OUTDOOR LIVING

COLLECTION 2021

**LIFE**  
OUTDOOR LIVING

## INDEX

2021

It is with great pleasure that we, LIFE Outdoor Living, present our 2021 collection. A collection with a wide range of inspiring and stylish outdoor furniture, designed to be as desirable as it is functional.

Throughout the entire collection we have widened the range of possibilities. We are enthusiastic to present new sets, a large choice in table tops and the new Comforma cushion fabric. As we are well known for our All-weather cushions, the Comforma fabric cushions are a great addition. These cushions have a very soft touch and feel just like an interior fabric.

Life Outdoor Living supplies the best leisure furniture, manufactured from high-quality materials and assembled with the greatest care.

Wir, Life Outdoor Living, präsentieren Ihnen mit großer Freude unsere neue Kollektion 2021. Eine breite Kollektion an inspirierenden und stilvollen Outdoor Möbeln, die stylish und praktisch zugleich sind.

Wir haben die Möglichkeiten innerhalb der gesamten Kollektion erweitert. Deshalb freuen wir uns Ihnen neue Sets, viele Möglichkeiten für verschiedene Tischplatten und unser neues Comforma Outdoor Kissenstoff vorstellen zu dürfen. Neben unseren bereits erprobten All-Weather Kissen ist das neu Comforma Outdoor Material eine tolle Erweiterung. Dieses Material ist besonders weich und seine Beschaffenheit erinnert an Innenausstattung.

Bei Life Outdoor Living erhalten Sie die besten Freizeitmöbel: hergestellt aus qualitativ hochwertigen Materialien und montiert mit größter Sorgfalt.

LIFE Outdoor Living vous présente avec grand plaisir sa collection 2021. Une collection avec une large gamme de meubles d'extérieur inspirants et élégants, où les meubles sont aussi désirables que fonctionnels.

Dans toute cette collection nous avons élargi les possibilités. Nous sommes donc ravis de vous présenter de nouveaux ensembles, un large choix de plateaux de table et surtout notre nouveau tissu Comforma. Vu que vous nous connaissez déjà comme le spécialiste de coussins toutes saisons, le tissu Comforma y est un excellent ajout. Ces coussins ont un toucher très doux et donnent le sentiment d'un tissu d'intérieur.

Life Outdoor Living fournit les meilleurs meubles de jardin, fabriqués à partir de matériaux de haute qualité et assemblés avec le plus grand soin.

HORIZONTAL  
TILT

MOVABLE  
GRANITE BASE

## PALERMO PARASOL

The Palermo parasol can easily be tilted vertically and horizontally. The parasol can be rotated 360 degrees around the axis. The Spuncrylic canopies are made of core dyed polyester fiber. The fiber is water and dirt repellent. The fabric is: 250 gr/m2 and has a UPF 50+ UV protecton shielding you from almost 100% of UV radiation.

## PALERMO BASE

**GRANITE 90KG**  
This base is with 4 wheels  
and is made for the 200x300,  
250x250, 300x300 and the  
350x300 cm parasols.

**TILES GRANITE 2X30 KG**  
Additional on top of the  
90KG granite base. Required  
for the 350x300 cm parasol.

**CROSSBASE EX. TILES**  
For good stability you need 4  
tiles of 50x50 cm with a mini-  
mum weight of 25KG each.

**TEAK COVER**  
Additional teak cover wich  
can be placed on top of the  
90kg base.

## PALERMO ACCESSORIES

**LED LIGHT**  
Chargeable via included USB  
cable.

**LED LIGHT/SPEAKER**  
Chargeable via included USB  
cable.

**HEATER**  
The heater is 43 cm with a  
800W halogeen light and  
power cord of 180 cm.

**PROTECTION COVER**  
With zipper usable for the  
200x300, 250x250, 300x300  
cm, and the 350x300 cm  
parasol.

# CUSHIONS

## CUSHIONS

### ALL-WEATHER CUSHIONS

LIFE works with All-Weather Cushions. An All-Weather cushion (developed by LIFE) is a cushion that can be left outdoors throughout the entire season. These cushions are produced from high-quality synthetic products. When it rains the water goes through the cushion cover and into the inner cushion. By pressing down on the cushion or placing the cushions on their sides, the cushions will be dry in a relatively short period of time.

### SOLTEX CUSHIONS

Soltex cushions feels more natural and a little softer compared to the All -Weather cushions. The cushions are strong and easy to maintain. Cushions can be left outside the entire spring and summer season but are best to be stored inside the rest of the year.

### COMFORMA CUSHIONS

These cushions can remain outdoors for the summer season. The fabric feels like an interior fabric, but has the properties which allows it to remain outdoors in summer all-weather conditions. One of the best ways of ensuring that your Comforma cushions continue to look good is to store them inside with heavy weather conditions.

### SUNBRELLA CUSHIONS

These cushions can remain outdoor for the entire season. The fabric feels like an interior fabric, but has the properties which allows it to remain outdoors in All-Weather conditions. These cushions have a very soft touch and are comfortable to sit on. To make sure the Sunbrella cushions continue to look good is to clean them regularly.

## SEPARATE CUSHIONS

## TABLE TOPS

### TABLE TOPS

#### ROBUST TEAK

The teak products are made from 100% Indonesian Legal wood (SVLK) or are FSC® certified. Look for our FSC® certified products indicated by the promotional logo indicating responsible forestry. With SVLK Certified wood, the full process in manufacturing is registered and monitored, guaranteeing the sustainability of the wood itself and the plantation.

ROBUST TEAK

#### GREY TEAK

Thanks to a well-developed process we offer you the grey teak already 100% grey, out of the box. This colour comes closest to the grey colour it would reach when exposed to the sun. No colour treatment required afterwards. This colour teak wood is just like the robust teak, SVLK or FSC® certified depending on the products indicated by the promotional logo.

GREY TEAK

#### CERAMIC

The unique ceramic table tops have a remarkable concrete imitation print on it. Known from flooring, ceramic is at the moment the strongest material used for table tops. It has an extremely high scratch threshold and easy in maintenance.

CONCRETE LOOK

#### SPRAYSTONE

The popular spraystone is low maintenance. The sides of these tops have the same finish confirming its luxury appearance. Use our special spraystone maintenance products for long lasting durability.

BLACK

PROTECTION COVERS

Temperature changes make condensation inevitable. Our furniture covers, made from 100% ripstop polyester, features a breathable membrane which transports condensation outwards while simultaneously prevent dust and dirt from getting in.

The other advantages of ripstop polyester are the favourable strength-to-weight ratio combined with the special weaving process which prevents tears.

For convenience and security we have added a number of buckles to each protection cover. This makes it easier to secure the protection cover to your furniture and guarantees optimal protection from the elements. Combined with the warranty we offer on our protection covers you can be sure that your outdoor furniture is optimally protected.

To distinguish right from left: When seated and the armrest is on your left side, the side is called left.

## MATERIALS AND MAINTENANCE

## RECOMMENDED MAINTENANCE PRODUCTS

LIFE sells a wide range of products consisting of multiple materials. In this overview we describe how to maintain your garden furniture product for an optimal lifespan. For the use of our LIFE Outdoor Living treatment products we recommend to read the instructions on the back of the product carefully before applying.

Although the LIFE garden furniture is designed and manufactured for outdoor use it is important to maintain and clean the furniture regularly and protect it as much as possible against the weather influences. As these factors will effect the life span of the furniture. Just compare it to a car, you can leave it outside, but you have to clean it once in a while to keep it in good shape and if possible store it in a garage.

### TEAK WOOD

“Protect your garden furniture against the weather elements ”

The teak products are made from 100% Indonesian Legal wood (SVLK) or are FSC® certified. Look for our FSC® certified products indicated by the promotional logo indicating responsible forestry. With SVLK Certified wood, the full process of manufacturing is registered and monitored, guaranteeing the sustainability of the wood itself and the plantation. Scratches, dents, cracks, knots, is inherent to the natural product. Normal use of the product will result in small cracks (hairline cracks) appearing in the wood: this all does not detract from the quality or the life span of the table. This is part of the characteristic.

#### TEAK WOOD - ROBUST

Before using any maintenance product on teak you need to make sure the surface is clean and dry. You can use our special LIFE Outdoor Living teak cleaner. Do not use any aggressive detergents or high pressure cleaner. To clean more easily you can use the aluminium sponge. It is important, when using this sponge, to move directionally along the grain. To protect your teak wood product against stains and marks, we recommend to maintain the product at least three times a year.

Weather influences will make the robust teak wood slowly turn grey. If you want to prevent this, you may use the “Life Outdoor Living Teak Protector”. By using this product you will get a warm brown colour. Always test on a small surface before applying it to the entire product.

To protect against the weather conditions and dirt even more you can use the “LIFE Outdoor Living - Teak shield”. This product should be used after cleaning or using the teak protector.

Note: As teak wood is an naturel product it has to 'breathe'. Do not cover teak with a protection cover to prevent moulding.

ALUMINIUM SPONGE

MATERIALS AND  
MAINTENANCE  
OVERVIEW

TEAK WOOD – GREY

The grey teak garden furniture products have a grey wash layer over the naturel teak wood. Over its lifespan the teak will lose its colour gradually, returning to the original colour of the wood. When you would like to keep the grey colour as long as possible you may use the “LIFE Outdoor Living - Teak Colour Grey.

Like our robust teak wood, before using any product for maintenance you need to make sure the surface is clean and dry. You can use our special “LIFE Outdoor Living - Teak cleaner. Do not use any aggressive detergents or high pressure cleaner. To clean more easily you may use the aluminium sponge. It is important, when using this sponge, to move in the direction along the grain. At least three treatments a year will maintain your product optimally.

If the product is going to show its original wood colour and you would like to re-apply the factories grey wash layer you can use the special “LIFE Outdoor Living - Teak Colour Grey”.

To protect against the weather conditions even more you can use the “LIFE Outdoor Living – Teak shield”. This product should be used after cleaning or using the teak colour grey.

Note: As teak wood is an naturel product it has to ‘breath’. Do not cover teak with a protection cover to prevent moulding.

POLYWOOD

“The look of real wood, but low maintenance”

Our polywood products are difficult to distinguish from our real wood products. It is an artificial product and you will benefit from its very low maintenance. It is lightweight and splintering will not accur. Be aware for glass work standing on polywood for a longer period as it can work as a magnifying glass to the sun leaving marks.

You can maintain the polywood using the “LIFE Outdoor Living - Polywood cleaner” and using the protector you create a protective layer against stains and marks.

POLYWOOD CLEANER

POLYWOOD PROTECTOR

WICKER

“Clean the wicker regularly for a good looking furniture set all year round”

All our wicker furniture is hand weaved around an aluminium frame. By the use of naturel coloured weaving and 100% weaved by hand, nuances in colour, thickness and weaving pattern can occur. This only strengthens the “naturel” look of the garden furniture. The weaving is UV proof and colour fast.

For cleaning the product you can use the “LIFE Outdoor Living - Textilene and wicker cleaner”.

TEXTILENE AND WICKER CLEANER

ALUMINIUM

“A light weather proof material which does not rust”

LIFE Outdoor Living has a wide range of aluminium furniture. Our aluminium furniture has the advantage of being light and strong. The high quality powder coating ensures that our aluminium products can endure any type of climate, as it is UV proof and colour fast. If damage on the paint has occurred during use it is easily to retouch. For cleaning and extra protection, you can use the “LIFE Outdoor Living - Aluminium cleaner and protector”.

ALUMINIUM CLEANER AND PROTECTOR

CERAMIC

“A very strong, scratch proof material which is very easy to maintain”

Our unique ceramic table tops have a remarkable strength. Ceramic tops have 2-3 layers of ceramic material on top of a shatterproof glass plate (about 8mm thick). Ceramic is one of the hardest materials used in garden furniture. It has an extremely high scratch threshold, it is UV proof, colour fast and it is easy to maintain. For cleaning and protection you can use the “LIFE Outdoor Living – Ceramic cleaner and protector”.

CERAMIC CLEANER AND PROTECTOR

## SPRAYSTONE

### “Protect your spraystone against stains”

Our popular low maintenance spraystone is about 8 mm thick and has a beautiful finish. The sides of these tops also have the same finish confirming its luxury appearance. Spraystone is a mix of grinded natural stone and resin. When you leave flower pots or other glass objects too long on the table, it may cause stains. For cleaning you can use our “LIFE Outdoor Living - Spraystone Cleaner”. It is highly recommended to give the spraystone regularly an extra layer of protection using “LIFE Outdoor Living - Spraystone protector” to prevent stains.

SPRAYSTONE PROTECTOR

SPRAYSTONE CLEANER

## PARASOLS

### “Hold on to the colours of the canopy longer and enjoy your parasol”

Our parasols have the following characteristics:

- Spuncrylic
- Canopy thickness: 250gr/m2, very high quality
- Can withstand a wind force of maximum 5 (be careful for wind hoses going over this maximum)
- UPF 50+: meaning almost 100% of UV radiation will be stopped

Our parasols are made of spuncrylic fabric. The canopies of the parasol are protected with a coating but naturally discolour over time. To make sure you create the highest durability for the colour you should wash them regularly a year. They are easily removable of the frame. Wash them regularly during the year by hand on 30 degrees and with water and green soap you can remove stains. When done washing, you can

use the Fabric protector to give the canopy an extra layer of protection. This helps water and dirt to slide off more easily. When done with the treatment, preferably you put back the canopy in the parasol frame when it is still wet.

FABRIC PROTECTOR

## CUSHIONS

Life furniture comes with very thick and comfortable cushions. A cushion (developed by LIFE) is a cushion that can be left outdoors throughout the entire season. These cushions are produced from high-quality synthetic products: when it rains the water goes through the cushion cover and into the inner cushion. By pressing down on the cushion or placing the cushions on their sides, the cushions will be dry in a relatively short period of time.

### ALL-WEATHER CUSHIONS

Protect your All-Weather cushions using the “LIFE Outdoor Living - Textilene and wicker cleaner”.

The cover of the all-weather cushions is made out of textilene and the fibre anti-bacterial material provides long colour fastness. Water can be wiped off easily and wringes through the cushion. This cushion can be left outside the entire season and do not need any protective layer. Although it will not need an extra protective layer, you do need to clean the cushion regularly to keep its All-Weather abilities and prevent moulds.

detergent. You can clean the cushion cover with “LIFE Outdoor Living Textilene and Wicker Cleaner”. This is a non-foaming cleaner for open-woven fabrics and wicker. The outer cover can also be cleaned at 30 degrees in the washing machine, with a small amount of laundry detergent. We advise to wash 1 cover at a time.

TEXTILENE AND WICKER CLEANER

Cleaning All-Weather cushions

To clean the inner cushions, you remove the cushion cover and clean the inner cushion using a mild

### SOLTEX CUSHIONS

Sit comfortably on our Soltex cushions. Our latest development is the Soltex outdoor cushion. This cushion combines a polyester fibre with a special softer outdoor thread. Bringing both worlds, interior and exterior, together, these cushions are even softer to sit on than the all-weather variant. In contrary to the All-weather cushions you do need some extra maintenance for these cushions by using an extra protective layer using the “LIFE Outdoor Living - Soltex protector”. Although it can withstand rain, we recommend to store these

cushions inside with rainier periods. Cleaning is just as easy using the “LIFE Outdoor Living - Soltex cleaner”.

SOLTEX CLEANER

SOLTEX PROTECTOR

### COMFORMA CUSHIONS

These cushions can remain outdoors for the summer season. The fabric feels like an interior fabric, but has the properties which allows it to remain outdoors in summer all-weather conditions. One of the best ways of ensuring that your Comforma cushions continue to look good is to store them inside with heavy weather conditions.

### SUNBRELLA CUSHIONS

These cushions can remain outdoor for the entire season. The fabric feels like an interior fabric, but has the properties which allows it to remain outdoors in All-Weather conditions. These cushions have a very soft touch and are comfortable to sit on. To make sure the Sunbrella cushions continue to look good is to clean them regularly.
