Siesta, established in 1987, offers to an international public satisfying the most varied needs, through products conceived in the name of functionality and design.

The continuous attention to the needs and tendencies of the market has led to a constant and balanced development throughout time, determining a first hand position for both productive capacity and also from a commercial point of view. This has been possible thanks to constant research on productive and technological aspects and also on the esthetics and on product promotion.

The freshness of the design of Siesta tables and chairs together with the competitive price satisfies different levels of needs. These characteristics give Siesta access to different market sectors, for example contract and domestic.

The collection includes chairs, bar stools and tables, all designed to be multifunctional and multi-purpose, user friendly and with an indisputable style. With their colour, sense of irony, play on senses and unique forms, Siesta products are immediately recognizable throughout the world, offering long-lasting, practical enjoyment. Today Siesta exports 75% of its production to 80 countries around the globe through its comprehensive network of agents and dealers.

Siesta offers an extremely wide range of indoor and outdoor products, with innumerable colour variations, with plastic materials like polypropylene and fiberglass matched to wood or metal or latest trend like transparent polycarbonate or glossy PA6 nylon, with strong technical characteristics, that give the product inimitable qualities such as softness, opaqueness, flexibility and resistance to atmospheric agents.

A concentrate of quality that makes the Siesta product so unique and special.

Maya

The latest generation air moulding process, as used for Maya, allows perfect control for the channel draining and the wall thickness. In designing Maya, the designers developed a formally characterized shape yet suitable for different ambiances - contemporary, classic, informal or elegant - where it easily settles in, thanks to a colour range including brights as well as neutral tones. For indoor and outdoor use.

103 SKY LOUNGE
Sky lounge chair is produced with recyclable polypropylene seat and legs reinforced with glass fiber. For indoor and outdoor use. Can be disassembled.

White  |  Dark Grey  |  Black  |  Taupe  |  Red  |  Yellow

127 MONNA
Monna chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

White  |  Dark Grey  |  Black  |  Taupe  |  Red  |  Olive Green

126 LISA
Lisa armchair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

White  |  Dark Grey  |  Black  |  Taupe  |  Red  |  Olive Green
129 LUCY
Lucy chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

White  Dark Grey  Black  Taupe  Olive Green

128 LOFT
Loft armchair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

White  Dark Grey  Black  Taupe  Olive Green

085 MILA
Mila armchair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

White  Dark Grey  Black  Taupe  Red  Yellow

086 PIA
Pia chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

White  Dark Grey  Black  Taupe  Red  Yellow
Sunset chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

Plus armchair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

Snow chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

Stacking chair with the latest generation of air moulding thermoplastic injection. Seat in polypropylene reinforced with glass fiber, backrest in transparent polycarbonate. For indoor and outdoor use.
091 FLASH
Stacking chair with the latest generation of air moulding thermoplastic injection. Seat in polypropylene reinforced with glass fiber, backrest in transparent polycarbonate. For indoor and outdoor use.

048 BLOOM
Bloom chair is produced with a single injection of polypropylene reinforced with glass fiber, obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

007 AIR XL
Air XL armchair is produced with a single injection of polypropylene reinforced with glass fiber, obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

014 AIR
Air chair is produced with a single injection of polypropylene reinforced with glass fiber, obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.
039 MIRANDA
Miranda chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

054 SOHO
Soho chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

050 JOSEPHINE
Josephine wedding chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

044 NAPOLEON
Napoleon wedding chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.
061 OPERA
Stacking wedding chair for indoor and outdoor use in clear or shiny polycarbonate. Scratch resistant, UV - resistant.

071 CHIAVARI
Stacking wedding chair for indoor and outdoor use in clear or shiny polycarbonate. Scratch resistant, UV - resistant.

052 CRYSTAL
Stacking armchair for indoor and outdoor use in clear polycarbonate moulded with gas technology of the second generation. Scratch resistant, UV - resistant.

032 DEJAVU
Stacking armchair for indoor and outdoor use in shiny technopolymer PA6 nylon or clear polycarbonate moulded with gas technology of the second generation. Scratch resistant, self - extinguish classification V2. UV - resistant.
034 ELIZABETH
Stacking chair for indoor and outdoor use in shiny technopolymer PA6 nylon or clear polycarbonate. Scratch resistant, self-extinguish classification V2, UV-resistant.
*On request with cushion.

051 BABY ELIZABETH
Stacking children chair Baby Elizabeth for indoor and outdoor use in clear polycarbonate. Scratch resistant, UV-resistant.

053 ARTHUR
Stacking armchair for indoor and outdoor use in shiny technopolymer PA6 nylon or clear polycarbonate. Scratch resistant, self-extinguish classification V2, UV-resistant.

005 BO
Stacking chair for indoor and outdoor use in clear or shiny polycarbonate. Scratch resistant, UV-resistant.
021 BEE
Stacking chair for indoor and outdoor use in clear or shiny polycarbonate. Scratch resistant, UV - resistant.

055 Miss BIBI
Stacking chair with the latest generation of air moulding thermoplastic injection. Seat in polypropylene reinforced with glass fiber, backrest in transparent polycarbonate. For indoor and outdoor use.

056 Mr BOBO
Stacking chair with the latest generation of air moulding thermoplastic injection. Seat in polypropylene reinforced with glass fiber, backrest in transparent polycarbonate. For indoor and outdoor use.

059 CARMEN
Stacking armchair with the latest generation of air moulding thermoplastic injection. Seat in polypropylene reinforced with glass fiber, backrest in transparent polycarbonate. For indoor and outdoor use.
057 ALLEGRA
Recyclable polycarbonate main body. Legs frame in tubular chrome steel. Stackable. For indoor use.

096 ALLEGRA-PP
Recyclable polycarbonate main body. Legs frame in polypropylene. For indoor and outdoor use. Can be disassembled.

094 MIO-PP
MIO-PP chair is produced with recyclable polypropylene seat and legs reinforced with glass fiber. For indoor and outdoor use. Can be disassembled.

046 MIO
Stacking chair with recyclable polypropylene seat and backrest and painted steel legs. For indoor use.
025 MAYA
Stacking chair with the latest generation of air moulding thermoplastic injection.
For indoor and outdoor use.

028 DIVA
Diva armchair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

058 BOX
Recyclable polypropylene stacking armchair, strong and stable. Suitable for outdoor contract use.

063 BOX SOFA
Recyclable polypropylene stackable sofa, very sturdy and stable. Suitable for outdoor contract use.
009 ARES
Ares chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

011 ARTEMIS
Artemis armchair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. For indoor and outdoor use.

004 ARTEMIS XL
Artemis XL Lounge armchair is stackable and produced with a single injection of polypropylene reinforced with glass fiber, for indoor and outdoor use with or without cushion and non-slip feet. The Artemis collection also includes a coffee table, in various sizes, designed to match the styling silhouette of the chair to perfection.

018 TIFFANY
Tiffany chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. Stackable. For indoor and outdoor use.
019 TIFFANY-S
Tiffany-S chair is produced with a single injection of polypropylene reinforced with glass fiber obtained by means of the latest generation of air moulding technology with neutral tones. Stackable. For indoor and outdoor use.

026 LUCCA
Stacking chair with the latest generation of air moulding thermoplastic injection. For indoor and outdoor use.

029 LUCCA-T
Stacking chair with the latest generation of air moulding thermoplastic injection. Back in transparent polycarbonate. For indoor and outdoor use.

047 DOLCE
Stacking armchair with recyclable polypropylene seat and backrest and anodized aluminium legs. Diameter 25 mm. For indoor and outdoor use.
049 VITA
Stacking chair with recyclable polypropylene seat and backrest and anodized aluminium legs. Diameter 25 mm. For indoor and outdoor use.

043 ROMEO
Stacking armchair with recyclable polypropylene seat and backrest and anodized aluminium legs. Diameter 25 mm. For indoor and outdoor use.

045 JULIETTE
Stacking chair with recyclable polypropylene seat and backrest and anodized aluminium legs. Diameter 25 mm. For indoor and outdoor use.

041 GALA
Stacking armchair in anodized aluminium with seat and back in recyclable polypropylene with latest generation of air moulding thermoplastic injection. Diameter 25 mm. For indoor and outdoor use.
040 BELLA
Stacking armchair in anodized aluminium with seat and back in recyclable polypropylene with latest generation of air moulding thermoplastic injection. Diameter 25 mm. For indoor and outdoor use.

089 PACIFIC
Sunlounger without arms, tubular frame in resin reinforced with glass fiber and cover in breathable synthetic fabric (replaceable). Stackable, back reclining in 5 positions, with non-slip feet and small wheels.

133 MYKONOS LOUNGE SET XL
Mykonos Lounge Set XL is designed for easy self assembly. It is made of durable weather-resistant resin reinforced with glass fiber. Non-metallic frame will never unravel, rust or decay. It is UV protected which insures the colors will not fade. Can be disassembled. For indoor and outdoor contract use.

* Can be purchased with or without cushions.
**MYKONOS LOUNGE SET**

Mykonos Lounge Set is designed for easy self-assembly. It is made of durable weather-resistant resin reinforced with glass fiber. Non-metallic frame will never unravel, rust or decay. It is UV protected which insures the colors will not fade. Can be disassembled. For indoor and outdoor contract use.

* Can be purchased with or without cushions.

**MYKONOS LOUNGE CORNER SET**

Mykonos Lounge Corner Set is designed for easy self-assembly. It is made of durable weather-resistant resin reinforced with glass fiber. Non-metallic frame will never unravel, rust or decay. It is UV protected which insures the colors will not fade. Can be disassembled. For indoor and outdoor contract use.

* Can be purchased with or without cushions.
White Taupe Silver Grey

**131 MYKONOS LOUNGE ARMCHAIR**
Mykonos Lounge Armchair is designed for easy self assembly. It is made of durable weather-resistant resin reinforced with glass fiber. Non-metallic frame will never unravel, rust or decay. It is UV protected which insures the colors will not fade. Can be disassembled.
For indoor and outdoor contract use.
