

# ROSINANTE

By Eero Aarnio

Carousels and ferriswheels have always fascinated children and adults all over the world. This in mind I started designing a product which I haven't seen before: a rocking horse for adults and children. Traditionally a rocking horse only rocks back and forth, but this horse has a base which also enables us to spin. And because the horse is made in Spain, it was naturally named after Don Quixote's world famous horse, Rosinante.
