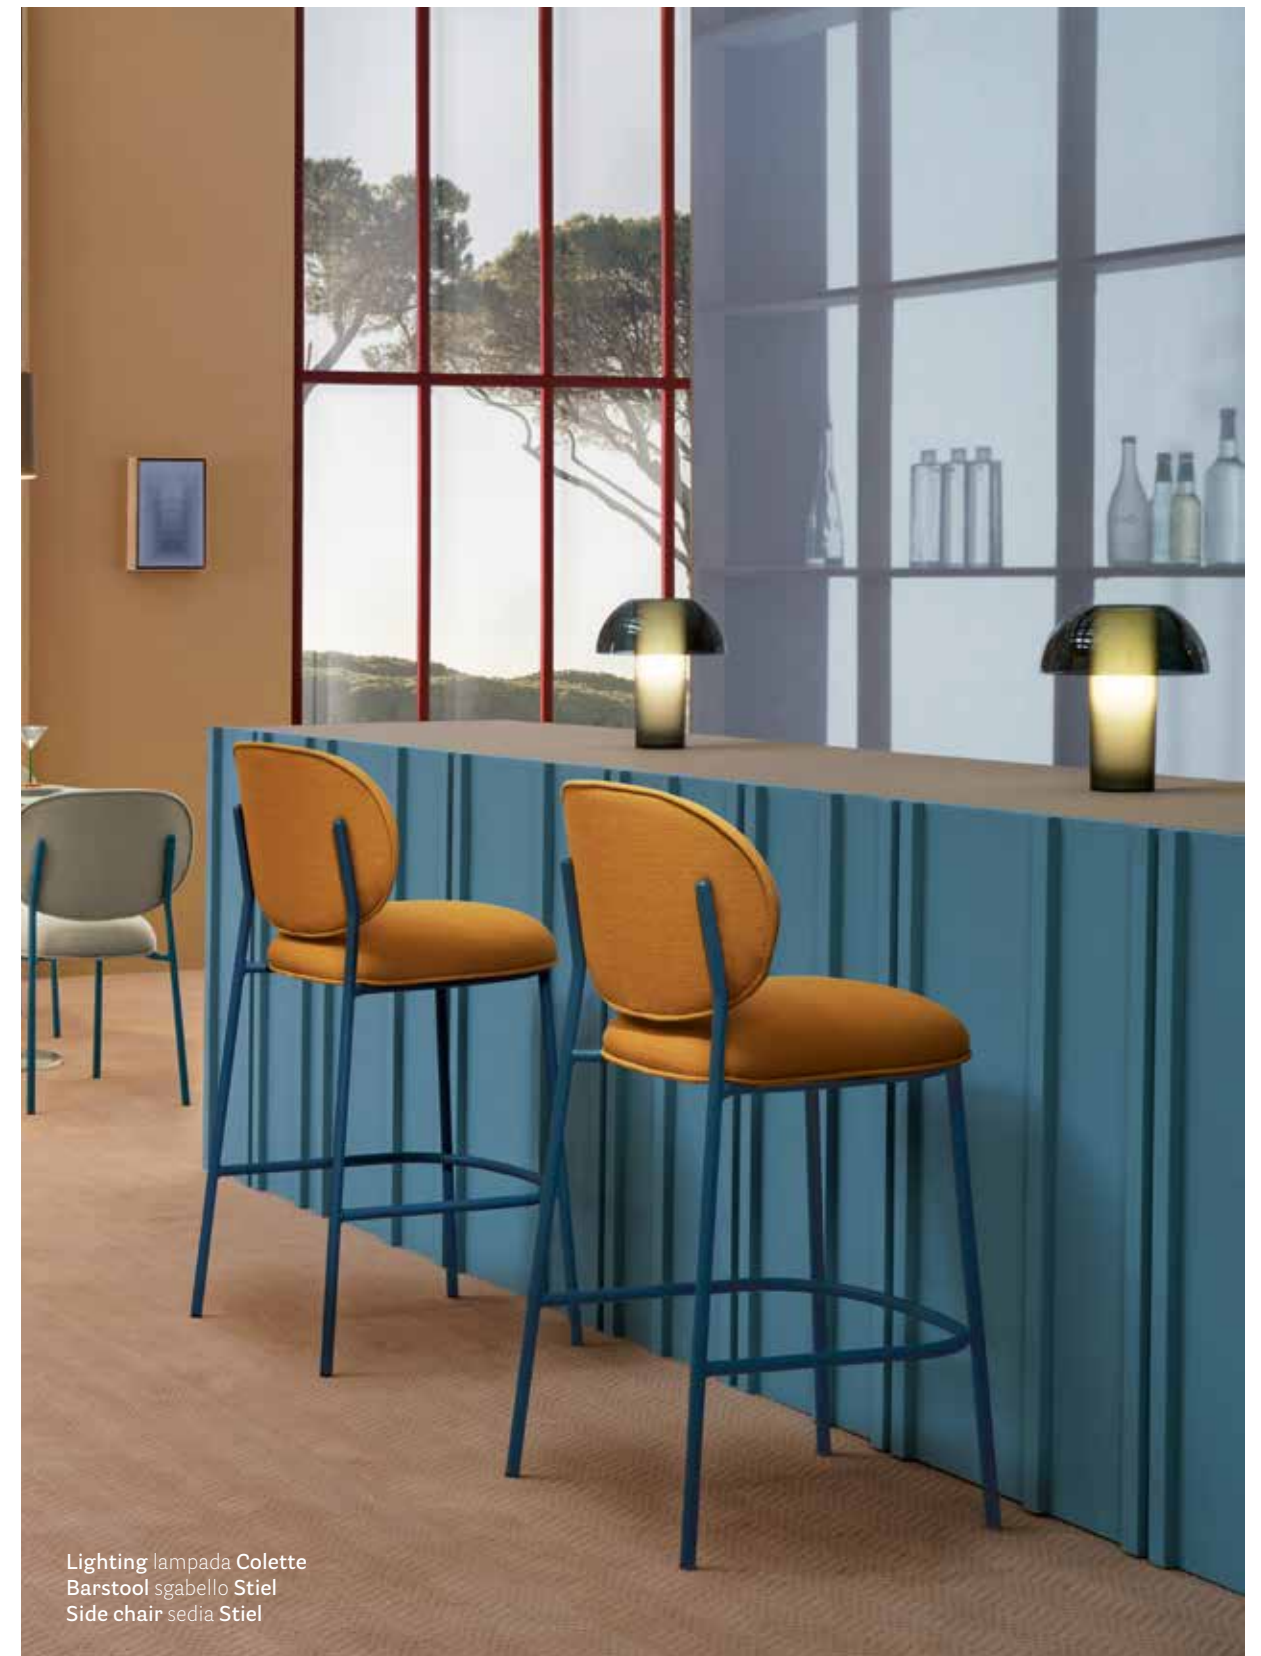

IT — Colette è una lampada da tavolo o da comodino in polycarbonato che si esprime attraverso la plasticità delle forme e il colore. Un cilindro traslucido tenta di imprigionare la luce che si libera pienamente solo in corrispondenza della semisfera che con la sua trasparenza dona leggerezza all'intera lampada.

TO.BE

Essential shape

DESIGN

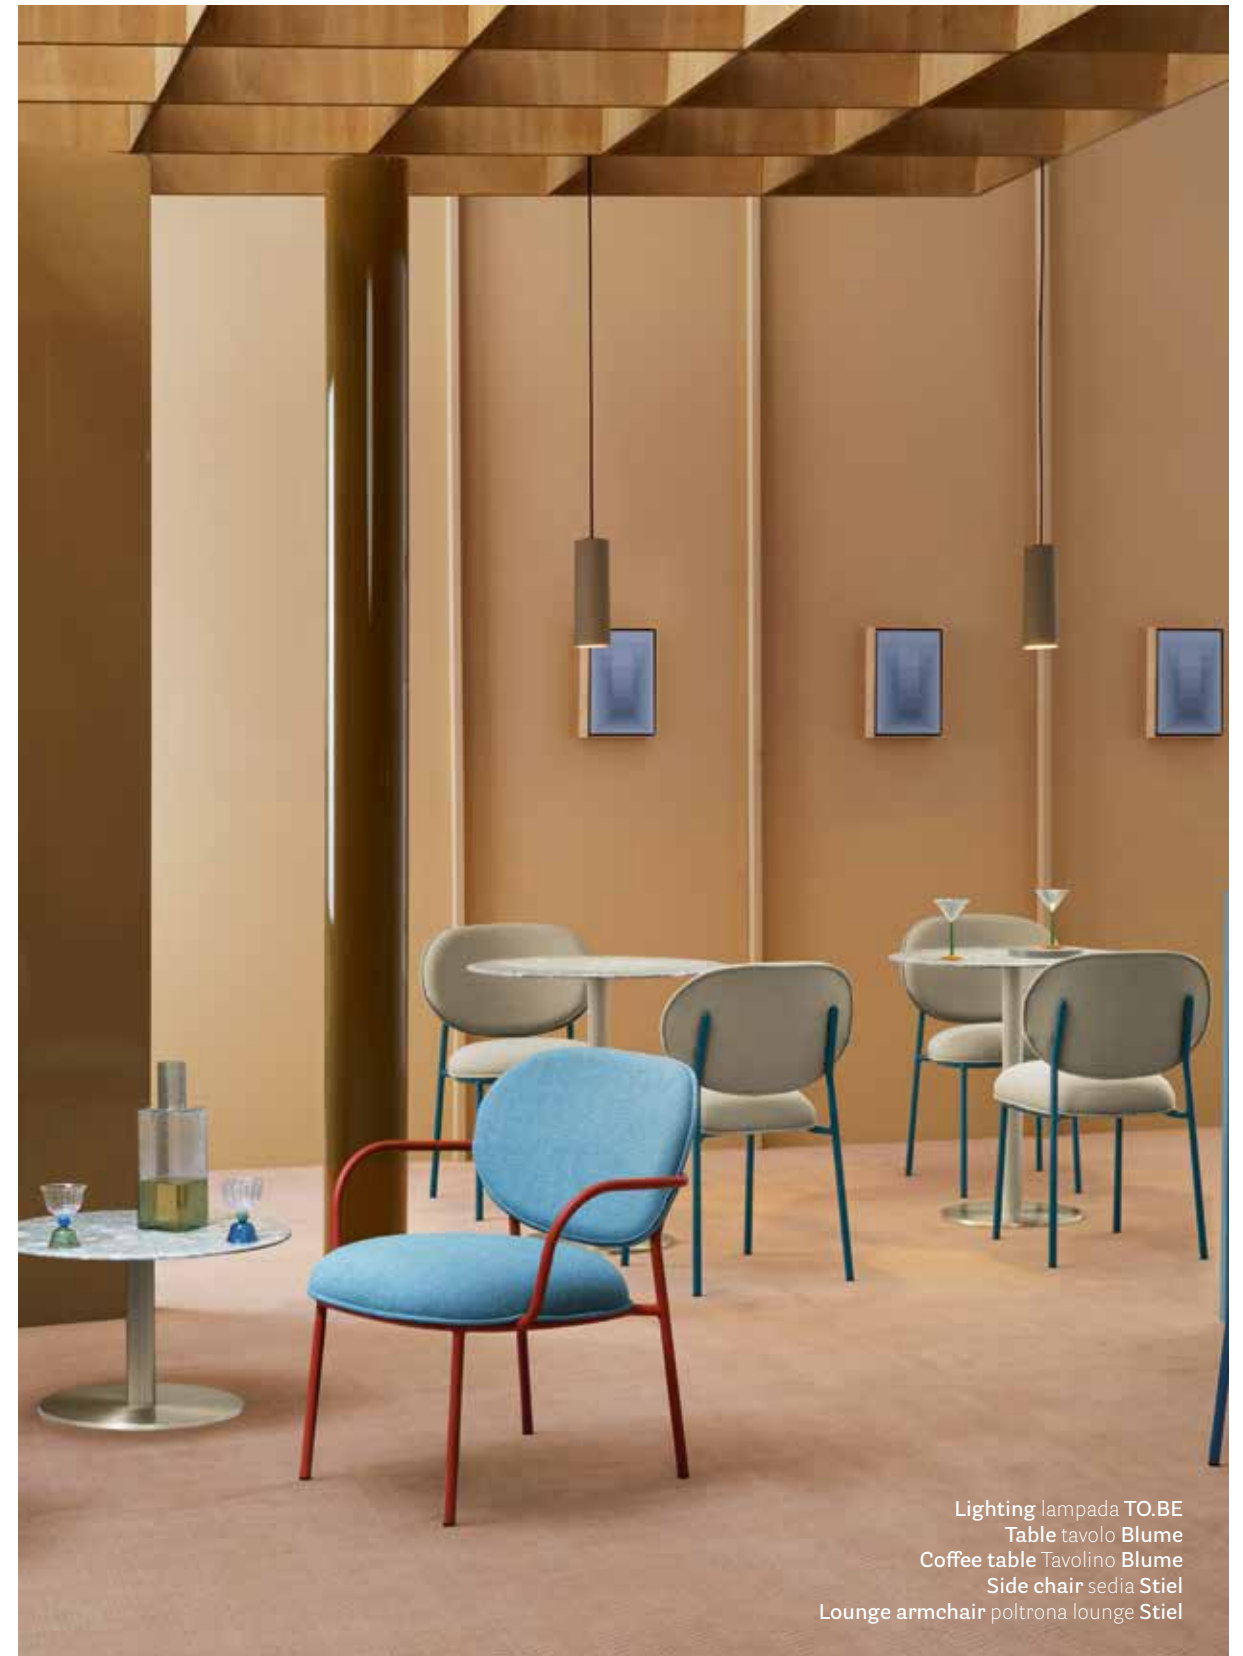

Alberto Basaglia - Natalia Rota Nodari, 2019

EN — TO.BE is a pendant lighting, ironically named to reflect its shape - a tube suspended in the air. An essential lighting, with a narrow cylinder in polycarbonate, white powder coated inside, available in a wide palette of colors outside, with a hole in the upper part of the diffuser that allows light to shine out and illuminate the ceiling.

IT — TO.BE è una lampada a sospensione che nel nome richiama con ironia la sua forma, un tubo, sospeso nel nulla. Una lampada essenziale, composta da uno stretto cilindro in polycarbonato verniciato bianco all'interno e in un'ampia palette di colori all'esterno, con un foro nella parte superiore del diffusore che permette la fuoriuscita della luce illuminando il soffitto.

Kawara

Modular lighting

DESIGN
Yusuke Kawai, 2025

EN — Kawara is a lighting collection that takes its name from the traditional Japanese tile that adorns the triangular roofs of sacred buildings in Japan. Available as pendant, horizontal, or vertical, as well as floor version, Kawara stands out for its versatility, offering the choice between a single continuous element or interconnected adjustable modules.

IT — Kawara è una collezione di lampade che deve il proprio nome alle tradizionali tegole nipponiche che in Giappone rivestono i tetti dalla silhouette triangolare degli edifici sacri. Disponibile in versione a sospensione, orizzontale o verticale, oltre che da terra, la versatilità di Kawara è accentuata dalla possibilità di scegliere tra un unico elemento continuo oppure moduli orientabili collegati tra loro.

DESIGN

Alberto Basaglia - Natalia Rota Nodari, 2011

EN — Distinguished by soft and sinuous shapes, the L002 collection is the result of combining two moulded polycarbonate shells. The inner shell diffuses the light and hides the bulb, while the outer diffuser comes in different colours.

IT — Caratterizzata da forme morbide e sinuose, la collezione L002 nasce dall'unione di due gusci in polycarbonato stampato. Il guscio interno diffonde la luce nascondendo la lampadina; quello esterno può essere in diversi colori.
